DIFFICULT TO UNDERSTAND

Editor, Daily News:—

Bill Streseman, well known logger of Queen Charlotte Islands, says he is going to borrow Paul Bunyon's broad axe to hew off that famous corner around which someone said prosperity was hiding. He thinks without that corner prosperity will soon be here.

Seriously though, what the Queen Charlotte Islanders would like to know is why they get so little for what they sell and pay so much for what they buy. Here is an instance:

One farmer sent out six cow hides and received in return a check for 60c, yet shoes and boots are just as high as during war time.

Another farmer shipped out ten sheep hides in return for which he received 40c, yet clothes cost just as much today as during war time.

On the prairies some of our farmer friends are burning wheat because it is cheaper to burn wheat for fuel than wood, yet 40 years ago the Hudson's Bay Company sold flour which was freighted up in canoes cheaper than it is sold today.

Coffee is higher today that it was 40 years ago, yet in Brazil it is cheaper to fire locomotives with coffee than with coal.

Why is such a condition allowed in this our Canada, so called, the land of the free? Surely here are important things for our noisy politicians to look into. If not, it is up to the people to elect a government that will.

E. C. STEVENS,
Skidegate.
