TAKE THE LEAD OUT OF YOUR LEGS

**Get Oxygen in Your Blood and You'll Get the Pep that Sends You Bounding Up the Stairs**

People who smother to death die because oxygen has been completely cut off from them. Just as surely you are slowly smothering if your blood lacks red corpuscles. Red corpuscles are your oxygen-carriers. They carry the oxygen you breathe in to every part of your system. Without enough oxygen-carrying corpuscles, your kidneys, liver, stomach and bowels slow down. Your skin gets pale, flabby, often pimply. Your nerves may become jittery—you tire quickly—feel depressed.

What you need is Dr. Williams Pink Pills. These world-famous pills help make more and better red corpuscles and thus increase the oxygen-carrying power of your blood. Get Dr. Williams Pink Pills today at your druggist. See for yourself how quickly this time-proven blood-builder will help give you back your pep. Copr. 1938, G.T. Fulford Co., Ltd.
