PREPARE FOR THE FUTURE

The future of any city depends a great deal upon the foresight and business acumen of the pioneer business men. Even as an injury to a tree will be shown in the growth of the trunk and will bear evidence of the wound after years, so will a city always bear witness to the follies or wisdom of its pioneers, and the mistakes of today will be the wounds of tomorrow.

When David Oppenheimer wanted the citizens of Vancouver to secure the street ends along the waterfront, they laughed at him and said he was trying to waste money. When he recommended the corner of Pender and Granville streets for the site for the post office he was accused of bartering away the rights of the citizens and compelling them to submit to an inconvenience because he was deriving personal benefit from the sale of

the lot. But now that he is dead and twenty-five years have passed, a monument is erected to his memory and the site of the postoffice proved to be the best corner in the city.

Vancouver had good hard-headed business men in control of the destinies of the city in the early days, and, although they made grave mistakes in many instances, on the whole they laid the foundation for the most remarkable city in Canada today. The early councils and boards of trade worked together and continually for the advancement of the city.

Prince Rupert has the right kind of men, business men who foresee the future in store for the city and who appreciate the requirements of the present, and it behooves these men to get together, compare ideas and formulate schemes for the solid foundation of the city which must inevitably grow out of the Prince Rupert of the present.

TEN BUSINESS COMMANDMENTS

I. Thou shalt not wait for something to turn up, but shalt pull off thy coat and go to work that thou mayest prosper in thy affairs and make the word failure spell success.

II. Thou shalt not be content to go about thy business looking like a bum, for thou shouldst know that thy personal appearance is better than a recommendation.

III. Thou shalt not try to make excuses nor shalt thou say to those who chide thee: "I didn't think."

IV. Thou shalt not wait to be told what thou shalt do, nor in what manner thou shalt do it, for thus may thy days be long in the job which fortune hath given thee.

V. Thou shalt not fail to maintain thine own integrity nor shalt thou be guilty of anything that will lessen thy good respect for thyself.

VI. Thou shalt not covet the other fellow's job, nor his salary, nor his position, which he hath gained by his own hard labor.

VII. Thou shalt not fail to live within thy income, nor shalt thou contract any debts when thou

canst not see thy way clear to pay them.

VIII. Thou shalt not fail to blow thy own horn, for he who is afraid to blow his own horn at the proper occasion findeth nobody standing ready to blow it for him.

IX. Thou shalt not hesitate to say "No" when thou meanest "No," nor shalt thou fail to remember that there are occasions when it is unsafe to bind thyself by hasty judgment.

X. Thou shalt give every man a square deal; this is the last and great commandment and there is no other like unto it; upon this commandment dependeth all the law and the profits of the business world.

M'BRIDE CONDEMNED BY UNION MEN OF NEW WESTMINSTER, B. C.

ROYAL CITY WORKERS CONDEMN M'BRIDE AND GOVERNMENT FOR THEIR ACTIONS IN REGARD TO STRIKING MINERS AT LADYSMITH—UNION BEHIND THEM.

Vancouver, Oct. 30.—Locked-out coal miners at Cumberland and Ladysmith will receive the financial backing of the United Mine Workers of America. This, in effect, is the statement of George Pettigrew, member of the executive board, who passed through this city on Wednesday en route to Nanaimo from Indianapolis. The company is endeavoring to secure non-union miners and engineers. The men realize that this will be a turning point in the history of the union on Vancouver Island; for better or for worse and so are determined to leave no stone unturned to win their fight.

About 140 Chinese and Japs have gone back to work, but are unable to accomplish anything like the work done under normal conditions. The locked-out miners are firm.

The New Westminster Trades and Labor Council, at its last meeting, October 23rd, unanimously passed the following resolution:

"Whereas, The Mines Regulation Act provides that the miners have the right to appoint a committee to examine the mines in regard to the safety of the workings; and

"Whereas, In exercising that privilege the committee appointed by the miners on Vancouver Island discovered the presence of gas in the workings, the government inspector of mines also reported finding the same conditions; and

"Whereas, Members of that committee were discriminated against by the mine owners; and "Whereas, The Miners' Union appealed to the Premier of the

province asking that he hold an investigation into all the circumstances, which request he refused; and

"Whereas, It is one of the fundamental principles of organized labor that an injury to one is the concern of all; therefore, be it

"Resolved by the New Westminster Trades and Labor Council, That we, the central body of organized labor in this city, enter a most emphatic protest against the government in allowing such discrimination to continue, and urge upon them the necessity of making a strict investigation into all the facts, and that a copy of this resolution be sent to Sir Richard McBride, premier of British Columbia, and to Thomas Gifford, M. P. P., member of this constituency.

GEORGE TITE'S DARK PAST

The following clipping was reprinted in the Victoria Times of October 28th from the issue of that date 25 years ago, and will prove interesting in that it has reference to one of Prince Rupert's leading citizens:

"In the police court today George Tite was charged with using a catapult on Sunday morning. He admitted using it, but did not know he broke windows. His Honor read a bylaw showing that it was unlawful to throw snowballs or other things. As it was the first case he was discharged. The superintendent said catapults are for sale in the stores, and many complaints are received of broken windows and the use of catapults by small boys."
