# POULTRY RAISING PROFITS PEOPLE OF PRINCE RUPERT

### HOW TO START AND MAINTAIN THE GOOD PAYING HOBBY OF KEEPING CHICKENS—HATCHING, REARING AND FEEDING POULTRY IN A PIANO CASE.

Poultry raising works in splendidly as a profitable hobby in Prince Rupert. Very little is required in the way of outlay, and the returns in proportion thereto are a good many times larger than in any other branch. The poultry houses need not be expensive, just so long as they are of the serviceable kind—the kind that give results. There is much waste every year that could be converted into poultry and eggs very easily at a handsome profit. Only about four pounds of grain are required to produce one pound of chicken, which is less than is required to produce one pound of beef, mutton or bacon. The labor required to successfully manage a flock of poultry is proportionately small. The market demands are practically unlimited, and the price of dressed poultry and eggs is sufficiently high at all times of the year to make poultry keeping a paying business, even when prices are at their lowest. From these facts we see that poultry can be made very profitable with but very little in the way of initiative expenditure.

**Best Way to Start.**

To begin poultry raising start with a few settings of eggs the first season and hatch chickens from the eggs, and then have your own stock the second season. This way of starting is the cheapest. Where a person wants to invest a little heavier a better start can be made by buying ten to twenty birds and hatching chickens from these the first year. This means, of course, a heavier expense, but then one would be a year ahead in getting returns already the first year.

**The Poultry House.**

The poultry house should be located fairly close to the home and should be protected from the north winds. The idea is to have the poultry house well lighted, dry, well ventilated and free from draught, and also fairly cheap. One of the best houses is the straw loft poultry house, built 16 feet wide and any length desired. This house has a peak or gable roof, is seven feet high from sill to plate and has the south side made of one-third boards and the remainder one-half glass and one-half curtain. Such a house is not very expensive and answers the purpose very well for the raiser of chickens.

**Small Equipment.**

The equipment required to operate a poultry department on a dry farm need not be very large. All appliances should be as possible. The less machinery about a poultry yard the better it will be. Drinking pans, feed hoppers, nest boxes and so on should be as simple as possible.

**Incubators.**

The appliances required to raise chickens are not very numerous. Incubators and brooders, of course, become a necessity where large numbers are hatched and raised, or where early hatched pullets are wanted for winter egg production, but where only a few chickens are raised the investment would hardly be profitable. The brooder is usually superior to the old hen for raising chickens, providing it is properly handled.

**Let Fowls Run.**

The ideal place to raise chickens is on the kind of ground where insect life is fairly abundant. Chickens raised on free range with hens or with brooders will always be healthy, strong and vigorous, and they develop quicker than those raised on a limited range.

Exercise is essential for laying stock. Make them work for the whole grain, of which wheat is probably the best. Feed crushed oats in a feed hopper, always within access. Buttermilk is the best drink for them. Give grit and oyster shell, and also green food.

**Feed for Chicks.**

Little chickens should be fed on stale bread pressed dry (after being soaked in milk) and mixed with hard boiled eggs. Add charcoal and finely cut onion leaves to this. Give chick food five times a day and gradually change to whole wheat, so that at the age of six weeks they will get all wheat. Start them on dry mash made of equal parts of corn meal, flour and ground oats scrap, charcoal and corn meal, and feed this a few times a day in low pans. After six weeks of age hopper feed both grain and dry mash in order to lessen the labor. Give buttermilk to drink and also feed grit. Provide shade of some kind.

The simplest colony house can be made by placing two piano boxes back to back, first taking off the backs and the flat tops. Run up the steep sides so as to form a hip roof, then cover with roofing. Securely fasten the two boxes together and place them on 4x4 runners; put a door and runway in one end, and the house is ready for use.

**Raising Chicks.**

For raising chickens the colony house should be fitted up with a detachable lamp box and a hover which can be taken out just as soon as the chicks are old enough to roost. A colony house can be made and a detachable brooder can be purchased at the same price. One can buy an outdoor brooder complete, and the former can be used from the time the chicks are hatched until ready to go to the regular poultry house, whereas the latter answers the purpose satisfactorily only for the first six weeks.

### WATER NOTICE.

**For a License to Take and Use Water.**

Notice is hereby given that the Prince Rupert Hydro-Electric Co., Ltd., of Montreal, Canada, will apply for a license to take and use 100 cubic feet per second of water out of McKnight Creek, which flows in a northeasterly direction through Wm. Agnew application to purchase, and empties into Hocsall River about 1 mile above mouth of Browns Creek. The water will be diverted at McKnight's Lake and will be used for power purposes on the land described as Wm. Agnew application to purchase.

This notice was posted on the ground on the 25th day of May, 1912. The application will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

THE PRINCE RUPERT HYDRO-ELECTRIC CO., LTD., Applicant.
By A. W. Agnew, Agent.
Pub. June 2, 1912.

### NAVIGABLE WATERS PROTECTION ACT.

Notice is hereby given pursuant to the provisions of Chapter 115 of the Revised Statutes of Canada and Amending Acts that the Ocean Falls Co., Limited, an incorporated company incorporated under the laws of the Province of British Columbia and having its head office in the City of Vancouver in the said Province, has filed with the Minister of Public Works of the Dominion of Canada a plan of a certain wharf and other works proposed to be constructed by the company and a description of the site chosen by the company for the said wharf at Cousins Inlet, Coast District, Vancouver Island, British Columbia, and that the said company has also filed at the office of the Registrar of Deeds at Victoria, British Columbia, being the proper registry in that behalf, a duplicate of the said plan and description and will apply to the Governor General in Council for approval thereof.

Dated this 28th day of May, A. D. 1912., at Vancouver, B. C.

TUPPER & GRIFFIN,
Solicitors for the Said Company.
Pub. June 3, 1912.

### CERTIFICATE OF IMPROVEMENT.

Lost Rocker Mineral Claim, situate in the Skeena Mining Division of Cassiar District. Where located: On the west side of the entrance to Goose Bay, Observatory Inlet.

TAKE NOTICE that I, W. T. Kergin, as agent for F. S. Dakers, Free Miners' Certificate No. 33959B, intend 60 days from date hereof to apply to the Mining Recorder for a certificate of improvement for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action under Section 37 must be commenced before the issue of such certificate of improvements.

Dated this 1st of May, 1912.
W. T. KERGIN.
Pub. May 4, 1912.

### WATER NOTICE.

**For a License to Take and Use Water.**

Notice is hereby given that Lakelse Development Co., Ltd., of 3 Haddon Bldg., Vancouver, will apply for a license to take and use 400 cubic feet per second of water out of Williams Creek, which flows in a westerly direction through Southeast Lakelse Valley and empties into Lakelse Lake near North End. The water will be diverted at a point 3 miles above the bridge and will be used for irrigation and power purposes on the land described as Lakelse Valley between Skeena River and Lakelse Lake.

This notice was posted on the ground on the 6th day of May, 1912. The application will be filed in the office of the Water Recorder at Prince Rupert.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Building, Victoria, B. C.

LAKELSE VALLEY DEVELOPMENT CO., LTD.
By W. R. Flewin, Agent.
Pub. May 18, 1912.

### WATER NOTICE.

**For a License to Take and Use Water.**

NOTICE is hereby given that James A. Brown, of Port Essington, B. C. will apply for a license to take and use Two Thousand (2,000) inches of water out of Browns Creek, which flows in a northeasterly direction through Lot 121, and empties into Hocsall River, near Grassy Island. The water will be diverted at Browns Lake, and will be used for industrial purposes on the land described as Lot 121, Range 5, Coast District.

This notice was posted on the ground on the 2nd day of May, 1912. The application will be filed in the office of the Water Recorder, at Princ Rupert, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
