# GIRL GUIDES TEA SUCCESS

**Large Attendance at Enjoyable Affair Yesterday Afternoon in Cathedral Hall**

A very successful tea and sale of home cooking was held yesterday afternoon in St. Andrew's Cathedral Hall by the three local companies of Girl Guides in aid of camp funds. Many ladies called during the afternoon to lend their patronage to the affair.

Mrs. J. B. Gibson acted as hostess and received the guests. Girl Guides waited on the tea tables and Guiders were in charge of the kitchen. Miss Betty Capstick was cashier.

The home cooking table was in charge of Mrs. J. A. Teng and Mrs. H. L. Landry while the candy sale was conducted by Mrs. M. M. Lamb and Mrs. A. Macdonald.

During the afternoon there was a delightful musical program which included piano solos by Misses Phedelia Stengal, Maxine Heilbroner, Jean McLean, Ethel Moorehouse, Edith Wilkinson, Grace Wilkinson and Maureen Kirkpatrick; dances by Misses Grace Watlinson and Freda Mussallem, and vocal solos by Mrs. J. A. Teng and Miss Lillian Croxford. Mrs. C. E. Cullin and Mrs. T. S. Black acted as piano accompanists.

# FAIR AT TERRACE

**Annual Show Had Good Exhibits and Was Well Attended**

TERRACE, Sept. 19:—The annual fair was held in the Veteran's Hall here last Friday, with a good attendance. There was a wonderful display of flowers and vegetables, although the vegetables did not make as good a showing as last year owing to the long continued dry spell. The complete prize list has not yet been compiled.

The fair was opened by Dr. Bamford of Smithers and the health booth was in charge of Mrs. Mills and Mrs. Halliwell. About one hundred and fifty children were weighed and measured.

The Borden Milk Co. demonstrated their product and gave each child a can of milk, school scribblers, etc. and when the final check-up is completed the child getting the most points is to receive a case of milk.

# Unemployment of Nurses Serious

**Communcation to Hospital Board Asks for Reduction of Number of Students in Training**

At last night's meeting of the hospital board a letter was read from the Canadian Nurses' Association announcing that, at the recent convention of that organization in Regina, it had been decided to request all hospitals in Canada operating nurses' training schools to reduce the number of students admitted in view of the serious unemployment of nurses now general throughout the Dominion.

Ald. Brown thought there was little the board could do on the matter just now as all arrangements had already bnee made for next year's class of students. The letter was accordingly filed.

**In Prince Rupert**

September 19, 1910

George W. Morrow appeared before the city council and urged that while provision was being made to supply the city with light, the matter of power supply be also considered. There were many businesses in the city that could take power were it available, he said.

Mitchell Albert, manager of the Westholme Lumber Co., announces that it is hoped to complete construction of the new government wharf here by October 10.

Dan Olsen, well known Kitselas prospector, is in town. He is working on the Avon group where he reports that he has a fifty foot ledge containing gold, silver and copper.

**ISOLATION HOSPITAL**

In answer to a question by G. V. Wilkinson at last night's meeting of the hospital board, H. W. Birch, managing secretary of the hospital, stated that nothing further had transpired in the matter of negotiations between the hospital board and city council regarding isolation hospital operation. There had been some difficulty in getting the committees together. Ald. Brown pointed out that it was getting a little late in the year to expect the city to undertake any new expenditures.

H. W. Birch, managing secretary inquired of Dr. J. P. Cade at last night's meeting of the hospital board if it would improve the health of members of the nursing staff if a quartz lamp, costing some $400 were purchased. Dr. Cade said that there might be certain benefits from such equipment but he was not ready to say off hand if one was necessary. A number of the nurses on the staff were under par in health but that might be due to overwork while the institution was understaffed.
