Something of a farewell to Miss Muriel Brewerton took place at the Cathedral Hall Tuesday evening when two presentations were made to her, a handbag from the Girl Guides' Association presented on behalf of the Association by Mrs. H. L. Landrey and another gift from the guides of the company presented on their behalf by Patrol Leader Joan Baker. A number of speeches complimentary to the retiring leader were made. Miss Brewerton has been interested in girl guide activities since her school days and for several years she has been captain of the company. Her resignation is much regretted. Her work is being taken over by Miss Phyllis M. Taylor exchange teacher from England. Miss Brewerton sails tonight on the Prince George for a trip to Vancouver. Presentation to the Guides of service stars were made by Dean Gibson and Mrs. Landrey.

MOTHERS ARE RESPONSIBLE

The family looks to you to aid your doctor in keeping them well. You can help prevent much illness and poor health by guarding them from common constipation.

Most constipation comes from faulty diet—meals low in "bulk." This condition can be corrected so easily and pleasantly.

Kellogg's ALL-BRAN provides the safe way to prevent constipation by putting "bulk" back in the diet. Within the body, ALL-BRAN absorbs twice its weight in water, forming a soft mass which gently sponges out the system.

Kellogg's ALL-BRAN also furnishes vitamin B and iron. It is so much better for your family than constant dosing with artificial pills and drugs.

Two tablespoonfuls daily as a cereal, with milk or cream, or in recipes, are enough for the average person. Three times daily in severe cases.

Sold at all grocers—*and guaranteed* by Kellogg in London.

FOUND! A WAY TO MAKE A "NO-SCRUB" SOAP REALLY SAFE!

Now expect new things! For here is a new-type laundry soap that soaks out dirt in 15 minutes . . . washes white clothes 4 to 5 shades whiter . . . *yet is completely safe for all washable colors and hands!*

OXYDOL was developed by the makers of gentle Ivory soap at a cost of over $1,000,000! It is the result of a patented process to make soap far faster acting . . . an amazing new formula that makes *mild, gentle soap two to three times whiter washing*, but "keeps it safe." Thus, OXYDOL combines speed and safety in a way no single soap has ever done before. And does these four amazing things:

(1) Soaks out dirt in 15 minutes—no scrubbing—no boiling. Even "grimiest" spots come snowy with a few quick rubs between the fingers. (2) Gets white clothes 4 to 5 shades whiter—as proved by scientific Tintometer tests. (3) Cuts washing time 25% to 40% in tub or machine. (4) Yet so safe that even sheer cotton prints washed 100 consecutive times in OXYDOL suds, show no perceptible sign of fading.

So no wonder women all over America are discarding former favorites and adopting this new wonder-soap—to save time and drudgery on washdays, to protect clothes and hands. OXYDOL is extremely economical, too. Tests show that it will go ⅓ to ½ again as far as even the latest soap flakes on the market. And tests *further* prove that, cup for cup, OXYDOL gives 28% to 60% more suds than the 3 other best known granulated soaps on the market. Get OXYDOL from your dealer today.
