EIGHTH MAKES SURPRISE MOVE TO NAZI REAR

ROME, April 13 (AP)—A surprise move by British troops in Italy has landed Eighth Army forces behind the German lines along Lake Comacchio. Other British units have reached the Santerno River in a lightning advance from the Senio River, where Allied forces had been held up throughout much of the winter.

This morning, British Eighth Army forces have pushed on through stiff enemy opposition to cross another barrier thrown up by the Germans.

At the other end of the front, American troops, assisted by Italian partisans, have captured the town of Carrara.

PLENTY OF CHANGES

A cochroach gets an entire new skin seven times before it matures.

ALVECHURCH, Worcestershire Eng., (AP)—When a councillor suggested the name of "Pestilence Lane" ought to be changed to something more pleasant, the townsfolk objected. "It goes back to the Black Death and we're proud of it," the said—and the name stays.

Eye-appealing Helen Bruce, featured high-voltage songstress of the "Lifebuoy Follies," which comes to Prince Rupert on Sunday, April 22, under the auspices of the local Red Cross. Helen's magnetic singing style and come-hither eyes make her appearance a thrilling experience.

TANK BATTLE NEAR VIENNA

MOSCOW, April 13 (AP)—The occupation of Vienna is just about complete. Red Army infantrymen have driven the Nazis from nine-tenths of the city. A tank battle is in progress northwest of the capital where the enemy is making a desperate attempt to hold open a secondary rail line to Czechoslovakia. Other Soviet tanks driving west of Vienna are one hundred and fifteen miles from Hitler's hideaway, Berchtesgaden.

Moscow says that some Austrians have finally taken up arms to help bring about their own liberation. Some former members of the Nazi Home Guards are helping the Red Army forces.

OCTANE SPEED

A twin-engine plane burning 87 octane fuel can climb at the rate of 1,000 feet a minute; but with 100 octane its climb is increased to 1,400 feet a minute.

The Experts Say - -

By HELEN BANNERMAN
Canadian Press Staff Writer

Spring brings spring fever . . . it also brings to workers the urge to spend lunch hours in the sun in a neighboring square, on a cathedral lawn or outside the door of a country schoolhouse . . . the next step is to take a lunchbox out into the sun with them.

Besides sandwiches—mainstay of any lunch—add a crisp fruit or vegetable salad packed in wax paper, a fruit tart, milk pudding or custard for dessert and cold milk to drink. If you are tired of the usual cheese or ham sandwiches, here is a hearty type of filling suggested by the home economics at the Agricultural Department Consumer Section.

WEINER SANDWICH FILLING: To make 2½ cups of filling you need ½ pound of weiners, one-third chopped pickles or relish, ½ cup of mayonnaise, one tablespoon minced onion, ½ teaspoon spicey meat sauce and three chopped hard-cooked eggs. Grind the weiners and combine with the other ingredients.

From the doorstep to the icebox in a jiffy! That's the way to save riboflavin, the vitamin in milk which helps to build up resistance to disease and makes for general good health and vitality. It is destroyed by light. Experiments indicate that more than half of the riboflavin content of milk may be lost in two hours if it is exposed to sunlight in a clear glass bottle, even on a cold day. However, if milk is stored in a dark room at room temperature for as long as 24 hours the precious vitamin is not destroyed even though the milk may turn sour.

Milk is the best known source of riboflavin and that is the reason the Nutrition Division of the Health and Welfare Department stresses the need for milk every day. In Bulgaria, where the people are outstandingly healthy and long lived, mainstays of the national diet are black bread and sour milk, both of them rich in riboflavin.

Vanilla, chocolate and strawberry—"Big Three" of the flavoring world—are easy to handle in cooking. When making cakes and cookies add the flavoring to the fat while creaming it. This results in more even and lasting flavor because most flavoring extracts contain essential oils which combine with and are held by the fat. On the other hand, when flavoring gelatine and custard desserts, add it last, so that as little as possible of the flavor will escape.

EGGS A LA KING—To make six servings you will need three tablespoons mild-flavored fat, two tablespoons minced onion (optional), four tablespoons flour, two cups milk, one egg yolk, one cup drained canned peas, six hard-cooked eggs, salt and pepper to taste.

Cook onion in fat for five minutes, but do not brown. Blend in flour. Add hot milk, stirring constantly until sauce thickens Season. Pour some of the sauce over the beaten egg yolk, then stir it carefully back into the rest of the sauce. Add peas and hard-cooked eggs, cut in quarters. Reheat over hot water and serve on toast or crustades.

WAR ON MOSQUITOS

CAPE TOWN, (AP) — Measures are to be taken against the breeding grounds of the malaria mosquitos in the Northern Transvaal and elsewhere. The department of defence has lent the necessary transport and the mosquitos will be attacked by health department officials.

HEAT-TREATED FOR Easier Digestion

Yes . . . it's true . . . *heat-treatment* makes Carnation Milk *easier for babies to digest*—one of the biggest reasons why millions of babies get Carnation Milk in their bottles. There are other reasons, of course—it's completely safe, convenient to keep and to use in baby's formula, as nourishing as milk can be. And Carnation provides *extra* "sunshine" vitamin D, needed for bones and teeth.

Carnation is just good, whole milk with part of the natural water taken out, homogenized, sterilized, and enriched with "sunshine" vitamin D. Write for free, authoritative book, "Your Contented Baby". Carnation Co. Limited, Vancouver.
