EVOLUTION WILL BE ESTABLISHED

Important Scientific Experiment is Under Way in French West Africa.

NEW YORK, June 30. — What promises to be one of the most important scientific experiments of modern times is already under way at the reservation of the Pasteur Institute of Kindia, French West Africa, it is revealed by Howard S. England, Detroit lawyer and biologist. The purpose of the experiments is to reproduce specimens of primative man by hybridizing human beings with the various species of living anthropoids. Mr. England, the first to propose these bybridization experiments, secured the use of the large Kindia laboratories from Dr. A. Calmette, of Paris, noted French biologist. Dr. Edwin E. Slossen, of the Science Service, of Washington, D. C., is also co-operating with him in advancing the project.

A statement issued by Mr. England explained that Dr. Elie Ivanoff of Moscow is already on the ground. "The Russian government has advanced $10,000 for the undertaking," he said. Within a short time, as support is forthcoming, I shall leave for Kindia to assist in conducting the experiments.

"We are confident that hybrids can be produced, and, in the event we are successful, the question of the evolution of man will be established to the satisfaction of the most dogmatic anti-evolutionists. Orang outangs, chimpanzees, and gorillas will be employed, and possibly gibbons. My original idea was that only hybrids from the gorilla would prove fertile, and from those alone would it be possible to produce the complete chain of specimens from the perfect anthropoid to the perfect man. Dr. F. G. Cruikshank, of London, however, author of 'The Mongol in Our Midst,' who has made a minute anatomical study of the three larger anthropoids, is convinced that, if the orang be hybridized with the yellow race, the gorilla with the black race, and the chimpanzee with the white race, all three hybrids will prove fertile and reproduce themselves. In his opinion each species of anthropoid is more closely related to its corresponding human type than it is to either of the other anthropoids. In other words, Dr. Cruikshank believes that the chimpanzee has a closer relationship to the white race than to the gorilla or the orang. The gibbon he considers has its corresponding human type in the more brachycephalic peoples of Europe. We shall proceed along these lines, as I am now in complete accord with Dr. Cruikshank's views.

Artificial Fecundation

"Dr. Ivanoff has been most successful in artificial fecundation, and has crossed many species of animals. Kindia is the natural habitat of the gorilla and chimpanzee. It is also suitable for the orang and gibbons, and the climate is such that white scientists can live there without danger of contracting tropical diseases. The Kindia reservation comprises several thousand acres and is supported by an annual appropriation of 20,000 francs by the French government. Free use of the laboratories and grounds has been extended to us, but it will require a fund of $100,000 to carry out the work. The Russian government having borne the initial cost, several prominent American patrons of science have become interested, and the foundation will doubtless be named for the principal donor," he concluded.

The American Association for the Advancement of Atheism will help promote the experiments. The Atheists say they will send competent representatives into each state that attempts to pass an anti-evolution law and put the case for evolution before the public.

CURSING MOTHERS BLAMED FOR LOOSE SPEECH OF GIRLS

LONDON, June 30.—Bad language of the modern mother is responsible for a great deal of loose speech among schoolgirls, Miss Mary Morrison, principal of the Francis Holland school for girls, told the annual conference of Head Mistresses' Association here.

"For years we have made allowances for father's strong language." Miss Morrison assrted, "but now mother is nearly as bad, and it is having a serious effect on the girls' speech among themselves. This is all a part of the so-called greater freedom."

SURGEON FINDS 95 LEADEN PELLETS IN WOMAN'S APPENDIX

BERLIN, June 30.—Ninety-five leaden pellets, weighing 24 grams, were found in the appendix of a woman operated on by Dr. Sonnefeld. The patient is a forester's daughter, who has lived chiefly on game shot by her father. The small shot which she swallowed while eating the game are said to have lodged in the appendix.

They did not cause the woman the slightest discomfort. The surgeon performing an operation having nothing to do with the appendix.

G.T.P. DEBENTURE HOLDERS THREATEN TO BRING ACTION

LONDON, June 30.—The Grand Trunk Pacific debenture holders' committee have taken their counsel's opinion that the placing of various items of interest in front of the Pacific guarantee is legally inadmissable, and that the only way to deal effectively with the arguments submitted by the railway is to take legal proceedings.

Financial circles believe that no development is likely to occur immediately. To go to law, one financial writer remarks, is a course which "dividend-less" stockholders can hardly contemplate with enthusiasm.

MAPLE LEAFS GIVEN CHARGE OF CATERING DOMINION DAY DANCE

At a meeting of the Native Sons Dominion Day dance committee last night it was decided that the Maple Leaf basketball team, assisted by their trainer, Ralph Smith, would have sole charge of the catering arrangements at the exhibition hall. Members of the team who will decorate the luncheon room in the hall and assist at the tables include Miss Margaret Graham (captain), Miss Myra Harvey, Miss Catherine Harvey, Miss Helen Grant, Miss Aileen Stephens, Miss Dorothy Macdonald and Miss May Thompson.

Among passengers making the round trip to Alaska on the Princess Louise this week are Col. and Mrs. A. W. Jones, Lady Barnard and Mrs. Hermann Robertson of Victoria. They will be back here southbound on Saturday.

SPORT CHAT

With a two-game baseball series between Prince Rupert and Ketchikan and the Dominion Day cup football final to saynothing of children's sports and other features, the Native Sons of Canada are offering a program of entertainment for the celebration of Dominion Day tomorrow that should prove of interest to all. There will be no excuse for anybody to leave the city with such a complete program offered. The committees have been working hard and all that is now necessary for complete success is favorable treatment at the hands of the weather man.

The first Ketchikan-Prince Rupert baseball game at the Dominion Day celebration tomorrow will take place at 1:30 and the second at 6:30. The following team, representing Prince Rupert, is requested to report at Acropolis Hill grounds at 1 o'clock tomorrow afternoon: Balfour and McKeown, catchers; Schenkler and Stickney, pitchers; V. Menzies, 1b.; Farquhar, 2b.; Moran, ss.; Haveland, 3b.; Lambie, lf.; W. Mitchell, cf.; Perry, rf.; George Mitchell, substitute.

Owing to the fact that the Naval Reserve was unable to field a full team, the Intermediate League football game called for last night, between the Naval Reserve and the High School, was postponed until Saturday. A scratch game was played last night between pick-up teams resulting in a 6-1 score. The line-ups for the regular Intermediate fixture tonight between the High School and the Y Macs will be as follows:

High school—Kinslor; Mackay and Mortimer; Stalker, Bond and Parker; Currie, Y. Katsuyama, W. Murray, E. Katsuyama and Matheson; spares, H. Macdonald and G. Veireck.

Y Macs.—Hacker; Cameron and Reid; Kerr, Roberts and Kelsey; Phillips, Dickens, Strachan, Crate, Hunt and Smith.

Roy Cliffe, the Courtenay (Vancouver Island) boy who has been fighting in the light-heavy division for the past two years, will enter the ranks of the heavies on July 1, when he fights Ole Anderson, of Seattle, at the Stadium in Courtenay. Anderson weighs 196 pounds, is twenty-eight years of age, and has fought nearly all the best men in the United States. He lost a close decision to Harry Wills; holds decisions over Carl Morris, the Oklahoma giant; Billy Miske and Frank Farmer, and has knocked out Bill Brennan, Sam Baker, Jim Flynn, Glen Johnson and Floyd Johnson. Cliffe will fight at 175 pounds and is confident that his speed will offset the advantages gained by Anderson by his superior weight and ability to hit heavier. If the B.C. boy can take the measure or Anderson it will be a big boost for him.

The scheduled fight between Georges Carpentier, the French light-heavyweight, and Eddie Huffman, of Los Angeles, at Ti Juana, Mexico, July 4, has been called off. Carpentier sprained a hand in his fight with Tommy Loughran at Philadelphia recently.

Negotiations are under way for a sculling race in which Jack Beresford, of London, world's sculling champion, would defend the Philadelphia gold challenge cup against Walter M. Hoover, and other prominent United States scullers during the national championships in Philadelphia in August.

HELP WANTED.

LADIES, honest, sincere people, address envelopes for our advertising campaign. Experience unnecessary, no canvassing. Profitable, interesting work. Saong Co., 112 West 42nd, New York.

TO RENT

WATER NOTICE.

Diversion and Use.

TAKE NOTICE that Robert George Johnston, whose address is Inverness Cannery, will apply for a licence to take and use a portion of water out of creek west of wharf at China Hat, name unknown, which flows southeast and drains into Trout Bay about 400 feet south along the beach from the southeast corner of "A" Kitasoo I.R. The water will be diverted from the stream at a point about 500 feet from its mouth, and will be used for domestic purpose upon the cannery described as Lot "A," Kitasoo I.R. This notice was posted on the ground on the 11th day of May, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is June 4, 1926.

ROBERT GEORGE JOHNSTON, Applicant.
