Canadian Fish & Cold Storage Co. Ltd.

Prince Rupert, B.C.

It's interesting to know when reading the Daily News that the people of the whole district are doing the same.

Pioneer Recalls Stagecoach Days

PRINCE GEORGE, B.C., Sept. 12: (CP)—Al Young, 70, has seen the old-time stage coach give way as a mail carrier to the train, the automobile and the airplane. The recent inauguration of an airmail service from Vancouver to Whitehorse, Y.T., recalled to him the days when he drove a mail stage in the Cariboo district and a 30-mile "hop" was considered a good drive.

The pioneers didn't know when to expect their mail, said Young. But they were all on hand when the stage drove up in a cloud of dust and with a rattle and clatter of hooves.

SMITHERS

W. V. Tomlinson will leave Smithers by motor car tomorrow to take his young son Raymond back to Vernon to school. Raymond attended school in Vernon last year and has spent his holidays in Smithers. The climate in the south is very beneficial to his health which has never been good in Smithers and he will return there to continue his residence and studies.

Mrs. J. H. Byrne and son, Garry, left on Thursday morning to motor back to Vancouver where they expect to remain during the winter.

The last week or ten days has seen the return of a great many holidayers who have been spending their vacations in the south and these are all back at the old grind for another year or longer.

All of the school teachers returned during the same period and have resumed their work in the local schools. There has been no change in the staff at either the Public of the High School and the pupils have resumed their studies where they left off three months ago. The class composed of the young children just starting their school life is one of the largest here in some years.

Wet weather arrived here last week to put a halt to harvesting operations and also to subdue the forest fires which have been burning for many weeks. Thunder storms several nights in succession shook a lot of rain out of the clouds and the moisture had been collecting for about six months as it has been noticeably absent all summer. It will aid the farmers in their fall plowing and prepare the ground for good crops next year.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

DONATIONS RETURNED

Smithers Celebration Committee Did Not Need Money Subscribed So Passed it Back to Donors

SMITHERS, Sept. 12.—The final meeting of the celebration committee was held here Friday evening, having been called for the purpose of hearing the financial report and winding up small matters connected with the celebration.

The general chairman, L. H. Kenney, presided over the meeting and nearly all of the heads of the various committees were present.

H. B. Campbell, head of the finance committee, read his report to the meeting and those present were gratified to know that there was a substantial surplus after all bills had been paid.

Mr. Campbell also announced that the donations that had been made to the fund by business men before the celebration had not been needed and these funds had all been returned to those who had so generously contributed for this purpose. This was the first time in the history of the town that subscriptions had been returned as not needed.

The chairman thanked all those who had worked so hard to make the celebration the great success it had turned out to be in every way and complimented the heads of the various committees on the excellent manner in which they had handled the work allotted to them and which was responsible for the success of the celebration of the 25th anniversary celebration of the town.

The committee voted to distribute the funds remaining after all expenses had been paid to deserving organizations of the town.

Electric Storms At Terrace Last Week

Terrace, Sept. 12.—The past week has brought some violent weather changes beginning Friday September 2nd with severe electric storms for three days, we had samples of every sort until Friday, when Terrace again basked in its usual sunshine. Heavy reains, if they have not come too late should be of great benefit to the root crops.

Hay and grain crops have been patchy, quite good in some cases but decidedly light in others owing to the hot dry summer.

There is a fairly good crop of apples to be harvested but it cannot reach last year's bumper pickings. Flower gardens have been poor as a general rule with insufficient moisture.

Miss June Armour who left with her mother last week for Vancouver is to enter the University of British Columbia, taking a five-year course in social service.

He-Man Instinct Is Featured In Play at Capitol

Story of Four Men Who Forsake Everything To Save Memory Of Their Father

When the feature film "Four Men and a Prayer" is seen at the Capitol Theatre tonight, those present will find that this production has passed up all the ultra-saccharine cliches of the love motif for the noblest of he-man instincts—the unswerving faith of four sons in their father's honor.

Beautiful, gay Loretta Young in practically the only feminine role, is the girl whose love for one of the brothers serves as a shining beacon through clouds of intrigue—and event distrust of her.

Her romantic interest is for Richard Grene, which means that Capitol Theatre patrons will have their first glimpse of the sensational new British star discovery.

Greene however, along with George Sanders, David Niven and William Henry are the four men who forsake everything in their careers to track down around the world, the menace which cashiered their beloved father, C. Aubrey Smith, out of the army in disgrace and then brought death to a great soldier.

In a cast of 3,000, encompassing the characters of 21 nations of the world, this picture has been assembled with all the sweep and grandeur of the book by David Garth and in the capable hands of John Ford, it has been placed upon the screen.

WHIFFLETS
From The Waterfront

The steamer Catala arrived from Vancouver quite late. She landed passengers here during the early hours of morning and left later for Portland Canal points.

Steamer Princess Louise arrived this morning and left a couple of hours later for Alaskan points.

Dominion government survey boat J. W. Stewart was in port this morning and was joined here by H. D. Parizeau of Victoria who is in charge of the hydrographic surveys on this coast.
