THE VALUE OF A DIAMOND

Depends more on its perfection and purity than on its size.

It should be pure and clear like water.

It should have no flaws or dark spots.

It should sparkle.

It should be well cut and symetrical in shape.

And of course it should be set in a good looking setting.

Our diamonds are guaranteed perfect and set in well known makes of settings.

Our prices are standard and reasonable.

SHIPS and WATERFRONT

Inquiry was received at the Daily News office last night from a Vancouver newspaper regarding the Vancouver halibut boat Kaare II, suggesting it was missing in halibut fishing in Area No. 3. The suggestion is definitely discounted here. The Kaare II left here last Thursday and would not normally be due back for ten days or two weeks.

On her third Alaska tourist cruise of the season, C.N.R. steamer Prince George, Capt. Ernest Caldwell, arrived in port at 9 o'clock this morning from Vancouver, sailing at 1 p.m. for Skagway and other Alaska points. She will be back here again next Tuesday evening southbound. There were 248 passengers arriving here on the vessel including a few local passengers. Small tour groups from the United States included an Altrusa Club party of 22 and a Commonwealth party of twelve.

FOUND GRAPHITE NEAR CEDARVALE

A good-sized specimen of graphite has been brought to town by Frank McLean, who found it in the Cedarvale region. Black, with metallic lustre, and nearly soft enough to leave traces on paper, it is useful in different industries, particularly in the making of lead pencils.
