TERRACE AND THREE FAIRS

ASSOCIATION AT STRAWBERRY CENTRE CONSIDERS SENDING EXHIBITS WESTMINSTER AND RUPERT

TERRACE, May 21.—The advisability of sending exhibits to the provincial fair at New Westminster and to the Prince Rupert fair took up most of the attention of the directors of the Terrace Fall Fair Association at their meeting on Friday night.

D. D. Munro of the Land Settlement Board has requested that the Terrace district co-operate with the interior in sending a combined display of Bulkley and Skeena Valley produce to the New Westminster Fair. All agreed that it would be a good advertising scheme but as the provincial fair came at practically the same time as our own, the fair board did not feel that they would be able to devote the time to collecting and preparing the display asked for from this end. It was decided to send a request asking the board of trade to assume the responsibility and appoint a capable man to take charge of the work. Mr. Munro having made assurance that the financial end would be met.

PRINCE RUPERT FAIR

The proposal to send a district exhibit to Prince Rupert brought forth a heated discussion there being a diversity of opinion as to any benefits derived therefrom in the way of advertising or improving marketing conditions.

Some felt that individual exhibits did more to advertise the possibilities of the district while others felt that a commercial exhibit of staple produce for which a market was required would be a better means to that end. It was finally decided to leave it in the hands of a committee composed of G. Hamlin, Jas. Lever, J. K. Gordon and two ladies to be appointed by the Women's Institute. Further action will be taken in the matter when the possibilities of this season's crop are apparent.

BANQUET PROPOSED

As an advertising scheme and as a means of co-operation in marketing it was proposed to put on a banquet on the day of the Terrace Fair, the menu to be composed entirely of local produce and as little imported material used in the preparation as possible. To this banquet it was proposed to send invitations to wholesalers, produce dealers, newspaper editors, etc., within a marketable area of the district. In this way, an opportunity would be given for the producer and wholesaler to get together and talk over marketing problems. The matter was left over to be decided upon at a future meeting.

A letter was read from A. E. Blow, of the colonization department of the C.N.R. offering his usual $10 donation to be used in the children's garden section.

The tender of C. H. Sawle, New Hazelton, being the lowest for the printing of the prize lists, it was accepted.

OPENING NATIONAL PARKS

The building of first class motor high-ways and the provision of camp-sites and other facilities have served to make the Canadian National Parks much more accessible to our own people, and it is a noticeable fact that Canadians are alive to the opportunities which are open to them; tourists records show that a higher percentage of Canadians is visiting these great reserves each year.
