Membership In P.T.A. Up

Particularly King Edward School—Would Billet Music Festival Visitors

A substantial increase in this season's membership in local Parent - Teacher Associations over last season's was reported to the monthly meeting of the Prince Rupert Parent-Teacher Council which was held in the Civic Centre last evening with President J. C. Gilker in the chair. The report was presented by Mrs. Darrow Gomez, membership convener. In the case of the King Edward School P.T.A., this year's membership increased over last year's by over 30 percent, entitling that P.T.A. to receive a maple leaf emblem for membership from the P.T.A. central executive for B. C. Mrs. Gomez reported the per capita membership of the four local P.T.A.'s to be as follows:

Conrad Street School, 228 pupils, 100 P. T. A. members.

Borden Street School, 222 pupils, 118 P.T.A. members.

King Edward School, 270 pupils, 145 P.T.A. members.

Booth Memorial High School, 500 pupils, 60 P.T.A. members.

Mrs. J. H. Black suggested that the city's four P.T.A.'s appoint a representative each to arrange for billeting out-of-town groups who come here for the Music and Drama festival in May. Mrs. Black felt that, if sufficient homes were found which would be willing to accomodate members of such groups for a few days, consequently reducing travelling expenses, out-of-town interest in the local festival would be considerably stimulated.

Since no reply had yet been received to a letter sent by the P.T.A. Council on November 23 to city council regarding the placing of school and playground signs to promote greater safety for school children, the meeting decided to write city council requesting that they hold a meeting in the near future with the P.T.A. Council's Safety Committee to discuss school children's traffic and safety problems.

Martin Stuart of the P.T.A. Council School Planning and Building committee reported that a series of articles had been prepared for publication in the local newspaper, designed to present facts to the public regarding requirements of modern education, particularly regarding school buildings, and to bring local problems in this regard into clear focus.
