Insure your WHITE THINGS against YELLOW TINGE

BLUE stops clothes from turning yellow and makes them snowy WHITE

That fresh, sparkling whiteness your cottons and linens had when new can be restored and *retained* so very easily. Just a swish or two of Blue in the last rinse on washday—that's the one way—the only way—to keep your white things from turning yellow.

Canadians Try Out New Techniques Involving Aircraft Co-operation

By Frank Flaherty
(Canadian Press Staff Writer)

AN EASTERN CANADA ARMY CAMP, July 31 (CP)—New techniques in artillery shooting are being tried out by the gunners of a Canadian armored division.

While they cannot be described in detail for military reasons the first tests in actual operations with the guns have been considered so encouraging that further work is to be carried on.

One of the new techniques is an application of principles applied for some years by the Dominion Geological Survey. It is designed to make possible reasonably accurate firing in unmapped country and involves co-operation of aircraft.

Timely Recipes

BAR-LE-DUC

(Red Currant Jam)

8 cups prepared red currants (2 lbs.)
3 cups sugar
2 cups corn syrup.
½ cup water.

Carefully wash and stem currants, rejecting any spoiled portions. Measure sugar, Crown Brand corn syrup and water, place in large saucepan, bring to a boil and boil five minutes. Measure or weigh prepared currants and add to syrup on stove. Bring again to a boil and boil for five to ten minutes or until currants are tender, stirring frequently. Then skim the currants out and put them in hot sterilized jars (about two-thirds full). Continue boiling syrup on stove about ten minutes longer or until thick and jelly-like, then pour over currants in jars. Seal, cool, label, and store in a dry, dark, cool place.

Yield: approximately 2½ pints.
