Council Talks Long But Not Much Business Done

(Continued from Page 1.)

intendent, who was to be engaged at once, be present at the examination, giving him the chance to get started off right with every opportunity possible to make good in the position.

Alderman Dybhavn, chairman of the Board of Works, made a motion, which was carried unanimously, that a telephone be installed in the ante room of the council chamber for the convenience of the Council and the public attending the meetings of the City Council.

In the matter of the installation of the Gamewell fire alarm system, a report of the Fire and Light committee was read and adopted concurring entirely with the plans of the fire chief and Mr. Woods as to the location of the alarm boxes. Alderman Morrissey still disagreeing as to the fact that there were no boxes on Fraser street, stating that a petition from the residents of that locality would very shortly be handed to the Council looking for redress in that matter.

The report of the building inspector to the Fire and Light committee to the effect that he had notified several owners of buildings on Comox avenue that they were not complying with the bylaw in regard to fire protection, there being several cases of defective flues and other irregularities in the matter of proper fire protection, had been received by the committee. The report of the latter was read by the city clerk to the Council and adopted.

Alderman Morrissey brought up again the manner in which the boats at the Government wharf were getting away with the city's water without paying for it. It was practically straightened up by the report of the Fire committee that upon interviewing Manager Jack Beattie upon the subject it transpired that the latter was keeping exact track of every drop that they took through the instrumentality of two water meters provided by the Provincial government and was charging up the same to the boats thus served.

Alderman Morrissey was still a bit skeptical as to the existence of the meters, and further said that he would like to see a little real money as the result of the sale of the water. Boats, like certain individuals, might do a skip, ships that pass in the night being a proverb in common use. However, the Council decided that there was nothing to be really alarmed about, and Mr. Beattie would be given a schedule of charges and act as collector for the city.

POLISH EAGLE RAISING HEAD

Sees Chance of Independence in
Possible Clash of Austria
and Russia

London, Nov. 4.—A Vienna despatch to the Daily Mail says: "For the first time since Napoleon's invasion of Russia, a hundred years ago, the White Eagle of Poland is raising its head and looking to the threatened conflict between Austria and Russia to free the Polish nation from the hated Russian yoke."

"While the eyes of Europe are riveted on the battlefields of Thrace and Macedonia, a great national movement is spreading in Poland. Its aim is to unite all the Poles in common action for the possible outbreak of hostilities between Russia and Austria."

"The Polish nation numbers twenty-five million, of whom twelve million are Russian subjects, over six million Austrian subjects inhabiting Galicia and four million Prussian subjects. There are two million Poles in America."

The information upon which the correspondent bases the foregoing is somewhat slim, being to the effect that meetings are taking place all over Galicia with a view to removing all the present difficulties existing between the different parties in Poland, between the Poles and Ruthenians.
