United Empire Tram-Warehouse Work Proceeding

STEWART, April 12.—The steamer Prince George spent several hours here on Thursday last unloading an unusually large cargo, most of which was supplies for the United Empire Gold and Silver Mines Ltd., consisting of building materials for the construction of the new warehouse and ore bunkers at the lower terminal of the tramline.

The warehouse is to be 60 feet by 24 feet and will contain office space and living quarters on the second floor.

Work on the construction of this building and the ore bunkers will be rushed as soon as the materials are on the ground.

Unfavorable weather is delaying transportation from the dock to the tram terminal.
