Salvage Princess Has Break-Down —Herring Run in Harbor—Also Salmon Trolling

Owing to engine trouble, the Salvage Princess was unable to take the Union oil scow over to North Island on Saturday as expected. The F. H. Phippen, Capt. J. Morrison, and the M. T. 3, Capt. H. Kerr, left with the scow in tow yesterday at 10:30 a.m. for North Island. The Princess broke a coupling in her main shaft as she was about to depart. Repair material is expected from Vancouver Wednesday and it is expected the vessel will be back in commission within a week.

The price of red spring salmon dropped three cents this morning when the Karen sold 1400 pounds to the Cold Storage at 7 cents.

Union steamer Cardena, Capt. A. E. Dickson, arrived in port at 6:40 last evening from the south and sailed at 8 p.m. for Anyox, Stewart and other northern points whence she will return here tomorrow morning and sail at 1:30 p.m. for Vancouver and waypoints. Included in a good-sized northbound passenger list, the Cardena had on board a number of members of the cannery crews for Cassiar and B. A. on the Skeena River and Arrandale on the Naas River. Manager James Lamb of Cassiar and Manager W. E. Walker of Arrandale came north on the vessel. This is the last of a number of voyages the Cardena has made on the Vancouver-Prince Rupert-Naas River-Anyox-Stewart route in place of the steamer Catala which will be back on the run next week after having undergone annual inspection at Vancouver. The Cardena will then revert to her regular run on the Vancouver-Rivers Inlet-Bella Coola-Ocean Falls-Skeena River-Prince Rupert route on which the steamer Venture will make her final voyage this week.

About a dozen hand trollers were out in the harbor yesterday trolling for spring salmon. One of the fishermen, at least, was lucky enough to land a couple of the king salmon near the elevator. Some even trolled all the way to Metlakatla but, as it happened, the fish were on this side of the harbor.

In the fine weather yesterday many of the local yachtsmen had their ships out for short cruises. Others were taking advantage of the sunshine to give the boats a little touch of the paint brush to get them ready for immediate use.

A sight which some twenty or so years ago was quite common but which in more recent years has not been so frequent was seen in Prince Rupert harbor yesterday when large schools of herring visited the harbor and could be seen swimming in the water in myriads by passers-by on the docks. The herring run in waters contiguous to Prince Rupert has been much larger than usual this spring, showing that there is no scarcity of this species of fish at least. With the reduction plant of the Rupert Marine Products not operating this year, the demand has been restricted largely to the bait requirements of the halibut fleet.

GOOD DAY IN SKIING

Conditions Excellent For Winter Sport on Mount Oldfield Yesterday

Some two dozen members of the Prince Rupert Ski Club ascended Mount Oldfield yesterday to enjoy another day's fine sport. About half of this number crossed the summit of the mountain to the other side where a number of fine straight runs were found, one being about a mile long. Fresh snow which fell last week made skiing conditions yesterday better than the Sunday previous and, after the sun went down, a hard crust formed which made the sport even faster.

Today's Weather

Prince Rupert—Cloudy, moderate southeast wind; barmometer, 20.10; temeprature, 43; choppy sea.

Dead Tree Point—Rain, strong southeast wind; barometer, 29.92; temperature, 46; rough sea.

Anyox—Clear, calm, 35.
Stewart—Clear, calm, 30.
Hazelton—Clear, calm, 40.
Smithers—Clear, calm, 37.
Burns Lake—Clear, calm, 19.

The present pace of science is too fast for the man on the street to catch all the newspaper headings. —Albert Einstein.

GOOD CAST SEEN HERE

Loretta Young and George Brent Leading Players in "They Call It Fate"

A cast of players of exceptional merit appears in the feature picture "They Call It Fate" which will be seen at the Capitol Theatre here the first of this week. Loretta Young, pretty 19-year old girl, who has been fast coming to the film front, plays the leading feminine role which George Brent, whose rise to popularity has also been rapid, appears opposite Miss Young. Others in the cast include such well known players as Una Merkel, David Manners, Helen Vinson and Louis Calhern.

The story, taken from the novel "They Call It Sin," deals with a young girl's struggle to make good on the New York stage, her fight against too ardent promoters and managers with whom she comes in contact and her inner battle to overcome her own love for a married man. It is an intensely dramatic story with dynamic situations and thrilling sequences and also presents a colorful picture of stage life on Broadway with the attendant temptations that lie in the path of the girls who are fighting for success.

"The Man They Couldn't Arrest," a splendid British romantic drama with all-star cast, is the second of the first of the week double bill.

MONDAY & TUESDAY
TWO SHOWS—7 & 9:10

WEDNESDAY and THURSDAY—"RAIN"

HERE'S THE EVIDENCE OF "BLOOD-TESTED" PATIENTS TO PROVE—

That Dr. Williams' Pink Pills Do Quickly and Safely Build Rich Red Blood, Create New Energy and Restore Strength.

If you are pale, tired-out, easily irritated—if you have heart palpitation or dizziness—if your blood is thin, appetite poor—don't be discouraged. There's a scientifically proven remedy that will quickly and safely restore your rundown, anaemic condition.

Just recently a reputable physician, at the request of the owners of Dr. Williams' Pink Pills, made a scientific test of a group of typical rundown, anaemic people.

Blood from these people was tested for haemoglobin content before and after taking Dr. Williams' Pink Pills. In every case Dr. Williams' Pink Pills increased the haemoglobin satisfactorily. In some cases the results were remarkable, the haemoglobin being increased double the percentage normally to be expected in a month's time. In every case where the blood count was below normal, Dr. Williams' Pink Pills increased the number of red corpuscles.

When it is understood that it is the haemoglobin in the blood that clears the system of poisons and carries life-giving oxygen from the lungs and nutriment from the digestive organs to the innermost cells of every organ and tissue of the body, then you can realize the value to you of the remarkable haemoglobin-building power of Dr. Williams' Pink Pills.

When it is further understood that the red corpuscles are the workers in the blood stream and the carriers of the haemoglobin, you can still further appreciate the value of a preparation that can increase the number of red blood corpuscles as the "blood tests" proved Dr. Williams' Pink Pills could do.

All patients in the "blood-tested" group had quick and safe improvement in their pep, vigor, color, strength and general health. The physician said the results were remarkable.

Remember, a blood test is infallible. It tells the truth without fear or favor. This group of patients furnish absolute, positive and convincing proof of the merit of Dr. Williams' Pink Pills. What Dr. Williams' Pink Pills do for others they can do for you.

The names of the patients, records of the tests, physicians' name, are on file, and can be produced as evidence of the truth of the above statements.
