PSYCHOLOGY IS SUBJECT

Gyros Hear Interesting Address By Dean Gibson of St. Andrews

"Psychology in Industry" was the interesting subject taken by Very Rev. James B. Gibson, Dean of St. Andrew's Anglican Cathedral, in addressing the Prince Rupert Gyro Club at luncheon in the Commodore Cafe yesterday, President C. A. Kirkendall in the chair. The speaker, in opening, spoke briefly on the subject of psychology generally. He defined it as the science of behavior, a science which all could study without costly equipment and a science which every one knew more or less about.

The human element was being recognized more and more in industrial life and it naturally followed that psychologists, having been marshalled by the United States during the Great War for examination of the intelligence capacities of men in connection with enlistment, should be used after the conflict to bring about greater efficiency in industry. Dean Gibson went into some detail in describing some of the problems that faced psychology in connection with industry. Two of the greatest problems were those of fatigue and mental suggestion. It had been proven that better and more work could be done in shorter hours than in longer hours when fatigue developed. Incentive or mental suggestion had also been proven to be a factor in capacity for work.

Dean Gibson stressed the importance of the science of psychology being used even in the schools so that tests might be made among the children for vocational fitness. By this means, the introduction of square pegs into round holes could be to a large extent eliminated in the placing of the adolescent person in vocation.

There was a large attendance of members at the luncheon and guests were: Mr. Wright, J. Balkin, Jack Edwards and Fred Mathers of Vancouver, and Mr. Martin of Prince Rupert.

President Kirkendall was winner of the luncheon raffle.

TENNIS CLUB ANNUAL MEET

New Courts Principal Matter For Discussion Last Night—Thomas Brown Elected President

Principal discussion at the annual meeting last night in the City Hall of the Prince Rupert Tennis Club was on the question of new courts. The old courts on Acropolis Hill each year require more and more to be done in the way of repairs and general upkeep and the idea of providing new facilities has been under consideration for the past few years. The proposal now is that the new courts should be established in a more central location, possibly in the downtown section. It was left in the hands of the executive to find ways and means for providing the new courts.

The election of officers of the club for the year resulted as follows:

President, Thomas W. Brown.
Vice-president, A. C. Brand.
Secretary Treasurer, Miss Margaret Palmer.
Executive—Mrs. S. P. McMordie, Miss Vera Smith, Ald. P. H. Linzey and W. N. Currie.

About twenty persons were in attendance at the annual meeting and considerable enthusiasm was displayed.

F. T. Bustin of Vancouver, district representative of the Morrison Tractor & Equipment Co., is spending a few days in the city on business, having arrived from the interior on Tuesday afternoon.
