MURDOCK GIVES HIS ANSWERS

Local People Make Queries of Magician Who Performed Last Night

Following Murdock's first performance last night at the Westholme Theatre, he selected 25 questions at random that were not answered from the stage on account of his limited time, and as announced in Monday's edition of this paper, he gives the answers to these questions through these columns. Only the initial of the questioner is used in the printed answer. Murdock will continue to answer questions in this manner until the close of his engagement here Thursday night.

Here are some of Murdock's questions and answers for today. Are yours among them?

G.L.M.—During a recent journey I lost my wrist watch. can you help me to recover it? Answer: The vision that I get proves to me that you lost it during your trip from Seattle to Prince Rupert; the watch was picked up by one of the employees of the boat and if you will write a personal letter to the purser of same, you will recover it.

Y.O.P.—Would you advise me to invest my money here in Prince Rupert as I now plan? Answer: Yes, I do, as I see wonderful opportunities ahead of you in this direction. Carry out your present plans and within a short time you will make remarkable headway.

Husband's Respect

I.P.L.—Why can't I regain the respect of my husband? Answer: Because you are cheating. If you would play fair and give up the friendship of the man from "K" you could be successful in this regard. If you will come to the special "Ladies Only" matinee Thursday afternoon at 2.30 p.m. I will give you some information from the stage that will interest you.

R.E.F.—Can you tell me of the whereabouts of my sister, last heard from in Winnipeg? Answer: Ordinarily I would not answer your question as you have violated one of my rules, that of signing the incorrect name. You signed a fictitious name, "W. E. R.," and hereafter no attention will be paid to fictitious names. Write to your sister 736 Lafayette Ave., Kansas City, Kan. Her name is now B. Griffith.

S.L.C.—Can you tell me who I will marry and when? Answer: You will marry the man you are now engaged to, "H.W." I see that the marriage will not take place, however, until June, 1927.

D.F.V.—Do my sweetheart love me? Answer: He do!

Paying Investment

L.D.V.—Will the investment I recently made prove to be worth while? Answer: Yes, it will. It will pay dividends the first of August. Don't sell as you had planned.

M.I.O.—If I go to Alaska next week will I make any money? Answer: That depends upon you to a degree you can get the position near Wrangell, and it will pay good money, if you can but pay attention and hold on to it.

C.N.N.—Do you see a journey ahead of me? Answer: You will take the contemplated journey within two weeks.

POWER IS DISCUSSED

City Council Receives Report from Superintendent But Takes no Action

Considerable discussion took place last evening at the council meeting in respect to the power for the city's present and future needs. The matter was introduced after a letter from Superintendent Love was read setting forth the costs to the city of selling power to the grain elevator. The letter went into details in respect to the possible requirements of the No. 1 Elevator at Vancouver which required 1,086,000 K.W.H. and on the basis of sale of this amount the city would net a revenue of $12,080 per year. Of this requirement it would be necessary to purchase 600,000 K.W.H. from the local dry dock and this would cost the city $18,000, if the dry dock charged 3c per K.W.H. for it. The city would further lose the money now received from the drydock for power supplied and this amounted to about $4,000. This would mean a loss to the city then on this basis of $9,920.. However, the estimated revenue from the electric light for the year would result in a surplus of $17,600, which would more than take care of the loss sustained in selling to the elevator.

The idea of purchase, however, was only a temporary one, and was approved by the Utilities committee for the present, as they did not think it advisable to spend $400,000 as a capital expenditure this year to take care of this need. This expenditure would mean an annual charge of $40,000 to take care of interest and sinking charges, and with this in view it would seem better to take a loss as might be expected under the circumstances.

Indiscussing the matter, Alderman Casey said it was true and the citizens knew it that it was expected to supply the elevator at a loss for the present. He further criticised headlines in the press a week ago in which the wrong impression was given and he considered it poor policy to advertise this to the world.

Acting Mayor Stephens thought it a wrong principle for the city to be the go between, acting as third party in buying power from one government plant and selling it to another government plant at a loss.

Superintendent Love then went considerably into detail explaining the proposed development at Woodworth Lake and reported that Engineer Davis of the Lands Department had been in the city and checked up the matter very carefully. His report would be available by application to the department.

The whole matter of power for future use received very exhaustive treatment by the superintendent, and he answered questions put to him by the various members of the council. Detailed costs of additions and expected revenue accruing to the city for a period of years were presented, and the necessity of making provision for the future was emphasized. The superintendent said that, in any event, the present power plant and one machine at the dry dock would not be sufficient to meet the city's need beyond the fall of 1927.

After further discussion the matter was dropped for the time being.
