# Tells About Meat Packing At Luncheon

**G. E. Gulick Gives Interesting Address to Members of the Rotary Club**

At the regular weekly luncheon of the Prince Rupert Rotary Club yesterday, G. E. Gulick gave a very interesting talk on packing plants. He described in some detail the various stages through which meat passed before it reached the consumer. He said there were 74 packing plants in Canada and six in British Columbia. The packing industry came third in importance in the Dominion. Pulp and paper manufacture led with grist mills coming second.

One interesting sidelight was that only 53½% of the live steer was marketable as meat. In hogs the percentage was larger. Consumption of meat had increased at a rapid rate, indicating that vegetarianism was not popular.

At the conclusion of his address Mr. Gulick was thanked by President S. D. Johnston for his very interesting address.

# VESTRY MEETING

Especially was this true of the Woman's Auxiliary and the Sunday School.

Election of 1931 officers resulted as follows:

Rector's Warden, John E. Boddie.

People's Warden and secretary-treasurer, William O. Vigar.

Sidesmen, George A. Kelsey and S. Sunbury.

# Playing Children Set House Afire

**Damage Done Yesterday Afternoon to Home of Charles Lord on Thompson Street**

Furniture and the interior of the lower floor of the residence of Charles Lord, 733 Thompson Street were damaged by fire which broke out at 3 o'clock yesterday afternoon as a result of children playing with paper and matches in the living room. Mrs. Lord happened to be at the house of a neighbor when she saw her own home in flames. The fire department was called but meantime, men with buckets of water had done good work in quelling the flames.

The house was insured but the furniture was not. The loss to Mr Lord is about $250.

# POLES START TO MOVE NOW

During the month of December the Hanson Timber & Lumber Co shipped about forty carloads of poles from the central interior and so far this year has been shipping at about the same rate. There are sufficient stocks available now to fill all orders without going into the bush. If the present soft weather changes, camps may be opened in the bush a little later for the cutting of poles. At present they could not be taken out if they were cut.
