BRITISHERS GET MAIL COURSE IN CANADIAN FARMING

WINNIPEG, Oct. 13. — A correspondence course of ten very practical lecturers on Canadian farming practices and conditions for the benefit of intending emigrants from Great Britain, Holland and Scandinavian countries has been inaugriated by the Canadian National Railways and is proving a tremendous success according to Dr. W. The course includes the following subjects Selecting a farm and erecting farm buildings. Livestock on the Canadian farms, farm machinery dairying, poultry, growing of grain and soil management forage crops, fruit growing, the farm house and making money on the farm. Hundreds of enquiries are bring received at the European bureau for the information these booklets contain, according to Dr. Black, and it is evident from the tone of these that hundreds of people who are looking towards Canada as a future home will spend the winter evening studying to prepare themselves as well as they can, to become adaptable settlers.

VANCOUVER SPIRIT

The spirit of the people of Vancouver is a constant source of wonderment and amazement to us. The people living on the banks of the Inlet not only believe that their city is going to be one of the wonders of the world; they actually seem to think that their climate is one of the chief charms of their city. Every cloud over there has a silver lining; the face of the sun, with a radiant smile upon it, shines through the gloom of every rainstorm, even if that storm lasts three or four weeks. —Victoria Times.
