MILBURN'S HEART AND NERVE PILLS

Price 50c a box

**Suffered From Heart Trouble Became Weak and Run Down**

Mrs. Wm. Diotte, Glensandfield, Ont., writes:—"For a long period I suffered from heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. One day I met a friend and told her of my trouble. She said she had had heart trouble for two years too, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes and after taking them I was again feeling fine, and always recommend H. & N. Pills to anyone complaining of heart trouble."

## DISARMAMENT MOVEMENT

A letter published in this issue sets forth the argument in favor of world disarmament, a question that will be discussed by the nations of the world at a convention next year. The League of Nations organization in Canada, assisted by many other organizations, is preparing a petition which will be presented to the convention in favor of disarmament. The movement is backed by most of the prominent men in Canada including the Governor-General, Premier Bennett and Ex-premier Mackenzie King.

We are heartily in accord with the disarmament idea and a copy of the petition will be at the Daily News office for anyone who wishes to sign. It seems as if a country like Canada, wholly unarmed and at the mercy of warring nations, should support such a movement unanimously.

## MONTREAL GRAIN TRADE

Prince Rupert has been disappointed in her grain business but she was not alone in the shrinkage of shipping as is shown by the annual report of the Harbor of Montreal just received. It shows that through the four elevators at the port a total of 81,669,864 bushels of grain was shipped in 1930 as against 211,295,379 bushels in 1928. The grain shipped was an average of slightly over twenty million bushels to the elevator.

The grain was shipped mostly to Great Britain and Italy, the latter leading slightly with 16,770,954 bushels. Other buying countries in the order of precedence were Belgium, Holland, France, Greece, Germany, Norway, Irland, Denmark, Brazil, Japan, Sweden, Algeria and Malta.

It must be remembered that the Port of Montreal is closed by ice from the middle of December to the middle of April whereas Prince Rupert is open all the year round, no ice ever interfering with navigation in the local harbor.

The imports into Montreal are comparatively small, the whole amounting to less than five million tons last year, according to the report. It was chiefly coal, petroleum, raw sugar, corn, gasoline, manganese ore, dry goods, fruit, sulphur, steel, wood pulp, molasses, sand, phosphates, sheet glass, toys, liquors, salt, tin plate, tea, wire, machinery, fire brick and muriate of potash. The last mentioned was slightly over ten thousand tons whereas coal imports amounted to about a million tons with the other articles graduated between those amounts.

Exports in the order of importance were wheat, flour, auto parts, fruit, lumber, yard, printing paper, meat, cheese, rubber manufactures, hay, oats, wood pulp, cement, liquors, barley, rye, copper matte, rolled oats and asbestos fibre.

Many people may be interested to know where the coal comes from. According to the report there was British anthracite, 740,803 tons; Russian anthracite, 200,651 tons; German anthracite, 12,857 tons; American bituminous, 86,420 tons; British bituminous, 45,115 tons; Nova Scotia bituminous, 1,407,345 tons; British anthracite by rail from St. John in winter, 60,151 tons; American anthracite by rail, 4,265 tons.

## PICNIC SEASON NOW

The annual picnic season is on and during the next month or so there will be plenty of opportunities for the people to forget the bad times and cross the harbor to some suitable point and there enjoy the sunshine and fresh air and pleasant companionship. It is not good to be always thinking and talking of financial conditions. Forget, those who can, and join one of the merry crowds at the beach.

# ENTERTAIN OVER RADIO

### Group of Vocalists For Jasper Park Now Complete

JASPER PARK, June 20:—The trio of clever entertainers, who will feature the radio programs to be broadcast from Jasper Park Lodge every evening during the summer months, has been completed with the arrival yesterday of Miss Virginia Fair, of Kingston, Ont. The other members of the trio are Wishart Campbell, baritone, and Herbert Hargreaves, tenor, both of whom are Toronto singers with continent-wide reputations gained through their broadcasts from eastern stations. Irvin Plumm's Jasper Park Lodge Orchestra will continue programs of dance and classical music.

Miss Fair promises to be one of Canada's most versatile radio entertainers. She is a silver medallist from the Royal Academy of Music, London, where she studied the piano for four years. In addition, she has attained marked success with her syncopated songs at the piano. She possesses what has been termed a "flexible voice" with an amazing range of three octaves. One of her greatest successes has been the negro spirtuals.

Miss Fair will make her debut over the air from Jasper Park Lodge tonight. Together with Campbell and Hargreaves, she will partcipate in the two regular week-day programs which include the half-hour period from 7:30 to 8:00 p.m., M. T., and the dance hour which commences at 10 o'clock, M. T., from Vancouver and Red Deer stations. On Sunday the artists will contribute to the regular Sunday evening concert hour which commences at 7:30 o'clock M. T. over the network of the Canadian National Railways.

## PRINCE GEORGE

C. F. Freeman, city electrician, George Caus of the public works department made the gruesome discovery on Monday morning of the body of a newly born baby wrapped in a piece of sacking near the entrance to the City Hall. The bundle had been there for two days. Dr. Carl Ewert, who performed a post-mortem, declared that the body had been that of a normal, healthy child which had died of exposure. The police are making a rigid investigation.

H. S. French, district agriculturalist, returned to town last Sunday evening from Burns Lake, having driven that far with Hon. William Atkinson, minister of agriculture, who has been on a tour of the central interior.

According to information received by the city council and the board of trade, a large number of persons are dodging the census enumerators and that, therefore, the population of the city will be shown to be much less than it actually is.

Tom Corless had a miraculous escape from injury or death last Friday when he landed his plane on the top of a clump of pine trees after his engine had stalled at a point where it was impossible to glide to water. The crash occurred north of Takla Lake. Corless was brought out in another plane. His own machine sustained extensive damage but there will be some salvage.

District "C" Farmers' Institutes, in annual convention here last week, elected officers for the ensuing year as follows: honorary president, C. Prout, Vanderhoof; president, E. J. Down, Woodpecker; secretary-treasurer, H. S. French; directors, J. H. Bolton, Andy Miller, C. McNeill and Albert Biederman.

### INTERNATIONAL DISARMAMENT

Editor, Daily News:—

It might be well for each and all of us to give a moment's thought to where the present mad race in armaments is leading. This has been depicted by many, but never more vividly than by John Galsworthy:

"With the development of airplanes, explosives, and poison gases in recent years, the men, women and children of any country partaking in a future war seem doomed to creep like rats into a drainpipe. There will be no chivalry, honor, or glory in a future war: no distinction of age or sex, or between the sick and healthy will be shown. There will be no immunity for culture. There will be nothing but flying invisible shapes, raining death and desolation. The country that indulges in war will become a shadow of its former self and slink down into the pit of the past.

"This is no cry of alarm, but common sense."

Representatives of the nations of the world are to meet in February next at the Conference on World Disarmament. Canada will be represented here, and when the Canadian delegates go to the conference, they must feel and be able to to say that the people of Canada stand behind them in their plea for disarmament.

In order that the delegates from the various nations may speak with confidence, at the present time in some forty-countries League of Nations Societies and other organizations are circulating disarmament petitions that are to be handed to their governments and forwarded to Geneva.

So that Canada may not lag behind in the matter of signatures to this petition, and in the hope that it will be well to the forefront, the League of Nations Society in Canada and other organizations are at the present time placing in circulation a petition for world disarmament by international agreement. To give as many Canadians as possible an opportunity of signing the petition, it is being placed in the hands of the various organizations, such as the British Empire Service League and Labor organizations who have already promised their support as well as women's organizatons, service clubs, religious bodies, teachers' organizations, etc., and in all the post offices and banks throughout the country.

The work of circulating the disarmament petition cannot be done without the expenditure of money, notwithstanding the fact that a great deal of voluntary help is being cheerfully given. The society is at the present time wholly unable to carry on this special work without assistance. It is therefore the earnest hope of the executive that men and women interestd in the cause of peace will send in their contributions, small or large to the general secretary at Ottawa.

Very truly yours,
C. P. MEREDITH,
General Secretary
League of Nations Society of Canada, 391 Wellington Street, Ottawa, Canada.

For drunkenness, T. Belanger was fined $25, with option of thirty days' imprisonment, by Magistrate McClymont in city police court yesterday afternoon.

Would you rob your children?

WITHOUT realizing the fact, you may be robbing your wife and children. Perhaps, like many other men, you have taken from your dependants the protection of Life Insurance which they should have.

Face the situation squarely. Remember that **a lapsed policy is a menace to the future happiness of your family.** Hardships may suddenly fall on frail shoulders unaccustomed to man's burdens.

By maintaining adequate life insurance you can be sure of independence in your later years . . . sure that your wife will never want . . . sure that your children will have the advantages of an education.

The sound advice of a Life Insurance Representative will help you solve your personal problem. Consult him today.
