DOMINION DAY SOCCER FINAL

Legion and General Motors All Set For Tomorrow

At a special executive meeting of the Prince Rupert Football Association last evening in the Civic Centre arrangements were completed for the playing off of the Dominion Day Cup final when the Canadian Legion meets the General Motors eleven.

The game will take place tomorrow afternoon following the first baseball game. Both teams have similar records in the City League to date, each having lost three and won one game. The Legion has improved a lot since the start of the season. The young General Motors team is not dismayed by the record of their opponents and is out to put their name on the trophy for the first time.

The rule for the use of substitutes in all games will be the same as in the B.C. Football Association Council's constitution. Three substitutes may be used in any game but a substitute can only take the field during a stoppage in play and must first report to the referee. A player who is replaced cannot return to the team during the game.

Disappointment was expressed that the footballers had been allotted the grounds two nights a week only whereas the baseballers have it on Sundays and three times during the week.

Present at the meeting were Ken Yelland, John Wilson, S. P. Woodside, R. P. Smith and J. S. Wilson, presiding.

Soccer Schedule

Schedule for the North Star Trophy football series is as follows:

July 4—Heavy Battery vs. Canadian Legion.

July 8—Canadian Legion vs. General Motors.

July 11—General Motors vs. Heavy Battery

July 15—Canadian Legion vs. Heavy Battery.

July 18—General Motors vs Canadian Legion.

CITY ALL-STARS EAGER TO MEET ALASKA TEAM

The perennial international baseball feud between Prince Rupert and Ketchikan will be renewed tomorrow when the two teams clashing in a double-header at Roosevelt Park which will form the first section of the annual Dominion Day-Independence Day competition.

The Ketchikan team, under Harry Ludwigsen, is due to arrive some time late today for the event, itching to join battle with the Prince Rupert All-Stars which won three and tied for the fourth game in the 1948 series.

Meantime, the Prince Rupert team will work out tonight in the period normally alloted to a regular city league game, sharpening their batting eyes and limbering up generally.

Tomorrow's two games will be followed by a double header when the Prince Rupert team at Ketchikan on July 3 and 4 travels north for the American Independence Day celebration at the Alaskan city.

One of tomorrow's games will be in the afternoon and one in the early evening.

Prince Rupert batteries will consist of Jack Lindsay, Dick Letourneau and Jack Rosedale on the mound and Dave Abel and Herb Morgan sharing the catcher's spot.

Team manager Alex Bill discounts expressions of anxiety regarding Jack Lindsay who last Sunday allowed Commercials to climb him for six hits in the ninth inning of the Savoy-Commercial fixture.

"Lindsay is in shape, all right," Bill reported. He will probably start the first game. We have to win that one to take them all."

Letourneau has developed to a stage where he is expected to handle the Alaskans without any trouble. Jack Rosedale is also in good shape and his southpaw slants will give the visitors plenty of variety, Manager Bill expects.

Cliff Dahl will be at first base, a spot held for several previous years by Joe Davis, who is now fishing and may or may not be available. The remainder of the infield looks good, with Scherk, Simundsen and Arney in top form.

Benny Windle will be on hand to take over when required and by the way he has been hitting lately, it is likely that he will see some action.

The outfield has received some new talent in Stan Cornwell, a newcomer to the league. Pavlikis and Simundson will look after their remote acres with what is hoped will be their normal competency. Both have been batting .500.

Dave Abel and Herb Morgan will share the catcher's spot, with Abel probably getting the heavy end on account of his hitting ability.

DEHYDRATED GRASS SAVES VITAMINS—Newest device for harvesting live stock feed is a grass dehydrator, which saves 90 per cent of vitamins as compared with 50 per cent saved when grass is sun dried as hay, goes into the machines and comes out like powder. Gavin Watson, whose father has one of the machines on his Guelph, Ont., farm, is carrying a scoopful of the dehydrated grass.

Look!
it's smart to keep "right"...
helps beat today's price

"Can't start to slip now . . . at today's prices it takes a full envelope to run my home . . . got to hustle . . . that means stay 'RIGHT'."

Today, more than ever, safeguard your earnings. One good way don't get run-down through "irregularity" often caused by lack bulk food in the diet.

"Makes Luxurious Sauces—"

Says
Mrs. R. G. Cook,
Winnipeg Home Economist

In cream sauces for casserole dishes and soups and vegetables — in special sauces for special serving — good cooks know they get super-smooth, super-delicious results with Carnation Evaporated Milk. And Carnation is so economical! It makes *all* milk dishes taste better too.

Use doubly-concentrated Carnation *undiluted* in recipes that call for cream, or to double the milk nourishment of a dish. For recipes that call for milk mix half Carnation, half water, to give *velvet-blend* goodness and all the food values of fine whole milk.

Still Using Carnation for her "Contented Babies"

Mrs. Cook, Graduate Home Economist, is mother of *three* husky boys who were Carnation babies. And like so many clever mothers, she still gives her youngsters the fine milk on which they thrived, in milk dishes of many kinds. Give *your* family the benefit of nourishing, thrifty Carnation Milk in all milk recipes.

"from Contented Cows"

A CANADIAN PRODUCT

To get 50% MORE Jam or Jelly from your fruit use either CERTO or "CERTO" Crystals

NO TEDIOUS LONG-BOILING

One Minute only for both Jams and Jellies

When you use Certo or "Certo" Crystals your jams and jellies need only a ONE-MINUTE full, rolling boil. This short boil does more than save you time and work.

Since so little juice has time to boil away, you get an average yield of 10 glasses where old, long-boil would only yield about 6.

And the lovely taste and colour of fresh fruit stay in your jams and jellies because the boil is too short to spoil the one or dull the other.

SURE RESULTS EVERY TIME

If you follow EXACTLY the recipes that come under the label of every bottle of Certo or in every package of "Certo" crystals, *you'll have no failures.* You'll get lovely, sparkling jams and jellies every time. Different fruits need different handling, so there's a separate, easy-to-follow kitchen-tested recipe for each fruit.

Quick and Easy...Results are SURE

There's no guesswork in making jam or jelly with Certo Fruit Pectin or "Certo" Crystals. It takes no more time than to make a simple dessert. You get better set, better appearance, better taste . . . *and about 50% more jam or jelly from the same amount of fruit!*

Please yourself which you use. Certo and "Certo" Crystals are both nothing but fruit pectin . . . the natural substance in fruit that makes jams "jam" and jellies "jell" . . . extracted and concentrated for quicker, easier, *better* jam and jelly-making. The word "Certo" is a trade mark.

Ask your grocer today for whichever you prefer { CERTO or "CERTO" crystals
