"SALADA" TEA

MAKES CASE FOR NATIVE

Prince Rupert Should Appreciate Indian Neighbors More Fully, Declares Rev. W. H. Pierce

"If the people of Prince Rupert treat the Indians of this district as they should good neighbors, they will find them true friends and a real asset to the city in a business way," declared Rev. W. H. Pierce, veteran coast missionary in addressing the Prince Rupert Gyro Club at luncheon yesterday. "Treat them rough and they will do the same to you. Let me tell you the Indian is as resentful as any person when he feels he is not receiving a square deal. The native man is our good neighbor. Let us open our hearts to receive him. You will find that it will repay you many fold. The Indian is a good customer of this city. He is industrious and independent and he brings all his resources to Prince Rupert."

Mr. Pierce's subject was in connection with early native history. He told how, before the white men came, there were 40,000 virile Indian people living along this coast between Queen Charlotte Sound and Sitka. At Port Simpson alone there had been 4,000. The Indians were civilized before the white man came and could stand up to any white man. They were capable of making their own living from the resources of the country and needed help from no one. They were not treaty Indians. They were not beggars but only asked a square deal. Today found them climbing up in enlightment and education. "Let us endeavour to influence the Indian department to do even more for the Indian people," Mr. Pierce appealed.

The speaker gave as his belief, through study of the Bible and otherwise, that the Indians on this coast had originated in Asia, crossing Siberia to Alaska and thence southward. All the coast Indians he classed as one nation. First had been founded the villages of the Naas River such as Aiyansh, Canyon City and Greenville, then the Skeena River villages and to the coast.

Mr. Pierce recounted some aboriginal Indian customs and conventions such as the marriage rite which was quite as strict and binding as that of the whites. He told of the marriage of his father, Edward Pierce, a Scotsman, who had been a member of the crew of the old steamer Beaver, and his native mother at Port Simpson.

Continuing, the speaker described totem pole lore and customs, how these poles were made and painted. The most valuable collection of totems to be found in the country today were the fourteen erected at Prince Rupert. There were worth at least $14,000, he conservatively estimated.

Mr. Pierce was thanked for his interesting talk by the Gyro president, W. M. Watts. Guests at the luncheon were A. E. Mackney and Donald McDonald of Vancouver and Capt. W. P. Armour of Prince Rupert.

Cereal in Top Hat and Tails

by Mary Blake

I suppose *evening* dress is hardly the thing for a breakfast food. But I don't know any better way to describe cereal "creamed" with Irradiated Carnation Milk. There's a rich, creamy flavour to Carnation that just makes any cereal taste better.

The smooth richness you notice immediately when Carnation is used to cream cereals and coffee, is there, also, in cooked dishes—cream soups, cream sauces, puddings, frozen desserts. Carnation is just whole milk with part of the natural water taken out; sterilized so it keeps on the pantry shelf indefinitely; homogenized to give every drop equal creamy smoothness; irradiated for extra "sunshine" vitamin D.

The same processes which make Carnation Milk so good for cooking, make it a safer, more digestible milk for babies. It gives them an extra helping of "sunshine" vitamin D which all babies and children should have.

There are glorified recipes of all kinds in the beautifully illustrated Carnation Cook Book—15c (postpaid). Carnation Company Limited, Abbott St., Vancouver, B.C.

RADIO—listen to the "Contented Hour" every Monday night. See your local newspaper for stations and time.

HOT OR COLD CHOCOLATE MILK

Chocolate Syrup—melt two squares unsweetened chocolate over hot water. Add one cup boiling water and cook over low flame, stirring vigorously until thick and smooth. Add one cup granulated sugar and with occasional stirring continue cooking 3 or 4 minutes. **Hot Chocolate Milk**—3 tbsp. chocolate syrup; add 1¼ cups water and heat to boiling; add 1 cup Carnation Milk and stir vigorously. **Cold Milk Chocolate**—3 tbsp. chocolate syrup; add 1 cup chilled Carnation Milk diluted with 1½ cups ice water. Stir or shake vigorously.

IRRADIATED Carnation Milk

CITY OF PRINCE RUPERT

Notice

The Provincial Government has approved and will guarantee the repayment to the Dominion Government of a loan which it has agreed to advance to the city of forty thousand ($40,000) dollars at two per cent interest for a period of thirty years for the purpose of replacing certain wooden water pipe mains with cast iron and it is my intention to take advantage of this loan.

Any property owner objecting please advise in writing "The Honorable Minister of Municipal Affairs" at the City Hall, Prince Rupert on or before the twelfth day of June next.

W. J. ALDER,
Commissioner.
(tf.)

LOCAL NEWS NOTES

S. O. N. Meeting tonight 8 o'clock.

Mrs. J. J. Gillis returned to the city on the Prince George yesterday from a month's visit in Vancouver, Victoria and Seattle.

Father G. Edgar Gallant, well known parish priest of the Roman Catholic Church at Skagway, was a passenger aboard the Princess Louise yesterday afternoon going through on a trip to Seattle and elsewhere in the south.

Mr. and Mrs. W. L. Phelps of Whitehorse were passengers aboard the Princess Louise yesterday afternoon going through on a trip to Vancouver and elsewhere in the south. Mr. Phelps is a well known pioneer barrister of Whitehorse.

KISS YOUR TIRED FEELING GOODBYE!

Pepless Many Suffer Low Blood Count—And Don't Know It.

The baffling thing about low blood count is that you can weigh about as much as you ever did — even look healthy and strong, yet — you can feel as if you had lead in your legs, dopey, tired and pepless.

Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of otyxzen to explode the energy in your body and give you going power.

Get Dr. Williams Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams Pink Pills today.

Winner of a raffle in connection with the Seal Cove parish hall extension fund was Lena Lindseth with 392. The prize was a handsome cedar chest. A surprise prize, an alarm clock, was won by G. W. Inch.

Dr. Neal Carter was the speaker today at the regular weekly luncheon of the Prince Rupert Rotary Club. He told of the recent district convention at Juneau which he attended. W. L. Coates, president, was in the chair and there was a good attendance of members with a few guests.

B. Hougan, well known rancher of Tatalrose in the Francois Lake district, arrived in the city from the interior on Tuesday night's train and will sail next Monday morning on the Princess Louise for the north. He expects to spend the summer in either the Tulsequah or Mayo mining districts.

Alfred E. Mackney, manager of the firm of Macdonald & Macdonald, analytical chemists of Vancouver, sailed yesterday afternoon by the Princess Louise on his return south after spending a few days in the city. Donald S. McDonald arrived in the city yesterday on the Prince George from Vancouver to be stationed here as inspector for the company of materials used in the fortifications being erected at Prince Rupert for the Department of National Defence.

NEW AND BETTER

COLD CURED ICE

For the Halibut and Salmon Fleets

Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and improvements in ice storage and ice delivery methods.

Ice for the boats will all be old ice, thoroughly cured or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.

Fishermen are invited to inspect the new system.
Better ice than ever before, at no increase in cost, means economy to the boat and improved quality in fish delivery.
