SURFACING OF MANY STREETS

Board of Works Would Put Present Roads in Shape Before Building New Ones

So that money and energy may be concentrated this season on the tarvia surfacing of various graded roadways already in existence, the Board of Works had a report before the city council last night recommending that the program of new grading for this year be limited to Fourth Avenue East, Seventh Avenue West, Dunsmuir Street, Borden Street and Summit Avenue. The report was laid on the table for a week so that the program may be more fully gone into.

Speaking to the report, Ald. Perry stated that, if it was adopted, it was anticipated that the city would be able this year to tarvia surface all the existing graded roads with the exception of the island and cemetery roads.

Ald. W. J. Greer felt that, if necessary, the grading of Borden street could also be delayed for another year. The plank road there was not in bad condition and the residents involved were not very anxious that the work should be proceeded with this year. It was important, he felt, that the city should concentrate this year on putting graded roads already in existence in proper shape.

Ald. Casey thought that, before any definite decision along the line suggested be made, the taxpayers should be fully informed of the intention. They should be given time to get their requests for road work in before the door was closed. As an instance of where a roadway or sidewalk was necessary, he pointed to Alfred Street.

Ald. Stephens did not see where the project for tarvia surfacing should interfere with new work. According to the estimates submitted by the board of works, it would cost little if any more to tarvia surface the roads in question than would be involved in ordinary year's maintenance.

Ald. Larsen pointed out that if the roads were not tarvia surfaced, maintenance next year would be much greater.

After further discussion, the report was laid on the table for a week.

AMERICAN HALIBUT GETS BEST PRICES

Arrivals This Morning Totalled 161,500 Pounds—Prices Are From 6c to 16c

Halibut arrivals this morning totalled 161,500 pounds of which 104,500 pounds was from five American schooners and the balance from ten small Canadian vessels. There was a good two cents difference in the bidding between both first and second class American and Canadian fish, the former receiving on an average slightly under 16c and 8c and the latter under 14c and 6c.

The day's arrivals were as follows:

American

Eastern Point, 4,500 lbs., to the Atlin Fisheries.

Onah, 8,000 lbs., and Cedric, 21,000 lbs., to the Canadian Fish & Cold Storage Co.

Grant, 25,000 lbs., to the Pacific Fisheries.

Wizard, 46,000 lbs., to the Booth Fisheries.

Canadian

Selma 6,000 lbs., Nuba 3,000 lbs., and Kaien 7,000 lbs., to the Canadian Fish & Cold Storage Co.

N. & S. 4,000 lbs., Margalice 6,500 lbs., and Scrub 8,000 lbs., to the Atlin Fisheries.

Verna 4,500 lbs., Swing 4,500 lbs., and Ringleader 8,500 lbs., to the Royal Fish Co.

SCIENTIFIC EXPEDITION FAR AS ETAH

Party Will Seek Specimens for American Museum of Natural History

NEW YORK, Mar. 9.—An expedition commanded by Capt. Robert Barllett and to be carried out under the auspices of the American Museum of Natural History will be made to Greenland next summer to collect material for the museum's newly completed hall of ocean life.

The expedition will be organized and directed by George Palmer Putnam, publisher. It is expected it will start from New York late in June, proceeding through the Strait of Belle Island up through Davis Strait and Baffin Bay along the westerly coast of Greenland. The most northerly objective will be Etah, on Smith's Sound, Ellesmereland, Devon Island, Baffin Island and adjacent waters, depending upon ice and weather conditions, will be visited and be the chief center of collecting activities.

Among the specimens the museum hopes to secure are the narwhal and the Greenland brown shark, banking sharks, seal and walrus. It is expected to secure several groups for the museum's new hall.

It is possible that Knud Rasmussen, famous Danish explorer, will be included in the personnel of the expedition. The party will also include Robert Peary, twenty-year-old son of the late Admirl Peary. He is now completing a university engineering course at Lehigh. Ezra Winter, mural artist and Arthur Young, noted hunter and bow and arrow expert, are also expected to join in the expedition.

END OF WORLD COMING SOON

Chicago Professor Says it is Only a Quadrillion Years Away

CHICAGO, March 9.— Professor F. R. Moulton of the University of Chicago, has fixed the date of the end of the world. But there is no immediate cause for alarm. You may figure it out yourself, he says, like this:

The earth is two thousand million years old. The average life of such a planet is a thousand times a million times a million years or 1,000,000,000,000,000 (one quadrillion) years. So it will go on whirling on its orbit for another 500,000 times as long as it has already whirled.

And when that time comes, the sun will get too close to this planet and pouf! that will be all. Just like the snuffing out of a candle it will melt and be destroyed.

Discussing the universe before a group of students recently Professor Moulton pictured it as a vast space, 30,000 light years from top to bottom, and 200,000 light years from end to end—a watch-like disc. Light years are based on the travelling speed of light 186,000 miles a second.

The Lost is Found

Full zipper-deep in blackest slush,
I've found, ye gods, right here,
Just what the poets long have sought—
The snows of yesteryear!

E.B.B.

J. McMahon, engineer for P. Burns Co., Ltd., arrived in the city from Vancouver on the Prince Rupert this afternoon.

WATER NOTICE.

Diversion and Use

TAKE NOTICE that North Pacific Forests and Mines Ltd., whose address is 301 Pemberton Building, Victoria, B.C., will apply for a licence to take and use 30 cubic feet per second of water out of Kagan Creek, which flows southerly and drains into Slate Chuck Creek about one and one half miles from its mouth. The water will be diverted from the stream at a point about one half mile northwesterly from the southeast corner of Sec. 23, Tp. 2, and will be used for Domestic, Mining, Power, Steam, Industrial purposes upon the land described as parts of Townships 2 and 4, Graham Island, held as Coal Licences or leases by applicant. This notice was posted on the ground on the 27th day of February, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objection to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is March 4th, 1926.

NORTH PACIFIC FORESTS AND MINES LTD., Applicant.

THORNTON AND PRINCE RUPERT

Head of Railway says Fully Alive to Situation and Will Leave Nothing Undone to Secure Business

R. E. Benson has had an interesting letter from Sir Henry Thornton in reply to one sent him along with a photograph of the new grain elevator. Sir Henry says:

"I have to thank you for your letter of February 20 sending me a photograph of the newly completed grain elevator at Prince Rupert. Now that the elevator is ready for operation nothing will be left undone by the Canadian National Railways to secure the shipment of grain through the port of Prince Rupert.

"The export grain business, however, is a somewhat technical one and there are many factors in connection with it which do not occur to the layman. Suffice it to say that it is not possible to divert grain traffice or create new grain routes overnight.

"As stated above, our people are fully alive to the position and are doing everything they can to start the elevator going."

A reply was also received from Premier Mackenzie King through his private secretary.

GOVERNMENT IS TO TAKE ACTION

Council Hears From Ottawa That Floats May go in at Cow Bay This Year

That there may be action taken during the present parliamentary session at Ottawa with respect to the providing of new moorage accommodation at Cow Bay for the masquito fleet was indicated in a letter read at last night's meeting of the city council from Hon. Dr. J. H. King, minister of public works.

The letter, which was in reply to an offer made by the city to convey to the federal government waterfrontage for the purpose of building wharves and floats, said waterfrontage to be conveyed to the city by the provincial government in exchange for surrender of municipal rights in Cow Bay, stated that when the report of the federal engineering branch is presented, the matter will be referred to council for consideration in connection with the supplementary estimates for the year.

The communication was filed by the council.

WIFE DESERTION

Percy Claridge, Facing Charge in City Police Court, is Remanded for Eight Days

City Police Constable A. G. Crate returned on this morning's train from Terrace bringing with him as a prisoner, Percy Claridge, who is facing trial in the city police court on a charge of wife desertion. The case came up this morning and, at the request of the prosecution, was adjourned for eight days. Claridge, whose wife resides in the city, was arrested by the provincial police at Terrace.

CUT GLASS WEEK

How to know real Cut Glass, what to look for and what to avoid in selecting genuine Cut Glass.

The brilliant diamond-like sparkle which is the chief charm of the genuine article is only produced after careful and painstaking work on the part of expert workmen.

The ordinary pressed glass tumblers and glassware with their yellowish tinge, yield a dull clink when struck, which is not to be compared with the musical bell-like tone of the genuine Cut Glass.

The high percentage of lead in high grade glassware gives it that scintillating brilliancy.

See our window display this week.

QUESTION OF 'PHONE DIRECTORY SETTLED

Tenders to be Called by City on Basis of Having Advertising Inserted

The proposal of Rose, Cowan & Latta to insert advertising in the city telephone directory, which was laid on the table by the city council last week, was accepted last night and, on motion of Ald. Brown, seconded by Ald. Larsen, it was decided to call for tenders for the printing of the book on that basis. Ald. Stephens, who was opposed to the idea of advertising in the directory, voted negative.

LONDON OPERA SEASON GAYEST SINCE THE WAR

Covent Garden to be Scene of Many Old Favorites with King as Patron

LONDON, Mar. 9.—The opera season opening in May with the King and Queen in the audience and Melba, Chaliapin and Jeritza on the stage will be the gayest in London since long before the war and Covent Garden will once again be the center of the Spring social season.

"La Boheme" in which Melba will make her farewell appearance, is the King's favorite opera and heads the list of performances which His Majesty has selected to attend. The Wagnerian operas evidently do not appeal to the court taste for the Royal Box will be empty on the nights on which they are sung.

Few people know that the King pays for his theatre seats like any of his rich subjects. As a matter of fact he pays advance cash.
