HIGH WINS IN SOCCER

Borden Street Lost By Score of 8-0 Saturday Afternoon

The scheduled Junior League football game was played on Saturday resulting in a win for the High School over Borden Street by a score of eight to nil.

High won the toss and kicked downhill. During the first few minutes of the game, Christison missed a good chance at the Borden goal, but, following a run up the field by Borden forwards was able to recover and put High one up. Following the centre, Borden pressed but Lindsay shot behind. The play remained fairly even for a while, with Kirkendall and Santerbane scoring for High, and the Borden forwards showing some good combination. Twice the High School goal was in danger but Morgan saved a hard shot from Lindsay, the return shot going behind.

The second half was featured by combination play on the part of the High School team, and by several dangerous attacks on the High goal by Borden forwards. Dungate, Santerbane and Christison added to the High score. Nelson, for the Borden side, struck the crossbar from a corner, and later again dropped the ball well in front of the High School goal. The last part of the half ended with the High School pressing and the score, High, 8; Borden, 0.

Referee, W. W. C. O'Neill, and linesmen, DeMarco and Hartness.

SPORT CHAT

College youths, recklessly exerting themselves in competitive sports for the glory of their alma mater, may unwittingly cause themselves great bodily harm, Dr. H. Marx White, professor of medicine at the University of Minnesota recently told the international assembly of the Interstate Postgraduate Medical Association at Milwaukee. The five mile events in track and rowing, Dr. White said, are especially damaging to young hearts. "Basketball, baseball, swimming and many of the track events are ideal exercise —when not engaged in too strenuously," he said. "Even football may be beneficial. But when a man is on exhibition for his alma mater and strains himself beyond his natural powers, he is injuring his body."

For the first time this season snow has tipped the mile-high mountains that surround Lake Placid, N.Y. Low temperatures of the past few days have left a covering of white on Marcy, Whiteface, and the other great Adirondack peaks, turning the minds of sports enthusiasts to the third Olympic Winter Games, to be staged there from February 4 to 13, 1932. A new impetus has been given to the Games with receipt of a letter from President Hoover, in which he says that he will recommend to the next session of Congress passage of a resolution exempting visiting contestants and officials coming to the Lake Placid Games from the usual passport and visa requirements upon presentation of the official Olympic identity cards, which will be duly visaed without charge; waiving the tax of eight dollars imposed under the immigration law; and granting free entry for their personal baggage and equipment to properly accredited and identified participants in the Lake Placid Games.

The RECORD SPEAKS for ITSELF

In opening the Canadian National Exhibition at Toronto on Friday, August 28, Earl Jellicoe said: "Over a period of 52 years, the population of Canada has increased by 6,000,000; the revenue of the Government from $22,000,000 to $460,000,000 and the value of her trade from $169,000,000 to $2,400,000,000. In the same time, her manufactures have increased ten-fold and her crop acreage three-fold. This remarkable record encourages a feeling of optimism for the future."

Earl Jellicoe also made the following reference: "Canada's record growth constitutes an achievement of world importance and stands as a challenge to future progress. This phenomenal growth is the direct result of that splendid courage and determination which the people of Canada showed so strikingly from 1914-1918".

The record for public favour which is held by Turret Cigarettes is the natural outcome of quality consistently maintained throughout the years. After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred".
