RICH STRIKE ON THE ROCHER DE BOULE MINE AT HAZELTON

VERY RICH ORE HAS BEEN STRUCK AT THE PROPERTY ON THE LOWER LEVEL—WILL AVERAGE \$65 PER TON OTHER MINES OPEN

Superintendent Cowan arrived in Hazelton from the Rocher de Boule mine and reports that they have tapped the ore in the long cross-cut at a depth of 150 feet. The ore is of the same character as in the other workings—the shaft and wince—being a massive chalcopryite, and will probably average \$65 in all values. Mr. Cowan reports that he will drift on the ore and then raise to the shaft as they are compelled to sack the ore to save it in the drift, as the tunnel is 270 feet long with bad air. He has ordered one thousand sacks by express which will be at the mine shortly.

The news of this strike is of the greatest interest to the Hazelton district as it means mining on a large scale with a greatly increased payroll at the workings shortly. The Salt Lake mining crowd will probably open up other property in the same neighborhood in the near future. —Omineca Herald.

Editorial Notes and Clippings

WILSON DESERVED THE PRESIDENCY.

The return of Woodrow Wilson and the Democratic party to power in the United States is a clear indication that the people of the Republic are sickened with the tactics adopted by the Republican and Progressive candidates in the late contest. The term "liar" and "villain" was commonly heard in the speeches of the two defeated parties. Both Roosevelt and Taft were tried and were found wanting. Their previous actions did not harmonize with the Trust busting language they have been using to again gain the Presidency. Roosevelt in the seven years he was in power did not break the monopolies as he had promised to do, and in the manner in which he now says he would if given another chance, and in Taft's four years of office he has accomplished nothing. The investigation into the Republican campaign funds was something that did not help either of the defeated candidates.

Woodrow Wilson spent more time in dealing with the issues affecting the country than in throwing mud at the opposing candidates and the people of the United States have selected a candidate that will honor the position and not one who would stoop to the tactics of mud slinging.

LIBERAL COURSE IS CLEAR.

As far as Sir Wilfrid Laurier and the Liberals are concerned, their course is clear and straight, as it has been from the first, and they have no sympathy on any matters of national concern with a disloyal element in Quebec which refuses to assume its responsibility in imperial affairs, or with a confused and distressed administration which would willingly sacrifice its avowed principles at the demand of that disloyal element if by doing so it believed it could entrench itself in power.—Vancouver Sun.

LAURIER GOVT. COMBINE LAW WAS EFFECTIVE

Successful Application of Measure Affords Striking Tribute to Work of Previous Administration.

Ottawa, Nov. 6.—One of the most striking tributes to the constructive work of the Laurier government as contrasted with the lack of initiative shown by the present administration was given last week with the announcement of the finding in the now famous United Shoe Machinery case. The Canadian law respecting combines, trusts and mergers has, on its first application, proven effective against one of the tightest monopolies the world has ever seen, and one against which the laws of Great Britain, the United States and Australia had proven ineffective.

There are many features which lend significance and importance to this case, not the least of which was the determined opposition made by this enormously wealthy trust. It is the first investigation held under the Combines Investigation Act, which was introduced by the Hon. W. L. Mackenzie King and enacted by the Laurier government in 1909. This act provides for a full investigation of large combines wherever there is prima facie ground for believing that such combines exist in restriction of trade or for undue enhancement of prices.

The United Shoe Machinery Trust has been before the courts of Great Britain, the United States and Australia for some years without much result. In fact, the governments of these countries have passed legislation for the people's welfare from the methods adopted by this great combine, but all have proven unsuccessful.

It has remained for this measure of the Laurier administration to demonstrate that a means can be found for dealing with such combines through government investigation under circumstances which cannot be reached by the ordinary courts.

Augustus Heinze for the purchase by the former of Mr. Heinze's undivided half interest in the Columbia & Western Railway Land Grant. The undivided half interest belonging to the C. P. R., it will be remembered, was purchased by the province at 40 cents per acre as part of a general settlement of questions outstanding with that company. Shortly after the transfer had been made, Mr. Heinze put in his appearance with the suggestion that the government should also buy out his interest. The government expressed its willingness to do so, but the negotiations did not get so far as the mention of a price.

Mr. Heinze's desire to sell is supposed to be brought about by the fact that the period of the tax exemption of his land has expired. He is therefore liable not only to a tax of about \$6,000 per annum for the future, but also to about \$60,000 back taxes. Tax exemption on wild land in British Columbia is something of a joke, as Mr. Heinze has discovered. You can get your exemption for a period of years, but when this time has expired you become liable for ten years' back taxes in a lump sum. It is under this clause of the law that Mr. Heinze owes the province about \$60,000, being 4 per cent. per annum for ten years on about 300,000 acres valued at 50 cent per acre.

THE WEATHER

DEATH HOVERS ABOUT A NEGLECTED GOLD

Statistics tell of the awful ravages of colds in the Fall Season. Trifling at the outset, serious in a few days, fatal in the end. Carelessness in dealing with colds is a criminal dallying with death. Fight the cold at its inception and it is vanquished. Tar is a great healing agent, one of the oldest, surest, safest known. Cod Liver Oil has world wide use for all weakening and wasting diseases. Mathieu's Syrup of Tar and Cod Liver Oil is the most scientific combination of these two remedies and is the greatest cold preventing and cold curing remedy ever known. Its benefits are instantaneous, its results are marvellous. Large bottle costs only 35 cents. Sold everywhere. When headache and fever are present with a cold take Mathieu's Nervine Powders to reduce the fever and allay the pain. Both preparations are sold by dealers everywhere. J. L.
