Darrow Casey Is Going Overseas

Joins Up From Trail With Fire Fighters' Corps And Is Off To Ottawa

Darrow Casey, son of Mr. and Mrs. George B. Casey of this city and a former well known Prince Rupert boy, has left Trail, where he has been assistant chief of the Tadanac fire department, for Ottawa where he will join the Overseas Fire Fighters' Corps. He will take a short training course in Canada before proceeding overseas.

Prior to leaving Trail, Mr. Casey was honored at a farewell dinner by some twenty-five fellow workers and friends at which Fire Chief W. H. D. Campbell presented him with a pen and pencil set and travelling clock in a leather case as gifts from the Tadanac fire and police departments.

Whifflets
From The Waterfront

Another Sea Serpent Seen on Islands—More Trollers Are Gradually Moving Out to Grounds—Many Angling Parties.

Another sea serpent is reported to have been seen on the West Coast of the Queen Charlotte Islands, this time near Buck Point, Porcher Island. The crews of two halibut boats—V.T.G. No. 2, Capt. E. Gladstone, and the Steveston, Capt. A. Jones—report sighting the marine monster. It looked, they say, like a huge sea lion, brown in color, rising out of the water for about ten feet and then slowly submerging—not diving like sea lions do. A similar monster was seen by the seiner Beatrice H. last fall off the west coast of the Queen Charlotte. The Beatrice H. ran right alongside of it and the crew described it as being brown in color with hair, having a head like a horse and about fifty feet long. Still another seinboat reports having seen such a monster lately, also brown in color, rising out of the water slowly to a height of about ten feet and slowly submerging. This was at the mouth of Dawson Harbor on the west coast of Graham Island.

The Canadian Fish & Cold Storage Co. packer Chief Tapeet, Capt. Harold Tattersal, called recently in Skidegate Inlet on the way to Shag Rock on a fish collecting trip. Skipper Tattersal was welcomed by many friends on the Islands who were glad to see him back.

Skipper Bill Eccles, now with the Royal Canadian Navy, recently called on many friends in Skidegate Inlet where he had not been for several years. He is an old timer on the Islands, having been for years aboard the Prince John and other vessels of the Canadian National Coast Steamships fleet.

Skidegate is one of the busiest points on the Queen Charlotte Islands these days. Many of the fishing boats make the place their headquarters and the Canadian Fish & Cold Storage Co. and the B. C. Packers have fish collecting crews there.

Owing to continual southeasterly gales Skidegate Inlet trollers are not making very heavy catches and there is a shortage of bait. Around Dundas Island there is an improvement in the spring run. The active trolling fleet is gradually growing.

Some of a number of trout fishing parties which were out over the Victoria Day holiday week-end made good catches while others did not do quite so well. However, the outings in all cases were very pleasant.

The Indian Department power cruiser Naskeena is away on a trip to the Queen Charlotte Islands having on board Mrs. Laura Bolton, Operator Robbins and Miss McLean of the National Film Board as well as Indian Agent James Gillett. Massett and Skidegate will be visited for the purpose of taking moving pictures of native industries.

Having been delayed for several hours by fog outside the entrance of the harbor, C. P. R. steamer Princess Louise, Capt. Thomas Cliff, arrived in port at 1:30 yesterday afternoon from Vancouver, sailing at 4:30 p.m. in continuation of her voyage to Skagway and other Alaska points whence she is due back here next Tuesday afternoon southbound. The Princess Louise had on board 192 passengers of whom five disembarked here. Two took passage from Prince Rupert for Alaska.

Within the next six weeks or two months the Fisheries Research Board station will have been vacated from the provincial government wharf, moving into the building at the foot of McBride Street, the unfinished portion of which on the first floor is about to be completed to accomodate the staff and services which have been on the government wharf that the first fisheries experimental station here was located. When the new building on McBride Sreet was built, the wharf premises were used for vitamin and other rhemical research work largely and it was there that Dr. H. N. Brocklesby, assistant director, made his headquarters. The wharf building, it is understood, is being taken over for naval purposes.

NEW BOOKS IN LIBRARY
