ADELAIDE TAKES RUN

Larger Ship Will Be Commissioned Next Week in Vancouver-Ocean Falls-Prince Rupert Route

The steamer Princess Adelaide, which has been undergoing extensive reconditioning during the past winter to fit her especially for the service, will go into permanent commission next week on the Canadian Pacific Railway's British Columbia Coast Steamships Vancouver-Ocean Falls-Prince Rupert route, it is announced at local offices of the company. During the past several weeks this service had been temporarily cancelled so far as the Prince Rupert end was concerned.

Under the new schedule for the route, the Princess Adelaide will leave Vancouver each Wednesday evening at 8 o'clock, calling at Ocean Falls and other points en route north and arriving here at noon Fridays. Leaving here at 10 p.m. Fridays on her return south, she will call at Ocean Falls and other points and is due to arrive in Vancouver Sunday night or Monday morning.

The Princess Adelaide will be the largest and finest ship the company has operated on this route. Ships to carry out the service in past years have included the Tees, Princess Beatrice, Princess Royal, Princess Maquinna, Princess Mary and Princess Alice.

With the Princess Adelaide going on the Vancouver-Ocean Falls-Prince Rupert route, either the Princess Norah or the Princess Mary will revert to the regular Alaska service on a fortnightly basis for the remainder of the winter and going on a 10-day schedule in spring. The Princess Mary may make one more trip on the Alaska route if the Princess Norah, damaged in a stranding during the winter, is not ready in time.

Miss S. A. Mills, principal of Borden Street School, reported to the school board at its meeting last night that the condition of health of pupils in her school was very good. The only malady in January had been a lone case of ringworm.

A suggestion was made at last night's meeting of the school board by Trustee D. C. Schubert that use of the office in the City Hall now used by the Fair Board might also be obtained for use of the secretary of the school board for his files, etc. The matter will be further gone into with the mayor.

Principals of High and Public schools reported to the board meeting last night that mid-year examinations had been held in various grades. The tests in all cases revealed that satisfactory progress was being by the pupils generally. Principal D. H. Someone Asked the Other Day

why the Daily News had such a large circulation in the city. It was easy to answer. The reason is because those responsible for the production of the paper put the very best they can afford into its make-up and sometimes more than they can afford. They give the people the best possible for the money.

It's worth ten cents a week to get the Waterfront Whiffs on Saturday. It's worth something to have the topics of the day discussed in an impartial and interesting manner. It's worth something to follow the adventures of Tillie the Toiler every evening. It's worth a good deal to be able to read the local advertising and to know where to buy and what price to pay.

The Daily News is a paper that is representative of the city and no one need be ashamed to send it away to their friends.
