Fire is a good friend of the gardener in cleaning-up and getting ready for the new season but, like all drastic remedies, it can also be abused.

Now is the time to get all old weeds, brush and dry grass cleared away and burned. While some of this may rot into humus, if handled properly, the dryer stuff takes a long time to disintegrate and usually it contains a lot of weed seeds that are best destroyed.

Where at all possible burning should be done where the ashes can be worked into the soil. These ashes contain a little potash which is one of the essential fertilizer materials. A good supply of the same can be obtained when the ashes from the fireplace, especially where hardwood is burned, are spread over the soil. Coal ashes, on the other hand, have not much value as a fertilizer but they will help open up heavy soil.

For the Compost Heap—

Later on when growth starts, green weeds, leaves and other trash, should all be piled up in a corner of the garden, covered with a few layers of soil and, if obtainable, some manure. If watered occasionally and perhaps treated with some of the special humus-making chemicals this material will break down rapidly and make the finest sort of garden soil. Most experts regard the compost pile as an essential part of their gardens. Almost anything that will rot can be incorporated. Where the pile is larger it can be screened with some quick-growing annuals or some permanent shrubbery.

Miniature Greenhouses—

In recent years there have appeared on the market little waxed paper cups. In shape and size these resemble the old-fashioned straw hat or "cow breakfast." By using them the gardener can get a fortnight to a month start with such things as melons, tomatoes, cabbage, and other tender plants that normally cannot be set outside until all danger of frost is over.

Little beds about a foot across are made, the seeds sown or the plants set out and then the whole is covered with the paper cap, anchored fast with a bit of soil or a stone or two. In these beds too can be planted very early a bit of lettuce or a few radishes. The paper cap acts as a greenhouse, protecting from late and even severe frosts, and pushing growth along weeks ahead or normal.

Something Will Grow—

No matter how unfavorable the location there is some flower vegetable or shrub that will thrive in it. Some flowers, vegetables and certain varieties of grass actually prefer shade, some want acid soil rather than sweet, some like heavy clay better than loam or sand. The thing in planning is to consider these special likes and dislikes, then to select those plants that suit one's special location.

Most vegetables, however, are pretty keen on a generous amount of sun, but they have distinct likes and dislikes in the matter of soil. For deep-rooted carrots, potatoes, etc., it is important that the soils be fairly loose at least a foot down. Certain types prefer sandy soil to clay. But no matter what the soil is to start with by a little planning and care one can change it fairly easily.

GEESE GO NORTH—IS SPRING EARLY?

Wild geese, on their way north, were sighted flying over Prince Rupert yesterday.

"There might have been as many as fifty," said Theo Fortune, well known local citizen and outdoor sportsman. "I can't remember any previous time when the date was so early. It may mean an extra early spring."

STEWART MOOSE WOMEN'S MEET

STEWART—The semi-monthly meeting of the Women of the Moose, Chapter 16, held in the Moose Home on Thursday, March 17th, witnessed the initiation of two new members, Mrs. T. Palmer and Mrs. R. MacLeod. The feature of the evening was a social service and chapter night program under the direction of Mrs. Betty Walker. It was very thoroughly enjoyed by the members and their guests. Senior Regent Wilkinson contributed vocal numbers to the program.

Sympathy was extended to Mrs. J. Hutchings at the loss, by fire, of her furnishings.

In addition to the regular program, a shower was tendered to Mrs. J. Hutchings. Food, clothing, kitchen utensils and many other necessary items for the home were contributed by the members of the Chapter and friends. The manner in which everyone in the district contributed in tangible form, was commented on. When these spontaneous gifts were presented to Mr. and Mrs. Hutchings the following day, they were both visibly affected by the kindness of everyone, and expressed their sincere appreciation.

Mrs. Crawford Head Of Hospital Women

STEWART — The Women's Auxiliary of the Stewart General Hospital held its annual election of officers last week. Mrs. W. J. Crawford was elected president; Mrs. F. H. Lewis, vice president; Mrs. G. Anderson, secretary, and Mrs. R. Barwise, treasurer. The plans for the ensuing year are tentative, among them being the presentation to the hospital of some needed silverware.

Ducks waddle because their legs are placed so far back on their bodies.

IN THE SUPREME COURT OF BRITISH COLUMBIA
IN PROBATE
In the Matter of the "Administration Act"
And
In the Matter of the Estate of Ernest Johnson, otherwise known as Arne Johnson Hylla, Deceased, Intesate.

TAKE NOTICE that by Order of His Honor Judge Fulton, dated the 14th day of March, 1949, I was appointed Administrator of the Estate of the late Ernest Johnson, otherwise known as Arne Johnson Hylla, formerly of Sunnyside Cannery, British Columbia, who died on or about the 13th day of September, 1948. All persons having claims against the said estate are required to forward them to me on or before April 30th, 1949, properly verified, and all persons indebted to the said estate are required to pay to me the amount of their indebtedness forthwith.

DATED at Prince Rupert, B.C. this 17th day of March, 1949.

GORDON FRASER FORBES
Official Administrator
Prince Rupert, B.C.

Activity at Stewart expected —Riverside opening soon— Possibly Premier

There is likely to be considerable activity in mining in this district this year. Several partnerships have been made either to reopen and high grade existing properties or to develop other new discoveries.

A. H. Kirby, who was in charge of the Riverside Mine, near Hyder, Alaska, arrived on the Camosun on Monday and proceeded to the mine. It is understood that preparations are being made for the reopening of the mine by the middle of April. Mr. Kirby was accompanied by Mrs. Kirby. Mrs. Kirby was formerly nurse at the Silback Premier Mines.

There is every likelihood of the Dunwell Mine being opened this year under new ownership. Application has been made to the Repartment of Mines for assistance in making the Dunwell Road passable for vehicular traffic.

At the moment there is nothing definite as to whether or not the Silbak Premier Mine will reopen in the near future but the hope is still entertained here that it will open in the early spring. Meanwhile the Department of Public Works is continuing its efforts towards opening up the road to the mine. The road has been broken to within two and one half miles of the property. Mr. Hunger, who is in charge at the mine, states that snow is going rapidly.

"Save on Desserts WITH CARNATION MILK"
SAYS MRS. R. V. ARNTFIELD, DIETITIAN, OF PORT CREDIT, ONT.

Garden of Eden Pie

Delicious... and it costs so little!

It tastes gorgeous — it *looks* expensive. Yet this wonderful pie is easy on your budget. A thrifty dessert temptation — if you follow the recipe exactly, and use Carnation Evaporated Milk.

Carnation's *velvet blend* recipes appear often on menus of women like Mrs. Arntfield, graduate dietitian with eleven years' professional experience, and mother of a sturdy Carnation baby boy. These food experts know that all Carnation dishes are economical mealtime *hits*. Try Carnation!

Garden of Eden Pie

Pastry for 9-inch pie shell
1 cup Carnation Milk
1 tablespoon lemon juice
1 cup brown sugar
1/8 teaspoon mace
1/4 teaspoon (each) cinnamon and nutmeg
1/4 teaspoon salt
2 cups finely-chopped apples
2 cups raisins, ground

Line 9-inch pie-pan with pastry, fluting the edges. Mix Carnation Milk, lemon juice, sugar, spices and salt. Add fruit, pour into unbaked pie shell, and bake in hot oven (450°F.) 10 minutes to set crust; then reduce heat to moderate (325°F.) and bake about 40 minutes, until filling is set.
