Gotham Warming British Forces

New York Group Busy Providing Bundles For Soldiers, Seamen And Airmen

NEW YORK, Sept. 3: (CP)—A big map of the United States, stuck with 125 colored pins in all sections of the country, hangs on the wall of the room overlooking fashionable Park Avenue, where rich and poor will come together with a common bond of wanting to help Britain.

The room is the headquarters of "Bundles for Britain," the colored pins dotte other offices which have mushroomed from an idea by Mrs. Wales Latham, who asked Prime Minister Churchill how she could help and got an answer telling of the need for warm clothes for Britain's soldiers, sailors and airmen.

Rich and poor alike have been doing their bit for Mrs. Latham's organization until now her headquarters present a crossroads of New York Society. Nina Van Vechten, a debutante, sorts wool next to the wife of a travelling salesman knitting a sweater. A woman on relief wraps packages besides a richly-clad woman fashioning a pair of socks that will go to a British sailor.

More than 1,000 letters a day come into the headquarters. One day there was a cheque for $1,000 the life savings of an English Butler in Long Island, and another simply expressing appreciation for "Your admirable organization and the great good will towards this country of which your supplies are speaking testimony."

That letter bore the crest of Buckingham Palace. It was from Queen Elizabeth.

Eight Year Construction Job Is Rushed To Completion In Less Than Two Years

LONDON, Sept. 3: (CP)—Here is an example of how the war effort has been speeded up in Great Britain.

A contract for erection of a factory in the west of England for production of government stores was given to a big building firm in April, 1939. The contract called for completion of the job in eight years—April, 1947.

Three weeks after the war started the contract was sub-let to government contractors. Men began work almost as soon as the contract was signed and production was scheduled to begin during the first week of August with the whole job scheduled to be completed by February, 1941 — more than six years ahead of time.

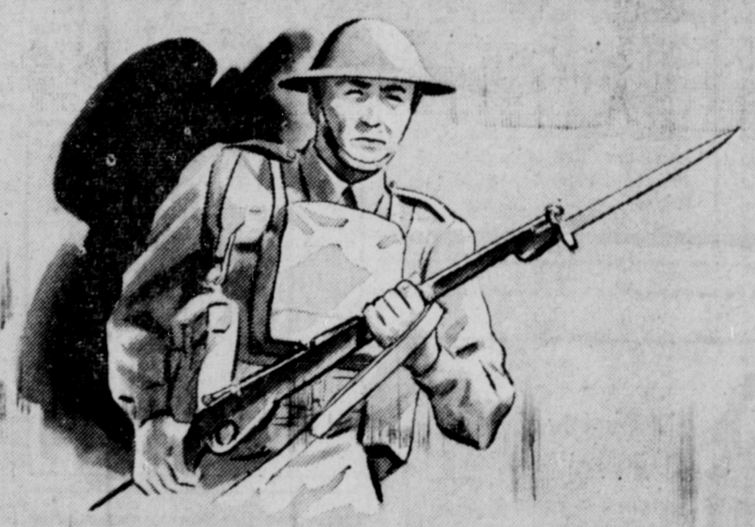
HOLD FAST!



In these fateful days, we must hold fast to all our cherished ideals—our love of democracy and liberty—and our firm faith in Canada. This is a time for cool heads, for resolute courage, for unity of purpose—a time when every loyal Canadian will do his or her part in the fight for freedom. It is important, too, that you hold fast to your life insurance for the security of yourself and your family. For today, millions of life insurance dollars, invested in war loans, are helping our Government to provide the trained men, equipment, and armaments so urgently needed for the successful prosecution of the war. Despite wars, epidemics and panics, life insurance has weathered every storm in the past hundred years. It is good citizenship to own **Life Insurance**
