Halibut Totalling 960,000 Pounds Brought Here This Week From Area 3, Second Heaviest Week of Season

From remote spots in the Pacific Ocean, American and Canadian halibut boats continue to pour in huge catches to maintain Prince Rupert as the world's No. 1 halibut port. This week from Area 3 960,000 pounds of the flat fish were landed here. The week of June 16-23, when 1,322,500 pounds were brought in, has been the only heavier week this season.

Of this week's catch, 670,000 pounds arrived in the American boats. Six Cainadian boats brought in 290,000 pounds.

Total catch since the season started has been 7,870,300 pounds, of which 5,071,800 was Canadian and 2,798,500 was American.

Topping the fleet was the American boat Eagle, which sold 75,000 pounds to Storage Wednesday. The Zabora, with 52,000 pounds, brought in the heaviest Canadian catch on Monday.

D. B. Finn, deputy minister of the Department of Fisheries, is now on the Pacific Coast, having flown west from Ottawa on Wednesday. He will spend two or three weeks visiting fishing districts along the coast, including Vancouver Island and the Queen Charlotte Islands. On his tour, Dr. Finn will be accompanied by Major J. A. Motherwell, western chief supervisor for the department.

When contacted this morning, James Boyd, district supervisor of Fisheries, said he had received no word concerning a visit of the deputy minister to Prince Rupert.

While on the coast, Dr. Finn will take up with the salmon industry details of arrangements relating to this year's supplies of canned salmon for Great Britain.

About 2,000,000 cases of frozen halibut will be exported to Great Britain this year, according to announcements made in Vancouver. This will be only a part of what will be probably one of the biggest export years on record.

In addition, a large portion of the canned salmon pack, estimated roughly at 1,500,000 cases, and nearly all the canned herring pack, will go overseas.

However, there will be at least as much canned salmon for the domestic market this year as last, according to Dr. D. B. Finn, who has been conferring with fishermen and operators from along the coast.

The sockeye pack for the week ending August 5 totalled 199,641½ cases, according to the Fisheries Department supervisor's weekly bulletin. District 2 packed 112,203 cases, of which 81,256 cases came from the Naas and Skeena areas.

Total salmon pack for the coast was 365,989½ cases.

Pinks are beginning to show up more strongly in packing records. In the same week, 104,852 cases of pinks were packed along the coast. District 2 packed 81,149 cases.

In District 2, 234,594 cases of salmon, all types, were packed during the week.

Guadalcanal Battle Flares On Film Screen

Praised as a spectacular screen salute to the United States Marine Corps, the 20th Century-Fox picturization of Richard Tregaskis' "Guadalcanal Diary" will be featured Monday and Tuesday at the Capitol Theatre.

"Guadalcanal Diary" is the film story of Americans' opening offensive against the Japs—whe the Nipponese first swallowed defeat and the Yanks first tasted victory.

This is a swashbuckling story that is an authentic record. It has excitement, thrills and laughter.

The portrayal of the characters has been well handled by a fine cast headed by Preston Foster, Lloyd Nolan, William Bendix, Richard Conte and Anthony Quinn.

History students may well join the enthusiastic ranks of moviegoers to see this saga of the campaign against the Japs' strongholds at Guadalcanal and Tulagi. The story, the photograph and the acting are splendid.
