**TRAWLERS LEAVE GRIMSBY FOR BIG RUPERT FISHING CONCERN**

**GEO. E. FOSTER AND ANDREW KELLY START ON THEIR LONG VOYAGE TO PRINCE RUPERT FROM ENGLAND. WILL ARRIVE HERE NEXT JANUARY.**

Two more steam trawlers are now on their way from Grimsby, England, to Victoria via the Straits of Magellan, according to advices which were received by the Times yesterday. On October 8 the sister trawlers, G. E. Foster, named after the minister of trade and commerce, and the Andrew Kelly, which takes its name from the well-known merchant in Winnipeg, started from Grimsby on their 15,000 mile voyage.

The two trawlers resemble somewhat the Celestial Empire, of Vancouver. They are heading from Grimsby to St. Vincent, and will then cross the Atlantic to Montevideo. They will stop at Punta Arenas for supplies, and then steam to Coronel for more coal. Whether the trawlers will be able to make the long run to the coast from Coronel to Victoria is not known. It is possible that they will have to drop into Acapulco or San Diego for coal as their bunker capacity is not large.

Expected in January. It is not expected that the Foster and Kelly will be here before the middle of next January as the

**IMMENSE BODY OF IRON ORE**

**Bella Coola Resident Discovers Rich Body of Hematite Ore Near That Place.**

What promises to be the largest deposit of hematite iron ore that has yet been discovered, and possibly one of the largest in North America, has been located by Messrs. William McNair and Peter Kenyon, of Vancouver and Bella Coola, respectively. According to their calculations, there are at least 20,000,000 tons of hematite ore in sight.

This vast deposit occupies a most favorable position and can be transported to tidewater at Bella Coola over very easy and favorable grades.—Bella Coola Courier.

**NEWS NOTES OF THE GREAT WEST**

The registration board of the International Dry Farming Congress, just concluded at Lethbridge, shows 1912 as the greatest agricultural convention on this continent. Accredited delegates numbered 2,594, including delegates to Russia, Australia, Mexico, Palestine, Persia, China, Italy and India.

In North Battleford the city made a \$65,000 addition to the power plant, and can then deliver 4,000 horse power 30 miles. The pole work and wiring have been done this year.

In Edmonton work has commenced on two brick warehouses for two builders' supply concerns. Three building permits issued this week total \$1,240,000.

Alderman George Kerr, who returned yesterday from attending the Conservative convention at Revelstoke, in speaking of the recent meeting of the B. C. Union of Municipalities in that place, said that it is reported to have been a great success, and Prince Rupert had the distinction of being the only city unrepresented.

**Vice President of U. S. Died Last Night After Illness of Some Time—Nation Mourns.**

(Special to Daily News.)  
 Utica, N. Y., Oct. 31.—Vice President of the United States James Sherman died last night at 9:42 at his home here. All the members of his family were at his bedside when the end came.

Although he rallied considerably in the morning, his condition gradually became worse throughout the day and it was early seen that he could not live long. He was fifty-seven years old, having been born in 1855.

All the flags in the city were ordered by the Mayor to be flown at half mast.

Washington, Oct. 31.—Owing to the death of the Vice President, James Sherman, last night, flags on public buildings were run up at half mast.

**AT RED REEF**

**Copper Mine at Stewart Owned by Victoria Man Makes Good Snowing of \$5 Ore.**

H. E. Newton, of Victoria was an arrival yesterday on the Prince George, en route to Stewart, Portland Canal. Mr. Newton, who is an old-time resident of British Columbia, having lived in Victoria for over 25 years, besides being a well-known business man of that city, is heavily interested in mining in different parts of the province.

At the present time he is on the way to Stewart, where he is developing a very likely looking prospect, a group of claims known as the "Red Reef". This property is located right on tide water at the head of the canal, within half a mile of the Stewart townsite.

A considerable amount of work has been done. At the present time thirteen men are employed engaged upon three separate tunnels. Ore was found last August running about five dollars per ton and from present indications there is every reason to believe there is an extensive body of it.

The location of the property being such, that the ore can be holed straight down to the water's edge from the mine, is of the first importance, and that is now required is to ascertain the extent of the body of paying mineral. The values are gold and copper.

Mr. Newton, who is one of the most enterprising and determined mining men who has ever gone into the Portland Canal District, is at the present time the biggest operator up there. He is going to decide upon this trip whether it will be possible to keep working all the winter, the heavy snow fall being a deterrent to the development of the mine at the early stages. If he understood that several big speculative concerns are ready to take hold of the property at an early date, if the present owner wishes to sell.

**APPEAR AT ASSIZES.**

Another stage in the affair of the fracas that occurred nearly a month ago at Masset between some white men and Indians, was reached yesterday, when L. Randall, one of the white men involved was up before his honor Judge Young, for election, as to whether he would take a speedy trial before the latter, or wait for the fall assizes to be held next month. He chose the latter course and has been released on bail until the assize court sits.
