New Head of Church

Continued from Page 1

Windsor, Ont., commission on secondry schools; Dr. A. E. Thomson, St. Catherines, commission on settlement of ministers; Dr. W. J. Mumford, Toronto, commission on co-ordinataion of salaries; Dr. T. Albert Moore, secrettary of the council on the editorship of the New Outlook and on the voting of presbyteries on the ordination of women.

The board of evangelism and social service has directed a study of the temperance question, which is to be reported on to the ocuncil The forthcoming centenary of Victoria University, Toronto, will be announced by Chancellor E. W. Wallace.

Every board and committee of the church is making its biennial report and many items of legislation will be threshed out by sessional committees for presentation to open sessions of the General Council.

The retiring moderator, Dr Richard Roberts, has recovered from a recent operation. He was able to conduct the opening services and preside over the election of his successor. His review of church life and work is an important feature of proceedings.

Rev. C. D. Clarke of Prince Rupert is among the delegates.

Bowling Alley Goes Into Action

There was a good crowd of followers of the alley sport in attendance Tuesday night when the Rex Bowling Club re-opened for the winter season. League activities will be organized early next month. Meantime, the prospective players will be getting in necessary preparatory practice.

Skeena River Having Big Run of Cohoes This Week — Halibut Travels Over Foudr Hundred Miles in Ten Year

The Skeena River is having its best run of cohoes of the season this week, according to George Frizzell, who is in town today from Port Essington. Many gillnetters are busy fishing and Inverness, Claxton and Carlisle canneries, the last canneries on the river to keep open, are getting plenty of fish Seining is over and trolling is poor. The salmon fishing and canning season ends this week-end as far as the Skeena River is concerned.

Northland Transportation Co's motorship Northland, Capt. Len Williams, arrived in port at 2 o'clock this morning from Ketchikan and, after discharging two carloads of frozen fish for transshipment East over Canadian National Railways, sailed in continuation of her voyage to Seattle.

Indian Agent W. E. Collison and Dominion Constable A. J. Watkinson are on a trip today to Kitkatla aboard the departmental cruiser Naskeena.

C. N. R. steamer Prince Charles, Capt. Dan McKinnon, arrived in port at 9 o'clock last night from Vancouver via the Queen Charlotte Islands with passengers, mail and freight. After discharging, the Prince Charles will move to the local dry dock to be tied up for the winter. The steamer Prince John, Capt. James Watt, arriving at midnight last night from Vancouver takes over the Islands service in place of the Prince Charles with the scheduled sailing on Friday night. The Prince John has been engaged in general freighting during the past summer.

The halibut schooner Attu landed at Seattle this week a halibut which was tagged in 1926 by scientists of the International Fisheries Commission from the schooner Scandia. The fish was tagged and released southwest of Kodiak and was caught 430 miles to the northwest from the point of tagging. When tagged it weighed 25 pounds and when caught by the Attu it weighed 50 pounds.

Three vessels sold 114,000 pounds of halibut in Seattle yesterday as follows: Eldorado, 39,000 pounds, Whiz, 11⅜c and 10¼c; Seattle, 39,000, Sebastian, 10¼c and 10c; Sunsett, 36,000, Washington, 11⅝c and 10c. The Eureka sold 6,000 pounds of sablefish and 200 pounds of mixed cod at 4c and 3½c to Booth and the Thelma J. disposed of 11,500 pounds of sablefish and 200 pounds cod to Booth at 4⅛c and 4c.

No boats being in with catches, there was no sale of halibut on the local fish exchange this morning.

MEDIEVAL STYLES AT WEDDING

LONDON, Sept. 24: (CP) — Bridesmaids' dresses at a fashionable September wedding were of cream moire cut on medieval lines and accented with crimson rope girdles. Little flat caps of crimson roses matched the bouquets

HATS BECOME LUXURIOUS

LONDON, Sept. 24: (CP)—Luxurious headgear is becoming the vogue and feathers, aigrettes and wings are prominent trimmings. A black velvet cap trimmed with an aigrette and a jewelled clip marks one decorative trend.

Experiment With Cars

(Continued from Page 1)

grees Fahrenheit. It took four and a half days to reach Winnipeg and, during that time, the car was thrice re-iced. The temperature was above ninety each day and on one day reached 105. The temperature in the car never went above 23 at the warmest point and the coldest point was about fifteen at the same time, giving a mean temperature of nineteen. The results were just about what had been expected from experience with the miniature car model with which experiments had been made at the local station.

From Winnipeg two carloads of fresh beef were consigned to Montreal—one the experimental car with overhead cooling system and the other an ordinary end bunker type. The comparative results obtained were most interesting, conclusively showing the superiority of overhead cooling. The temperature range in the overhead bunker car was 33 to 37 and in the end bunker car from 29 to 39. The former was cooled with 6½% sale concentrate mixture and the latter with 11% mixture. The end tank car required three re-icings between Winnipeg and Montreal, the other having had to have only one partial refilling.

Net Result

The net result was the ascertaining that, with overhead cooling, more uniform temperature could be obtained with lower mean temperatures for a given salt concentration and less ice was required. Strangely enough, however, the peculiar temperature distribution in the ordinary refrigerator car lent itself well to the unloading technique at present in vogue for fresh beef. In the overhead bunker car a sweating developed after the doors were opened This condensation or drip factor, however, was a problem which could be easily solved by the development, possibly, of a dry air tunnel. Mr. Young was confident that something would come from the overhead bunker idea, the results of which had been so convincing.

The ideal refrigerator car as visualized by Mr. Young would be constructed of light alloys metal throughout including the insulation and sheeting and would be cooled overhead, either mechanically or by means of cooling mixtures such as ice and salt, eutectic ices or even solid CO2. The use of aluminum foil as insulation would reduce the weight of the car about two and a half tons and the use of metal sheeting would result in greater space for the insulation, necessitated by demand for lower temperature in the cars. The exterior surfaces of the car could also be polished to cut down the amount of heat absorbed and radiated. It had been proven that the nature of these exterior surfaces was an important factor.

Dr. R. G. Large, president of the club, was in the chair and thanked Mr. Young for his interesting talk.

Mr. Balagno's Solos

Mr. Balagno's violin solos, which were greatly appreciated, were "Meditation" from "Thais" (Massenet), "Rondino" on a theme by Beethoven (Kreisler) and "Cradle Song" (Grahms). Each number was delightfully rendered. It is some years since Mr. Balagno has been heard here. He has developed greatly and those who heard him yesterday were quick to realize why he has made such strides in his profession before the critical and discriminating audiences of cities and the air. He was accompanied by his brother, Charles P. Balagno.

Guests at the luncheon, besides Mr. Young and Mr. Balagno, were R. M. Winslow, Dr. Neal M. Carter and W. F. Stone.

Announcement was made of the forthcoming fall hoedown dance of the club on October 30. The general committe consists of Dr. R. G. Large (general chairman), G. A. Hunter (advertising, tickets), Jack Bulger (raffles), C. C. Mills, (refreshments), William Cruickshank (decorations), Orme Stuart (treasurer), Frank Dibb (door) and C. P. Balagno (music). Other committee members are:

Decorations—D. G. Borland, N. L. Freeman and W. F. Stone.

Refreshments—T. W. Brown, W. H. Tobey and J. E. Morris.

Raffles—Dr. H. N Brocklesby, Dr. J. H. Carson. S. J. Jabour, T. N. LePage, W. M. Watts and George Rorie.

Door—Dr. H. O. Johnsen and H. S. Meadows.

Five Are Killed In Holy Land As Clashes Continue

JERUSALEM, Sept. 24: — Five persons have been killed during the past forty-eight hours as the trouble between Arabs and Jews in various parts of Palestine continue.

Canadian Legion Women's Auxiliary Bridge and Whist

A very enjoyable bridge and whist party was held last night by the Women's Auxiliary of the Canadian Legion. There were twenty tables in play and the prize-winners were:

Bridge—Ladies' first, Mrs. Jacobsen; second, Mrs. J. J. Judge; third, Mrs. J. S. Black; men's first, H. Petterson; second, Thomas Beattie; third, A. Frebourg.

Whist—Ladies' first, Mrs. Wright Davies; second, Mrs. E. J. Large; third, Mrs. W. Tattersal; men's first, Ernest Anderson; second, A. J. Croxford; third, F. J. Fuller.

After cards, delicious refreshments were served.

The committee in charge consisted of Mrs. F. J. Feasby, convener; Mrs. Hugh Killin, Mrs. Hugh Smith, Mrs. C. Michaloff, Mrs. W. Rothwell and Mrs. W. Hunter.

George J. Dawes was master of ceremonies.

ESSINGTON MAN DIES

John Miettenen, aged 47, well known Port Essington salmon fisherman, died this morning in the Prince Rupert General Hospital where he had been a patient for three weeks.

COMING FRIDAY
"LITTLE LORD FAUNTLEROY"

IN THE SUPREME COURT OF BRITISH COLUMBIA
IN PROBATE

In the Matter of the "Administration Act"
And
In the Matter of the Estate of Peter DeBoer, Deceased

TAKE NOTICE that by order of His Honor, W. E. Fisher the 21st day of September, A. D. 1936, I was appointed Administrator with will annexed of the estate of Peter DeBoer, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified to me on or before the 21st day of October, A. D. 1936, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

NORMAN A. WATT,
Official Administrator,
Prince Rupert, B.C.

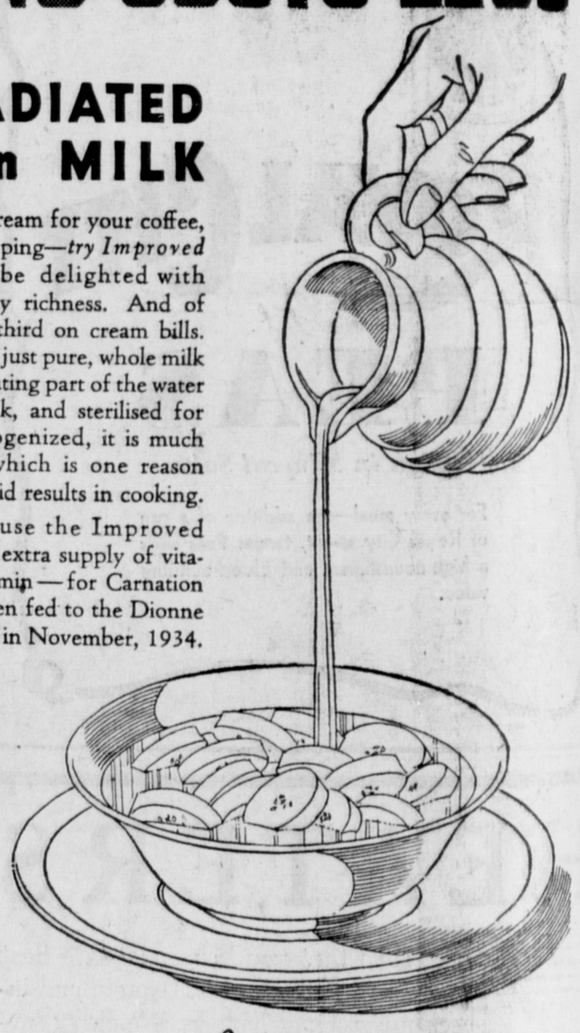
Dated this 21st day of September, A. D. 1936.

CREAMING COSTS LESS

With IRRADIATED Carnation MILK

INSTEAD of expensive cream for your coffee, cereals, fruits, or for whipping—*try Improved Carnation Milk.* You'll be delighted with Carnation's smooth, creamy richness. And of course, you save over one-third on cream bills. Improved Carnation Milk is just pure, whole milk made doubly rich by evaporating part of the water naturally present in all milk, and sterilised for safety. Because it is homogenized, it is much *smoother* than cream—which is one reason Carnation gives such splendid results in cooking.

And every time you use the Improved Carnation Milk, you get an extra supply of vitamin D, the "sunshine" vitamin—for Carnation Milk is *irradiated.* It has been fed to the Dionne Quintuplets since 'way back in November, 1934.



Just Published! *A beautiful new Carnation Cook Book. 16 glorious, full-page, full-colour photographs. 96 pages of unusual recipes, menus, party suggestions, cookery helps, etc. Yours for 10c, stamps or coin. Write to Carnation Co. Limited,*
134 Abbott St., Vancouver, B. C.
