EX-PRESIDENT ROOSEVELT IS SHOT BY SOCIALIST WOUND NOT SERIOUS

Ex-President Victim of Attempted Assassination at Milwaukee Last Night Where He Was Resting After Tour Bulletin Says Wound Not Serious

(Special to Daily News.)

Milwaukee, Oct. 15.—Ex-President of the United States Theodore Roosevelt, the Progresisve candidate for the presidency, was shot in this city last night by a Socialist, who, it is believed, is demented.

Colonel Roosevelt was stopping in the city for a few days resting after his recent political tour through the Middle and Southern States. He was conferring with leaders of the "Bull Moose" movement and when but a few steps from the Kilpatrick Hotel, where he was staying, was suddenly confronted by the would-be assassin, who drew a revolver and shot the ex-President.

Immediately bystanders who recognized the Colonel rushed to his assitance and grappled with his assailant, who had only been able to inflict one wound.

Medical assitance was obtained immediately and he was given every attention. After a consultation the doctors issued a bulletin to the effect that the wound was no serious.

Feeling runs very high in the city as a result of the shooting, and Socialists, as well as others, are loud in their denunciation of the dastardly act.

Colonel Roosevelt arrived in this city for a few days' rest, coming from Gary, Indiana, via Chicago. His voice under the strain of the campaign was in a terrible shape and he intended to rest for a few days before continuing his active campaign. He refused yesterday to participate in a joint debate at Cleveland with W. J. Bryan.

His last speech was to the mill hands at noon yesterday at Gary.

POLICE ARE CALLED IN TO KEEP ORDER IN THE COUNCIL CHAMBER

Mayor Newton Calls in the Aid of the Police When Alderman Morrissey Will Not Stop Talking--Supt. Matthews Resigns Position---J. N. Wilson Appointed to Charge of Telephone Department

"Police! Call the police!" was the cry that reverberated through the city hall last night in Mayor Newton's stentorian tones. No criminal had invaded the sanctity of the council chamber nor was the limb of the law to be invoked for the protection of life or property. It was Mayor Newton's method of bringing Alderman Morrissey to order, after failing to out-shout that councillor, and outdo him in pounding the table.

The cry for help in maintaining order was the final result of Alderman Morrissey's attack on the police commissioners for not taking action in regard to an officer who, Alderman Morrissey said, refused to do his duty because the man whom he had been called upon to arrest belonged to the same fraternal order.

Those who attended the council meeting to see the "fun" were not disappointed for there was considerable excitement during the course of the evening.

Superintendent Matthews of the electric light plant sent in his resignation, which was accepted, to take effect at the end of the present month and not on the 15th of December as requested by Mr. Matthews.

Mr. J. N. Wilson of Vancouver was appointed by ballot to the position of superintendent of telephones, lately vacated by Mr. Love.

All the aldermen were present and the hall was full of spectators when City Clerk Woods read the minutes of the previous meeting, which were adopted without alteration.

Mr. Matthews wrote resigning his position as superintendent of the power and light plant. He stated that he wanted it to take effect on December 15th. This would give the city time to secure another man and he would be pleased to give the new superintendent any information and help in his power.

Alderman Montgomery moved and Alderman Maitland seconded that the resignation be accepted, to take effect on December 15th.

Alderman Clayton moved an amendment to the effect that the resignation should be accepted and Mr. Matthews released at once.

Alderman Kerr seconded the amendment.

Alderman Bullock - Webster asked why Alderman Clayton would release Mr. Matthews at once.

Replying to Alderman Bullock-Webster, Alderman Clayton said that the committee had a report which they were going to submit had not the question arisen already to the effect that things were not in as good shape as they might be at the power plant and that the committee considered, in the light of the complaints which had been made, that Mr. Matthews had outlived his usefulness.

Alderman Clayton was asked what would be done in the event of Mr. Matthews leaving immediately, to which he replied that did Mr. Matthews leave, within a few hours a capable man could be secured to take charge of the plant.

Alderman Kerr told of having received ten different complaints regarding Mr. Matthews and knew of one person who would use thirty horse power were it not for the fact that the present superintendent was in office. The Empire has published a report showing a gain of $550 by the power plant under Mr. Matthews, but no mention was made of the losses through default. In one case recently the city had lost $140 by a restaurant keeper failing to pay his bill.

A heated argument followed between Alderman Kerr and Alderman Montgomery, in which several of the other aldermen joined.

When comparative quiet had been restored, Alderman Montgomery arose and lifted a warning finger and advised the Mayor to look well into the credentials of any man selected for the vacant position, hinting darkly at corruption and bribery of high officials in other cities he knew of.

Alderman Maitland withdrew as seconder of the motion, consequently the amendment became the motion and it carried.

A communication from Thomas Burns, late assistant superintendent of the power plant re a balance due him as wages was referred to the Electric Light committee for report.

A modest request from the Pantorium for permission to erect a sign, which would not inconvenience the traffic on the sidewalk led to a debate of more than a half hour's duration, in which His Worship and all the aldermen took active parts.

It was finally decided that the city would not "sign" away their rights, but would stick to the letter of the bylaw regarding such cases.

A communication from the Prince Rupert Hydro-Electric Company in answer to the Council's request for quotations of power rates delivered at the city's gates and apparently also in reply to a query regarding the news source of the Journal, said that Mr. Durant, the writer of the letter, would take the matter up with his company. He had not supplied a copy of the proposed agreement to the Journal.

A request for a donation toward the purchase of prizes for the rifle shooting competition on Thanksgiving Day met with the approval of all the councillors with the exception of Alderman Montgomery, who did not approve of training men to kill their fellowman. It was a reminder of the "dark ages,' 'and as a citizen and alderman he objected. He was fairly launched on a political speech when the Minister of Finance sprang to his feet and cut into Alderman Montgomery's oration with the statement that the request met with his approval. He referred in touching tones to the value such practice would have been to those who were leaving the vicinity to engage in the Balkan war.

So enthusiastic did the Aldermen get in their speeches, motions and amendments, that Alderman Kerr, after making an amendment to the motion before the Council, turned around and led the debate and voted against his own proposal.

Alderman Kerr questioned the Mayor as to the architect whose brilliancy was evidenced in the building of the crossing at Fulton street and Third avenue.

Alderman Dybhavn, chairman of the Board of Works, rose to the defense of his department and explained that the crossing had been laid in strict accord with the provisions of the bylaw. In this he was supported by Alderman Morrissey.

Aldermen Kerr and Montgomery did not approve of the crossing and stated so.

The applications for the position of superintendent of telephones were next considered, and after one ballot Mr. J. N. Wilson, a gentleman of wide experience in the City of Glasgow and in this country, was selected to fill the vacancy.

On Alderman Montgomery's suggestion to advertise for applicants for the superintendency of the power plant a debate arose which waxed warm and interesting and which before concluding involved the City solicitor as to what salary should be paid the new superintendent. It was finally agreed that $200 be inserted in the advertisement.

The Light and Power committee reported that it would not consider the cutting off of light from good customers who owed a trifle of 5 cents and referred the list of subscribers in arrears back to the Council, saying that some of those charged with being in arrears had already paid.

The report led from the electric light department to the waterworks and the system in vogue of collecting water rates six months at a time instead of every month was criticized by several of the aldermen.

Alderman Douglas, thinking that some slight had been intended on the assesor's office, indignantly defended that department.

Alderman Kerr, Alderman Montgomery and the Mayor made mention of the fact that although monthly statements of the waterworks book had been asked for none had been forthcoming.

Alderman Morrissey joined in the fight and graphically described how the collector would be after a rate payer for his six months' dues in advance like a bloodhound, but householders

MAY NOT HAVE REDISTRIBUTION

Premier Intimates After Council Meeting That Redistribution May Not Take Place.

Ottawa, Oct. 15.—At the conclusion of the Cabinet Council meeting, Premier Borden made the statement that the date for the opening of Parliament would not be announced until next week. The general expectation is that the opening ceremonies will take place on Thursday, November 14th, although there is still a possibility that the date chosen will be November 21st. The latter date will not be decided upon, however, unless it is found to be absolutely impossible to have things in readiness for the earlier date.

Some doubt still exists as to whether or not the redistribution bill will form a part of the sessional programme. As there will be much to do without it, there is no possibility of a general election taking place next summer. If the government's naval policy is not brought down this session, it may be considered expedient to defer redistribution until the 1913-14 session.

Col. A. D. McRae, managing director of the company, stated that construction of the mill is well under way. It will go into commission early in the new year.
