Here's your magic wand for making milk!"

SAYS ELSIE: "It doesn't matter where you live—you can still have milk! Just add KLIM Powdered Milk to water, whisk with an egg-beater and presto! You have exactly the amount you need of creamy, nourishing milk for every purpose where milk is required."

More reasons why you'll like KLIM:

1 KLIM is pasteurized whole milk—powdered. Only the natural moisture has been removed. All the cream is left in.

2 KLIM keeps fresh indefinitely in its vacuum-sealed container. Even after opening, KLIM keeps fresh and sweet for a long time. (Be sure to replace lid tightly.)

3 KLIM is light, easy to carry. Saves space. Ready for immediate use. Just follow the simple directions printed on the can.

KLIM is a vital product required in large quantities for our fighting forces everywhere. Naturally the amount for civilian use is restricted. However—for infant feeding—if you have difficulty in getting a sufficient supply have your dealer get in touch with us.

WORD PICTURE

It's nice to know two thousand words
And use them most precisely,

They give an air of knowledge rare
And help you speak concisely.

But when it comes to planning meals
On your one-man Committee,

It's well to choose and often use
The two words: "Royal City."
