News of the Mines

AROUND PRINCE RUPERT

Stewart as Aerial Base for Mining Operations; Babine Bonanza Is Promising; Active Development of Babine Silver King

It is remarkable that, with a report made public such as Dr. F. Kerr has submitted on the mineral resources in the country back of the Portland Canal district, there are not numerous prospecting parties outfitting at Stewart to locate this new and undoubtedly rich mineral zone, writes H. D. Rochfort, well known Stewart broker. This new mineral belt is the same that the Premier, George Copper, Granby, and other well known properties are situated on. The question arising now is how to bring this fact to the eyes of the world in such a manner that airplane prospectors will be leaving Stewart and taking advantage of Dr. Kerr's report. Now that the railway is assured and aerial service easily available, it will only be a matter of a few years when transportation will be at the very door of the man who has the foresight to take what nature holds in store for the pioneer.

Hopes have been realized in the mineralized zone upon which development work has been carried out at the Babine Bonanza mine in the interior and there is an encouraging situation with which to face future work as soon as machinery arrives. This equipment has been very much delayed in being taken in, but it is now stated that it will be on the ground early in July. Recent work has consisted of an extension of tunnel C to connect up with the original No. 1 tunnel. For the greater distance the two tunnels ran parallel but No. 1 tunnel was turned into a section where values outcropped on the surface. Contining C tunnel for a distance of 72 feet the works were united. In the latter development some very rich galena ore was taken out and this high grade ore is reported to have persisted to the point where the two tunnels intersected. At present half a dozen men are employed on the property.

The head office of the Babine Silver Mining Co. is to be moved from Wallace, Idaho, to Smithers, this move being decided upon as a result of a recent trip south of A. T. Harrer and B. F. Messner. It is expected that an active program of development work will be prosecuted on the property during the coming season.

The first move toward a permanent motor traffic road into the Manson Creek mining area, 185 miles north of Vanderhoof, was made by the provincial department of pupblic works recently in sending L. C. Gunn, locating engineer, and party of eight men and 12 pack horses in from Fort St. James to lay out the road, the expectation being that the survey will take about 30 days. Actual road work will start in the very near future, it is hoped. The idea is to ultimately build to Fort Grahame and Finlay Forks. Douglas Lay, resident mining engineer, and A. W. Davis, another mining engineer, are at present on a trip into the district. The road building undertaking would be of great importance, aiding much in the development of rich placers in that section.

Dividends declared by the leading mining companies operating in British Columbia during the year 1928 are listed as follows by the minister of mines in his annual report:

Consolidated	$6,366,594
Premier	1,300,000
Howe Sound	1,984,152
Granby	1,344,515
Bell	55,714
Duthie	50,000
Clayburn	32,000
Others	51,017
Crow's Nest Coal	372,696

Organized by H. W. M. Rolston, well known Stewart newspaperman and broker, the Northern Metals Holding Syndicate has been formed with the backing of prominent Vancouver and eastern interests and has acquired options on control of the Black Hill Milling Co. and the Bitter Creek mines on both of which work has now been commenced under the direction of Stewart & Batten and associates. Development on the Black Hill on Glacier Creek will consist of exploratory work, in addition to mining several hundred tons available for shipment. John Haahti will be in full charge of the work. It is the intention of the syndicate to build one and one-half miles of new trail to connect with the main trunk trail and to start shipping ore at the first opportunity, there being some 200 tons of high grade available for immediate shipment, from which handsome profit is expected. The syndicate has been fully financed and it is the intention to take options on further properties of promise, in addition to the Black Hill and Bitter Creek. The Black Hill is situated at the head of the south fork of Glacier Creek about four miles from the Bear River wagon road. It contains six high grade parallel veins which have given assays of from $50 to $250 to the ton. The property is believed to be the centre of a heavy mineralized zone. On the Bitter Creek a 500-foot outcropping has been traced for 500 feet, samples running from 138 ounces to 393 in silver and from 15 to 35 per cent lead with a small zinc content. It is also anticipated to make a shipment from this property, which lies at the head of the south fork of Bitter Creek, about eight miles from the Bear River wagon road.

TWO STARS IN NEW PICTURE

Cello Solos Also Feature Program at Capitol Last Night and Tonight

Two such stars as William Haines and Lionel Barrymore in one picture was sure to be a winner and that proved true last night at the Capitol in "Alias Jimmy Valentine." Haines is just grand as the bank-buster and heart breaker champion. It's a new kind of dramatic role for him. No detective could trap him but when he looked into a pair of lovely eyes the game was up.

Karl Dane and Leila Hyams support Haines and Barrymore.

William Beaumont delighted an appreciative audience with cello solos. His rendition of "La Chinquatrine" and "Annie Laurie" was excellent and will be repeated tonight.

COLOR EFFECT ON READERS

A curious sidelight on the reading public was mentioned at the meeting of the library board Tuesday night. It seems that the binding of the books has a great effect on their circulation. Books bound in bright covers go out much more often than do books bound in sombre colors.

Because of the reaction of the borrowers to the covers of the volumes, the Vancouver Library Board imports very bright buckram and pays a little extra for having the books bound in it. The colors vary but they are all different from the old-fashioned covers to which people are used. So far the local board has not adopted the bright colors.

BACK FROM EUROPE

T. H. Johnson, manager of the Canadian Fish & Cold Storage Co., and Mrs. Johnson returned to the city on yesterday afternoon's train following a trip to England and the Continent.

Frank Morris, manager of the B. C. Undertakers, is expected to return to the city on tomorrow afternoon's train from Smithers where he went to take charge of the funeral of victims of an automobile accident there.

NOTICE!

To the Public:

For several years it has been our desire to open a CASH & CARRY STORE for the benefit of CASH BUYERS, so that they may be able to save on their purchases.

We have decided to open a CASH & CARRY DEPARTMENT and serve the public to the best of our ability. Our premises will be in the Emad Block, Third Ave. We want to give the public REAL VALUE for their cash and save them many nickels and dimes.

We ask the patronage of the public, and we will do our best to give them satisfactory dealing and the very best service.

There will be two deliveries every day, at 9 a.m. and 2:30 p.m. All orders coming in after 2 p.m. will be delivered next morning at 9. Orders over $5 will be delivered FREE. On orders under $5, there will be a charge made of 15c.

STORE WILL BE OPENED SATURDAY, JULY 6
