Girl of 19 Accused of Bad Complexion
(*Before Mr. Justice Kruschen*)

JUDGE: Jane Smith, you have had a fair trial and you have been found guilty of the charge made against you.

PRISONER: Y-y-yes, my lord.

JUDGE: Very well, then. Your crime may not have been deliberate, but it was one of serious neglect. You admit that though you do not get enough time for adequate open-air exercise you have never troubled to take steps to prevent constipation. Your complexion inevitably suffered.

COUNSEL FOR THE DEFENCE: My lord, I protest that there are other causes.

JUDGE: I said that constipation inevitably causes bad complexions; your client admits to the cause and plainly suffers from the effect.

PRISONER: It isn't my fault, my lord. I couldn't help it.

JUDGE: You could help it and you shall help it. This is the first time a charge has been made against you; let it be a lesson to you that young women may not neglect and spoil the good looks that Nature gave them. Your duty to your parents, to your friends, to your future husband is to make the most you possibly can of yourself.

(Here the prisoner covered her face with her handkerchief and was handed a glass of water.)

JUDGE: (continuing): You will be placed on probation for 3 months and I order that you drink one cup of coffee or tea, or a glass of water at breakfast every morning—

PRISONER: But I always do!

JUDGE: (sternly): Don't interrupt! One cup of coffee or tea or a glass of water every morning into which you shall put as much Kruschen Salts as will lie on a 10c piece. You will get rid of constipation and when you do you will never find yourself in your present predicament again.

After consultation with counsel, the judge announced that costs to the extent of less than 1c a day should be borne by the defence. "I believe I am right in saying," said his lordship, "that a 75c bottle of Kruschen contains 96 doses. That is much less than 1c a day."

The prisoner left the court smiling.

KRUSCHEN SALTS
relieve constipation and rheumatism

Kruschen is a combination of several mineral salts which your body must get, in some way, to keep the blood pure, the inside clean, and the system generally toned up, but which you can't get in Nature's own way without abundant exercise and fresh air. You should have those salts *every day*: hence the importance of the "little daily dose". Every drug counter sells Kruschen in 25c, 45c and 75c bottles. *It's the little daily dose that does it.*
