AL. WHITE STAYS AT JABOUR BROS.

WELL KNOWN CANADIAN MERCHANDISING EXPERT WILL REMAIN WITH LOCAL DEPARTMENT STORE INDEFINITELY

Jabour Bros. announce today that they have been successful in retaining the services of Al. White for an indefinite period. Mr. White is a well known Canadian merchandising expert and came here two weeks ago to conduct a store-wide sale in their store. Judging from the activity in evidence there during the past week, his efforts in the handling and sale of merchandise have proved successful, as Mr. Jabour stated that the volume of business done during the past week was by far the largest in the history of the store.

Jabour Bros. are making a real effort to retain the great volume of mail order business credited to this city and it is hoped that Mr. White will be successful in diverting a large portion of this business to the home stores. Advt.

Waterfront Whiffs

(continued from page five)

on Tenth Avenue East presently. Jarvis is not going to let the Canadian National Railways beat him to it. He has hired a stump puller from Cap Swanson and is going to follow Sir Henry Thornton's example and grow grass instead of stumps.

HALIBUT LANDINGS

Halibut landings during this past week again showe deconsiderable improvement in volume over the figures for the corresponding week last year. The total was 967,150 pounds as compared with 611,000. Owing to the continuation of unfavorable weather during the first two months and a half of the season, this year's total is still far behind last years but, if the volume of landings continues to increase such as it has during the past couple of weeks, there is still a good chance that the deficiency may be made up before the end of the season.

Of the 967,150 pounds landed last week, 674,300 pounds has been from American vessels and 293,850 from Canadian. The total for the season to date is 6,451,700 pounds as compared with a total of 7,654,400 pounds at a similar date last year. Of the season's total to date, American vessels have contributed 4,813,100 pounds and Canadian 1,638,600 pounds.

Prices were very regular during the past week, the American high being 15.1c and 9c received on Monday by the Eureka for 12,500 pounds while the highest bid for Canadian fish was 13.5c and 7c which was paid on both Saturday and Monday. The boats receiving this figure were the M.A.B. with 3,000 pounds and the Muirneag, 7,000 pounds on Monday, and the H. & R. with 6,000 pounds on Friday.

The Canadian Fish & Cold Storage Co. boats Predelia and Sitka and a marine depot derrick scow were taken on No. 3 section of the dry dock Thursday afternoon.

The packer Nortonian, Capt. Eli Tingley, was in port from Masset this week.

The Canadian Fish & Cold Storage Co.'s halibut boat Sitka, of American registry, landed a catch of 20,000 lbs. this week, her first landing here this season. She had landed three small catches at Seward since the season opened.

The big halibut schooners Jessie and Chief Skugaid have not returned here from the halibut banks since leaving this port a couple of mouthe ago. Both are understood to have landed catches at northern ports.

Jack Hinton has re-installed the Ford marine engine, which was taken out for the winter, in his pleasure boat Starlight.

R.M.P. power boat M.T.3, Capt. Reg. Green, left Friday morning for Alice Arm to tow a donkey engine and house-boat to Wark Channel for the Emerson & Dumont logging concern which is opening a camp there to produce logs for the Big Bay sawmill at Georgetown.

The F. H. Phippen, Capt. Jim Morrison, left Friday morning for Georgetown and brought in a scowload of fish boxes.

The P.R.T., Capt. Harris Kerr, is at present on the Skeena River repairing hoppers at various canneries in readiness for the opening of the packing season next month.

The Tide Rip, of which Jeff Lambley recently took command, is being used as a general utility boat. On Thursday, she took a scowload of lumber up to Prince Rupert cannery from the Big Bay local yards.

Trolling operations in local waters continue quiet with the fish coming very slowly. In the vicinity of Zayas Island some twenty-five boats are working and are reported to be doing fairly well. There are a large number of boats at Warke Channel but the fish are scarce according to word received this week.

Following an explosion at the Imperial Oil Co.'s dock as a result of which she sank, subsequently being raised, the halibut boat Dolphin, Capt. Peter Byrne, is now on dry dock where it was found that her planking was split open from the bow as well as the pilot house and stem being damaged and rigging and sail burned. The vessel is undergoing immediate repairs at the dock.

Mac's bet against the Waterfront Whiff man and the dry-dock management as to his ability to make a profit out of the job which, incidentally he took away from the dry dock, having gone unaccepted, the repair of the forestry boat Alpine Fir, badly damaged in a recent explosion at Butedale started at the McLean shop this week. It is expected to have the job finished by June 1.

Jack Bulger had his scow, aboard which his friends hope to have a lot of fun this year, on the Yacht Club grid this week for cleaning and painting. An electric starter is being installed.

The new halibut boat Misty, built during the past winter for Mr. Garlick and son, is still tied up in port awaiting the return of its engine which came with a cracked cylinder and had to be sent back to the factory for repairs. This is hard luck for these new Prince Rupert fishermen.

The trolling boat Laura B., belonging to and manned by Johnny Johnson and Joe Krismanson of Osland, landed a catch of 1650 pounds of halibut at the Cold Storage plant by private sale this week. The Laura B. landed a previous catch of 1200.

NOTICE.

IN THE MATTER of an application for the issue of a Provisional Certificate of Title for Lot one hundred and sixty (160), Queen Charlotte District, said to contain one hundred and sixty (160) acres, more or less, excepting thereout twenty-one (21) acres and five (5) acres thereof.

CHEVROLET

Beauty that Reflects Spirited Performance

THE low, graceful lines of the new Fisher-built bodies give promise of dashing performance which the smooth, powerful Chevrolet engine is quick to fulfil.

The refinements which distinguish the design, finish and appointments of the Most Beautiful Chevrolet have their counterpart in the many striking advances in engineering. Refinements which you would expect only in cars at hundreds of dollars above Chevrolet price are incorporated in the Most Beautiful Chevrolet — AC oil-filter, AC air-cleaner, new, improved transmission, smooth dry-disc clutch, sturdy rear axle and scores of other features—giving to Chevrolet a unique combination of power, smoothness and rugged endurance.

Your first ride in the Most Beautiful Chevrolet will amaze and delight you just as greatly as does your first glimpse of its striking beauty. And you will find succeeding miles open up new sources of admiration and wonder that a car so low in price as Chevrolet could provide such spirited performance, such unfailing power, such entrancing smoothness, such gratifying economy.

For the Most Beautiful Chevrolet in Chevrolet History is selling at NEW, LOWER PRICES, the Lowest for which Chevrolet has ever been sold in Canada.
