CHAMBER OF COMMERCE

Just now Prince Rupert people are beginning to realize the value of the Chamber of Commerce to the city. It is a permanent organization with a secretary who is on the job all the time looking after the interests of the city from the commercial point of view. It answers hundreds of inquiries in regard to the city and its possibilities, sends out publicity literature, makes representations to the authorities at Ottawa or Victoria as may be required from time to time and is always listened to with respect and its representations have weight. It works in co-operation with any members who may be representing it at the time, Conservative or Liberal.

Just recently the Chamber has found itself hardly pressed for funds because a number of former members have found it difficult to keep up their memberships. When the activities in connection with the log shipments to the Orient commenced there was no money in the treasury and it became necessary to ask help from the Northern Lumbermen's Association. But there is much yet to be done. Much money will be required for telegrams and other purposes in addition to the carrying on of the ordinary work of the organization.

The Chamber of Commerce is financed by its members who pay ten dollars a year. Some local firms pay for more than one membership, one in particular paying for five and another for three. Mostly the men who pay are also the ones who do the committee and other work of the organization.

The Chamber is now asking that the business and professional men of the city generally share the cost of carrying on work in the interests of the whole city. The membership committee is setting to work to make a personal canvass and those who are not now members are asked to consider carefully the claims of the organization. Those who attend the regular monthly meetings will realize what a large lot of detail work has to be done to keep the city properly before the world and, with the promise of greater local activity, the work of the Chamber will increase. We must keep pace with the times, taking advantage of every possible opportunity to advance the interests of the city.

BREEZE FROM PEACE RIVER

Article in Record Urges Formation Of Province of North Columbia

Page Rideout, sage of the Peace River country, comes back into the fight for a new province for the north with a long article in the Peace River Record dealing with it and other constitutional changes. He urges that provincial legislatures be reduced to the status of city councils and that Northern British Columbia and Northern Alberta each be a separate province. He says:

"The last spike was driven on the Grand Trunk Pacific in 1914 in Northern B.C. If at that time the country had been made into the Province of North Columbia with it sown little assembly (again allow me to advise the reader to forget the Parliament stuff), North Columbia would have had a bunch of her own men working these twenty years in their little assembly for the development of her own province.

"Would the Port of Prince Rupert, with its three million dollar ship building plant; with the largest floating dry dock on the Pacific; with a terminal elevator of 1,255,000 bushel capacity; with a land-locked harbor that would accommodate the British fleet—would Prince Rupert with all this be the byword in the shipping world that she is today? Would North Columbia with all her mineral and timber wealth, all her fisheries and fertile lands, with her railway and boating facilities, be the mere shadow she now is?

"I am leaving these questions for the reader to answer himself."

The Weakening Agony of Piles (Haemorrhoids) Ended

Thousands Bless This Famous Herbal Ointment

Piles or hæmorrhoids cause excruciating pain and often serious loss of blood. The famous Zam-Buk ointment is wonderfully soothing to the swollen veins and itching parts. Zam-Buk derives its healing and mildly astringent influence from herbal extracts of special value in this weakening and agonizing complaint. Zam-Buk has a wonderful record of success.

THE BEST OF PROOF

Mrs. R. L. Garber, of 2545 Ohio Avenue, Southgate, California, a nurse, writes as follows:—"My husband suffered from Piles for years, but a year ago they reached an acute stage and he could neither sleep nor attend his work. He had medical advice, tried all sorts of baths, hot packs, enemas and ointments which cost him hundreds of dollars without obtaining any relief. Finally a friend gave him a box of Zam-Buk; after application for one day he obtained a good night's rest. He continued the treatment and by the time he had finished a second box he was completely relieved of this agonizing ailment and able to resume his work."

Mrs. F. Barrett, Pioneer, Alberta, writes:—"We have used Zam-Buk ever since I was a young girl and I have never known it fail. My husband, who has been troubled with itching piles for years, says the soothing relief Zam-Buk brought was wonderful."

The unparalleled success of Zam-Buk lies in its original and valuable formula. Zam-Buk is compounded from certain herbal extracts of an extraordinarily healing, soothing and antiseptic nature. Zam-Buk soon stops all pain and itching. It gets at the root of such troubles as eczema, salt rheum, bad legs, ulcers, scalp disease, poisoned sores, etc., and is also a fine ever-ready first-aid for injuries. Zam-Buk Ointment 50c. box, Zam-Buk Medicinal Soap 25c. cake.
