# Gardening In Prince Rupert

On Sunday afternoon I felt rather tired of my own garden which it seemed to me was beginning to look seedy. I went out looking for inspiration and found it in many quarters. First I called on Jack Kilpatrick, who has done wonders around his cottage on Fifth Avenue East. The garden has been transformed and the good work is still going on. Everything seemed to be growing well except weeds.

Over the fence William Reid, with the aid of his little greenhouse, has a great display of annuals and other plants that will give a mass of bloom in the near future. Everything seems well advanced, the plants very strong and the whole place in excellent order. Mr. Reid's Chieranthus, both orange colored and mauve, are a feature of this garden. The orange flowers have been in bloom many weeks and the mauve, a dwarf variety, are just showing color. Billy is planning a new greenhouse. There's enthusiasm for you! And there's inspiration for everybody.

Our next call was at John Joyce's place at Seal Cove. Most of the decorative work on this garden seems to be new. The rough face of rock made by the road cut has been transformed into an ornamental rockery. A winding path of clam shells leading to the house is particularly artistic. The new lawn has great possibilities and everything about the place indicates improvement. It is one of the attractions of Seal Cove Circle.

Probably you have seen Jack Wynne's place on Eleventh Avenue. There are three lots all cultivated and not a weed in the place. The garden catches your eye as you come in from the highway, picturesque and orderly. Everything there grows well because it gets attention. You can always tell the places that receive proper cultivation. Naturally Mr. Wynne is proud of his home and well he may be. It is a credit to him and to the community—H. F. P.

T. W. Hall, inspector of schools, sailed last evening on the Catala for a trip to the Ocean Falls district on official duties.

# WHIFFLETS

**From the Waterfront**

With a fair sized list of passengers on board, C. N. R. steamer Prince George, Capt. H. E. Nedden, arrived in port at 11:30 this morning from Vancouver, Powell River and Ocean Falls and will sail at 4 o'clock this afternoon for Anyox and Stewart whence she will return here tomorrow afternoon southbound. This is the final voyage of the Prince George on spring schedule. Next week, running opposite the steamer Prince Rupert, she will go on summer schedule which provides for service to Alaska as well as two sailings per week between here and Vancouver.

An interesting marine visitor to port has been the auxiliary yawl Neogo of Seattle which arrived Monday afternoon from the south and proceeded early this morning to Juneau. The Neogo is a 28-foot craft carrying considerable sail and with a 35 h.p. Universal gasoline engine which gives her plenty of auxiliary power. The vessel has an exceptionally large cockpit which, indeed, takes up about half of her length. Aboard are Messrs. Pears, two brothers, one of whom is secretary-treasurer of the Fisher Flour Mills. The Neogo was moored at the floats of the Prince Rupert Rowing & Yacht Club.

The Rainier sold 28,000 pounds of halibut to the Hardcastle Fish Co. at Ketchikan on Saturday for 6.65c and 4.6c.

Having been delayed by tidal conditions in the Naas River, Union steamer Catala, Capt. A. E. Dickson, was several hours late yesterday in returning from her regular weekly voyage to Anyox, Stewart and other northern points, not getting in until 7:15 p.m. The vessel sailed an hour later for Vancouver and waypoints.
