
Is Your Wash a Victim of YELLOW TINGE

BLUE stops clothes from turning yellow and makes them snowy WHITE

White things that have traces of yellow look old — that's Yellow Tinge. For sparkling whiteness give them a last rinse in blue water. All the rubbing and scrubbing in the world won't give you snowy white clothes without that last, magic dip in Blue.

RB-26

Seven colours combine to make white. One of these colours is blue. There is no true white without Blue!

To stop clothes turning YELLOW— To keep them sparkling WHITE — use RECKITT'S BLUE
