TERRACE CLEAN-UP

TERRACE, April 23:—The village commissioners are getting some work done by way of tidying up Greig Avenue, which has not been graded and which occupies a depression in the land, has been a favorite place in which to dump refuse of various sorts. In the course of time young trees have grown up and the place had become a disgrace to a self respecting village. All this is now being changed the brush is being cleared away and all the rubbish collected and disposed of.

Among the owners of property in the village George Little is doing similar work on his property fronting the railway lands. Shacks have been removed and the lots ploughed up and fenced.

Canadian waters are not only a prolific source of good food for our tables, but contribute in important measure to our export trade. It takes a great army of workers—fishermen, canning hands, executives—to catch and market the "silver horde." No sporting pastime is this, but toil and business of great importance to the nation.

The Bank of Montreal co-operates with the FISHERIES' industries by furnishing the specialized types of banking services they need. It is the banking home of thousands of hardy fishermen who have savings or chequing accounts.

Serving Canadians and their industries in every section of the community, we invite you to discuss YOUR banking requirements with us.
