SPORTS

BOOTH WON IN SOCCER

Defeated Borden Street Four to Nil Saturday Afternoon

The regular game in the Junior Football League on Saturday was productive of an eagerly fought match with Booth winning from Borden four goals to two, but it was only in the closing minutes that the winners were able to establish their lead.

Booth had the better of the opening exchanges and attacked steadily. Borden defence was sound. Annesley was safe and Hong and Veitch defended well. Colussi opened the score with a first rate shot from Nelson's centre. Borden had more of the game and Shrubsall showed to advantage. Later a cross from the same player went to Lindsay who beat Munro to put the teams level. Annesley saved splendidly from Nelson and Gomez went close. McMeekin was foiled in the goalmouth and then Borden attacked. Shrubsall narrowly missed. Colussi turned a centre from Nelson over the bar with a good attempt to convert and later was successful in giving his team the lead. Borden made headway and McGuire drove over the bar. Halftime found Booth leading two goals to one.

Booth had the hill and pressed but Borden took up the attack and the game was fought out in midfield. Lindsay was dangerous and two corners were barely cleared by Booth defence. Nelson and Colussi were dangerous but Borden got away and Lindsay levelled the score again. Play became faster with Hong, Houston and Veitch prominent for Borden. Colussi added a third for Booth and then Nelson made it four. Booth nearly scored again but fulltime found the Borden defence holding them out.

Borden: Onnesley; Currie, Hong; Houston, Veitch, Naylor; Lindsay O'Neill, Campbell, Shrubsall, McGuire.

Booth: Munro; Eby, Ferguson DeMarco, Gomez, Ritchie; Nelson, MacDonald, Colussi, Hale, McMeekin.

Referee, J. Campbell; linesmen W. W. C. O'Neill and T. Dungate

Borden was well served by Annesley, Hong, Veitch, Houston, Lindsay and Shrubsall, while Booth's best players were Ferguson, Gomez, Colussi, McMeekin and Eby.

Had Hard Race

Looks like a bad case of smallpox, but it's only No. 33, who struck some bad roads and a couple of detours during a race in England. It'll all come off.

BLUENOSE WON RACE

American Boat Took Bad Thrashing in Today's Race

HALIFAX, N.S., Oct. 19.—The Nova Scotia schooner Bluenose, defending champion of the North Atlantic fishing fleets, gave the United States challenger, Gertrude L. Thibaud, a sound thrashing in today's international race.

The Bluenose finished the 36-mile course in five hours and 53 minutes with the Thebaud 32 minutes behind.

Atonement Is Sunday Subject Science Church

"Doctrine of Atonement" was the subject of the lesson-sermon in all **Christian Science churches and societies** on Sunday.

One of the Scriptural texts contained in the lesson-sermon was: "The first day of the week cometh Mary Magdalene early, when it was yet dark, unto the sepulchre, and seeth the stone taken away from the sepulchre." (John 20:1).

Following the reading of the Bible texts, passages were also read from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being the following from page 45: "Three days after his bodily burial he talked with his disciples. The persecutors had failed to hide immortal Truth and Love in a sepulchre."

SPORT CHAT

Every ninth hunter who goes into the Nova Scotia woods with a rifle in the fall gets his moose. Incidence of success among the forest enthusiasts has been pretty well established by the Nova Scotia Department of Lands and Forests, figures showing that in 1930, 1428 moose were brought down, while 12,800 big game licenses were taken out. They show, also, that the number of Nova Scotians entering the woodlands has doubled in the last five years. During 1925 the department issued 5,513 resident big game licenses. In that year 931 moose were killed, every sixth hunter bagging his quarry.

The curate won, 6-2, 6-2, and as a result there were twice as many as usual at a service at St. Paul's Mission Church, Southgate, England, on a recent Sunday evening. The curate, Rev. F. M. Eagles, had challenged any club member to a tennis match on condition that if he won members of the losing club should attend a service. St. Andrews Church Club accepted, and as their representative, A. Matthews, was beaten in two straight sets, nearly 20 members attended the service. Mr. Eagles preached on "How to Keep Sunday." In addition to the club members, there were quite a lot of fresh faces there. "I am quite willing to play a member of any club on the same terms," Mr. Eagles said afterwards.

QUESTION OF FURTHER RELIEF WORK HERE IS DISCUSSED WITH MINISTER AT CITY CONFERENCE.

(Continued from page one)

men as possible at that camp and he had instructed the engineer to use all possible speed. Hauling the material to the camp was costly. That was one reason why the department hesitated at putting a camp at the other end of the lake at present.

Discussing the question of wages, Mr. Bruhn drew attention to the fact that there were still eight to ten thousand men unemployed in Vancouver and about forty thousand had to be given work in all the province. This would cost a huge sum of money and all that could be expected from the government was that they receive shelter and food. He was not in favor of low wages and paid as high as anyone himself, but in this case an agreement had been made with the other provinces and it was decided that the largest sum any person would be expected to get from relief funds was $16.80 a week. In case of people with large families the question of direct relief might be considered.

Questioned at some length as to what other places were doing, Mr. Bruhn said that in Vancouver the rate to be paid on relief work by the city was $3 a day, and the New Westminster rate was still lower. The rate adopted here, $3.20 a day for an eight-hour day, was as high as local people could be expected to go. It was higher than was being paid by any other western provinces. He would not sanction any proposal to pay the regular rate of wages, as this was relief money that had to be paid from the taxes, and there was no certainty that it would end in March.

The question of who was entitled to unemployment relief work was mentioned by one of the members of the council and the minister stated it was not expected that work would be given to men who had money in the bank or who had any other means of subsistence. He would not disqualify a man because he owned his own house or because he had a boat, but if he was receiving rents from houses or had property or money he should not expect to be kept from relief money. The city should deal only with married men or those with dependents.

All proposed work had to be passed on by the federal government, the minister said, and they did not favor instituting new projects but rather the carrying out of projects already under way. In British Columbia money was being spent chiefly in extending the highway system in all parts of the country.

TELEGRAPH LINE WORK

Extensive Improvements Made Between Alice Arm and Naas River

(Alice Arm Herald)

The government telegraph line between Alice Arm and Anyox and between Alice Arm and Aiyansh is in a better state now than at any previous time, states J. C. Studdy telegraph operator at Alice Arm.

This is due to the decision of the Government Telegraphs Department to give their patrons the best possible service, and at the same time relieve as much as possible local unemployment.

On the section between Anyox and Alice Arm, six men have been employed under the supervision of J. C. Studdy, for about six weeks. Over six miles of new line have been constructed, on which was used three quarters of a ton of copper wire. New poles have been provided and a new right-of-way cut. A new submarine cable has also been installed on the Granby shore. This cable eliminates a big overhead span which was an interference to navigation.

Good Sized Crew

Between Alice Arm and Aiyansh seven men in charge of Wm. McLean have been employed for the past two months, and will complete their work next week. On this section 22 miles of new line have been rebuilt, necessitating new poles and right-of-way. Four miles of new galvanized iron wire have also been strung.

In addition to this work, H. B Butler, operator at Aiyansh has also had a crew of men at work on the line between Aiyansh and Alice Arm. The extensive work done this year will eliminate many breakages from heavy snows during the winter months, and help to popularize the Government Telegraphs as a means of communication. The Telegraphs Department is to be congratulated also on their efforts to do as much work as possible this year. Those employed will be in a better position to face the winter than otherwise would have been the case.

NEW ATWATER KENT RADIOS HERE SHORTLY

Many New Features and Improvements Mark New Sets

The new 1932 Atwater Kent golden value models of radio will be on display in the showrooms of prominent Vancouver music dealers very shortly, according to Mr. Earle Henderson, sales manager of General Distributors Limited, 951 Seymour Street, British Columbia distributors of Atwater Kent.

"The new Atwater Kent range of radio will be offered this year at remarkably low prices for such a high quality instrument," stated Mr. Henderson. "For this reason they are to be known as the golden value models and will embody the very latest engineering improvements. Their many features and refinements are the result of countless experiments and tests in the famous Awater Kent laboratories," says Mr. Henderson.

Golden values with the golden voice is the keynote of this season's program for Atwater Kent merchandising. Many new models from a low price 6-tube Compact to a 10-tube Console will be included in the complete range of this well-known radio and which will offer the public a wide selection to meet every purse and preference.

New cabinets of exceptional beauty and symmetry in design are finished in genuine No-Mar.

Automatic volume control, advanced superheterodyne circuit, Pentode and Multi-Mu tubes are some of the additional advantages which will distinguish Atwater Kent radios this season.

COMMITTED FOR TRIAL

Having been committed for trial by Stipendiary Magistrate J. P. Scarlett at Stewart on a charge of theft in connection with the taking of orders for photographic enlargements, C. E. Finch was brought to the city from the north on the Prince George last evening in custody of Provincial Constable L. A. N. Potterton and will appear before Judge F. McB. Young in county Court here for election.

J. Slade Stevens of the federal income tax department, who has been spending the past two weeks here and in the district on official duties, and Mrs. Stevens left on this morning's train for Prince George where they will spend two or three days before proceeding to their home in Victoria. They were married at the first of the month in Victoria.
