MINISTER OF FINANCE GIVES DETAILS REGARD PROVINCIAL CONDITIONS

(Continued from Page 1)

000,000 fifteen-year six per cent. sinking funds at a cost of 6.777 per cent.

In May, 1932, £1,500,000 of five per cent. inscribed stock was sold in London, with sinking fund provisions to mature in 1927 with a visions to mature in 1967 with a at a price of 99 to 100, the net proceeds of this sale in Canadian funds, taking into consideration all costs yielded 83.54 per 100 or a cost basis of 6.15%. This cost basis will be greatly reduced should the exchange rate on stirling continue in our favor.

During August, 1932, $2,000,000 were sold in New York on a two-year 5% basis, netting us in Canadian funds 105.50 per 100.

At November 1, 1932, theer were due to the Dominion government $5,134,164 in one-year notes bearing interest between 5¼ to 5½% representing borrowings in connection with unemployment relief.

To effect the refunding of a 4% treasury bill issue amounting to $4,015,000 due in New York on December 15, 1932, there were sold in that city during October and November, 1932, debentures of the province amounting to $1,671,000 bearing interest at 5%, the price being 94.03 per 100, netting the province $1,571,241.40; the balance required of $2,443,758.70 was secured by the sale of a 5% Treasury bill to the Dominion for $1,732,500, and a 5½% Treasury bill to the Canadian Bank of Commerce for $1,112,330.55. Both of these bills cover the cost of New York exchange amounting to $401,071.85.

Accepting the assumption of certain financial circles, that the worst of economic disorganization is over and that idle capital will seek empolyment, it seems probable that interest rates must drop and that capital at interest must find its level with capital otherwise employed.

Province's Creditors

Analysis of the debt, reveals that as to principal and interest some $78,000,000 is payable in New York; $30,060,000 in London; and $46,000,000 in Canada with the following interest charges annually: New York, $3,650,000; London, $1,258,000 and Canada $2,346,000.

Since unemployment relief was undertaken by the province, dominion and municipalities, the sum of $6,819,661.19 had been expended by the province; loans to municipalities on this account had amounted to $767,930.66; municipalities had made a direct contribution of $2,320,607.54 and the Dominion government contributed $7,031,096.17 or a total of $16,939,295.56.

The main estimates for 1931-32 as embodied in the supply act of 1931 provided for expenditures aggregating $28,080,030.76 and authorities such as supplementary estimates, statutory authority and special warrants were required for expenditures to the extent of $282,369.28 or a total of $28,362,400.04.

Unforseen Expenditures

A saving in government functions and services was effected totalling $1,342,396.82. Offsetting this however, was an unforseen expenditure of $2,194,214.65, made up as follows:

Additional unemployment relief $1,062,166.96.

Loans to municipalities for unemployment relief $619,645.82.

In aid of destitute, poor and sick $34,136.33.

Additional law enforcement measures incidental to said conditions required $43,149.05.

Britain's departure from gold standard and the resultant sympathetic drop in Canadian currency necessitated the purchase of United States exchange amounting to $286,426.78.

Public borrowings for unemployment relief added debt charges amounting to $148,689.71.

Huge Deficit

Thus, while the main estimates anticipated revenues totalling $28,088,696.66, the actual collections yielded $22,162,657.29, leaving a deficit of $5,926,039.37, and despite a net saving of $1,342,396.82 in various departments against original appropriations, there was a sum of $2,194,214.65 expended as noted above, leaving a grand total of excess expenditures over revenue of $7,051,6350.58.

Losses of revenue in various departments were given as: Liquor profits $1,080,000 short of estimates; motor vehicle revenue nearly $500,000 less; gasoline tax $200,000 less; income tax $1,000,000 less; land taxes $300,000 less; mineral tax $420,000 less and lands department revenue $1,550,000 less or an aggregate of $5,050,000; in addition, with the exception of one or two, all other revenues yielded $870,000 less than anticipated.

The people of this province on a per capita distribution have had to pay three times more for public debt charges than in 1916. They pay at a ratio of 3.65 to 1 more for municipal aid; 1.8 to 1 more for education; 3.12 to 1 more for hospitals, charities, and relief; 11 per cent. less for public works; 21 per cent more for administration of justice; 53 per cent more for administration of natural resources and 16 per cent less for government functions.

IMPROVE SOUPS AND SAUCES *this delicious way . .*

What is more appetizing than a rich, creamy, hot soup? Indeed, quite often soup is a "meal in itself" when prepared with Nestlé's Evaporated Milk for doubly concentrated richness and nourishment. Soups prepared with Nestlé's Evaporated Milk are superior in "creaminess," finer in flavour, richer in color and less in cost than those made with any other form of milk! All these advantages are greatly to be desired in the preparation of both soups and sauces—and when convenience is added to these, you will want to try the recipe for Potato-Spinach Soup, given below—a meal in itself.

Potato Spinach Soup

¼ cup butter, or bacon or chicken fat
½ cup chopped onion
1 quart water
1 quart diced potatoes
1½ teaspoons salt
1 quart chopped raw spinach (½ lb.)
2 cups Nestlé's Evaporated Milk
Pepper, if desired

Cook onion slowly in the fat until yellow. Add water, potatoes, spinach and seasonings. Cook slowly until potatoes are tender. Add Nestlé's Evaporated Milk and heat thoroughly before serving. Yield: 6 to 8 servings.

LARGEST GRANITE STATUE

The world's largest granite statue, rising to a height of 160 feet with a diameter at the base of 25 feet, has been erected at Mont Faucon, near Verdun, in honor of the American soldier. The statue, which represents victory, will be a tribute to France.

Happiness is often greater in anticipation than in the realization.—John Masefield.

•TESTED RECIPES OF TEMPTING INTEREST•

HAM IN HADES

Such a tasty **Flavour**

Ham in Hades, is truly appetizing. Easy to prepare too and so very economical, if you follow this simple recipe.

Take 6 slices of cooked ham, 1 teaspoon of Colman's Mustard, 1 tablespoon each of vinegar, salt and paprika, 1 teaspoon Worcester sauce, 2 tablespoons of fat. Mix the mustard, vinegar, salt and seasonings. Coat each slice of ham with mixture. Place fat in frying pan and when smoking hot put in the ham slices. Brown quickly to a delicate shade on either side.

A lot depends on that teaspoon of mustard. Be sure to include it and be equally sure the mustard is Colman's. Then your "Ham in Hades" will have a tasty flavour and the savoury, appetizing appeal that rightly belongs to it.

Colman's D.S.F. Mustard

PETITION

TO THE HONORABLE THE HOUSE OF COMMONS OF CANADA, IN PARLIAMENT ASSEMBLED:

WE, THE UNDERSIGNED CITIZENS of the Great Dominion of Canada, being a free and independent people, in whom resides the right of self determination, do hereby vigorously protest against the action of the Radio Commission of Canada in censoring or attempting to censor and exclude from public broadcast radio lectures on matters pertaining to the Bible and of public interest, and particularly the lectures of J. F. Rutherford, pertaining to divine prophecy. We have faith in the Bible as the Word of God, and that it was written for the instruction of man. Many sincere persons claim that the Bible prophecies apply particularly to our day and bear direct relationship to the present world distress, and disclose God's remedy for relief. We are entitled to hear these questions publicly discussed free from all censor, otherwise our freedom is taken away. Those who object, or who may be offended by such lectures, may turn their radio dials and decline to hear.

We, therefore, demand that the Dominion Parliament take immediate action, removing from the Radio Commission the power to censor, hinder or prevent such lectures by radio and that the people be left free to determine what they may or may not hear. Men of world-wide repute and eminently qualified to explain the Bible, such as we believe Rutherford is, can be helpful to the people and we demand that our radio stations be permitted to publicly broadcast his lectures. The question is: Shall the people continue to enjoy freedom or shall a few men deprive them of their God-given rights?
