Boundary Will Stay As Before For Sockeye Fishing On Skeena

Lower Location Set For Fall, Springs

The boundary for sockeye and pink salmon on the Skeena River will remain the same as in former years the Committee on Management for the Skeena River reported today.

The commercial boundary, the report said, should be maintained at a straight line drawn from Mowich Point to Veitch Point (also known as Point Lambert).

For spring salmon and fall fishing other than sockeye and pink it is at a lower point than has been permitted, as an added conservation measure.

The committee also laid down that a 72-hour weekly closed time ending 6 p.m. each Sunday shall be in effect, except as provided in the following paragraph:

MAY BE EXTENDED

The 72-hour weekly closed time will be extended if recommended by the committee in the event that for any week or series of weeks the 72-hour weekly closure is deemed insufficient to provide the escapement of an adequate number of spawners.

Early after its formation, the committee which includes four Prince Rupert District men, decided that fishing for sockeye on the Skeena would be permitted provided additional restrictions were provided to offset the increased efficiency of fishing operations, taking into consideration an analysis of runs and spawning escapements of the 1950 and 1951; the losses caused by the Babine slide in 1951 and also a calculation as to smolt survivals of these two years as determined at the outlet of Babine lake.

The committee is arranging for special test fishing to find out, if possible, daily progressive escapements above the commercial fishing boundary. Through statistical returns and local day-to-day catch reports, the Committee is able to determine daily progress and strength of the season's runs, and to compare with the daily catch records available from the sales slip records of the past five years, and other records from earlier years.

TEST FISHING

Complementary to this the Committee is planning continuous test fishing above the commercial fishing boundary. The group hopes to be able to closely evaluate the ratio of escapement to the catch throughout the season, and so have a firm basis for recommendations for adjusting the period of the weekly closed times throughout the season in accordance with conservation needs.

The committee also announced its members, approved by Minister of Fisheries James Sinclair as follows:

Walter Johnson and S. S. (Barney) Kristmanson of Prince Rupert; Eddie Bolton of Port Essington; K. F. Harding of Prince Rupert, member of the Fisheries Research Board of Canada; R. E. Walker also a member of the research board; R. T. Hager, Canadian Fishing Co. Ltd., Richard Nelson, Nelson Bros. Fisheries Ltd., E. MacMillan, Cassiar Packing Co. Ltd., and Richard Bell-Irving, of the Anglo-B.C. Packing Co. Ltd.

Two Vessels Loading Here

Two deep-sea vessels were docked in Prince Rupert today taking on cargoes of grain and pulp.

Loading 1,010 tons of pulp at Ocean dock is the Norwegian freighter Bataan, which will move round to Columbia Cellulose Company Limited Watson Island dock for another 2,000 tons when loading is completed here. The Columbia Cellulose pulp is destined for London and Amsterdam. Skipper of the Bataan is Captain A. Norman Nielson.

In the process of taking on 9,500 tons of barley at the Dominion government elevator is the Wanderer, a Panamanian-registered vessel which arrived yesterday from Japan via Seattle. Her grain is going to the United Kingdom.

THREE-YEAR-OLD JACKIE Murphy of Antigonish, N.S., a blue baby who underwent a delicate operation in Montreal for a congenital heart condition, smiles in hospital as his mother feeds him some ice cream. In an oxygen tent for 24 hours following the surgery he has made continued improvement since. Little Jackie flew to Montreal with his mother on funds raised by the Gyro Club in his home town. Asian Aid Boosted By U.S.

West Pacific To Get Fourth

WASHINGTON (AP) — President Eisenhower reported today a "significant acceleration" of foreign aid operations last year in Asia, "where communism is stepping up its efforts of expansion."

A report covering the July-December period of 1954 was prepared for Congress by the Foreign Operations Administration, headed by Harold Stassen.

It told how the agency is spending the $2,800,000,000 in new appropriations for the fiscal year ending next June 30 and $2,500,000,000 in carryover funds from previous unused appropriations.

The report did not say specifically how much had been spent during the six-month period, but it said that Far Eastern military aid from its start through December, 1954, had reached a total of $1,900,000,000.

QUARTER FOR ASIA

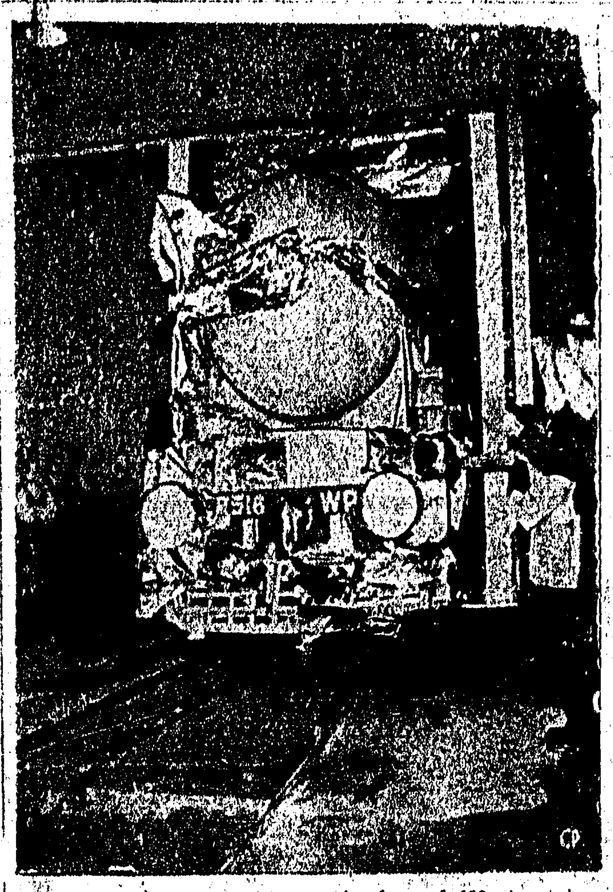
One fourth of the new appropriations were earmarked for Southeast Asia and the western Pacific. FOA said that through March 1 this year it had approved $555,000,000 in that area for various mutual security programs other than military assistance.

Eisenhower, in a letter transmitting the report, noted the stepped up activities in Asia and, speaking of the over-all program added:

"These world-wide programs of military aid, economic development and technical co-operation are increasing the military security and economic progress of the United States and our co-operating partners in the free world."

The report emphasized strongly the shift from Europe to the underdeveloped areas of Asia, Africa and Latin America.

It said Europe's amazing economic recovery was a key factor in permitting this change.



LOCOMOTIVES FOR INDIA — The first of 120 steam locomotives produced for delivery to India under the Colombo Plan breaks through an aluminum sheet during a ceremony at the Canadian Locomotive Company Limited plant at Kingston, Ont. The locomotives, which will replace worn-out equipment and provide new service in India, are being produced at a cost of $21,000,000. (CP Photo)

Bishop Urges Princess Not To Marry Townsend

LONDON (AP) — An Anglican bishop, who two decades ago warned King Edward VIII against marrying a divorcee, has urged that Princess Margaret abandon any plan to wed divorced RAF Group Capt. Peter Townsend.

Dr. Alfred Blunt, Bishop of Bradford, said in an interview with the Sunday newspaper The People that he did not see how Queen Elizabeth — as "defender of the faith" — could consent to her sister entering into such a union.

The Church of England has steadfastly opposed the remarriage of divorced persons, even when they are the innocent party, as in Townsend's case.

The bishop says that if newspaper reports of Margaret's marital plans were true, "it would seem that the only solution would be for one of the parties involved to say they would not go ahead with their plans."

The bishop caused a wide stir when he warned Edward — now the Duke of Windsor — against marrying Wallis Warfield Simpson.

All but four of London's 11 Sunday papers gave prominent play to the reported romance.

The Reynolds News urges Buckingham Palace to make a public statement about the marriage reports.

"The truth must be known in court circles," the Reynolds News says. "Is it not time court advisers decided to recommend a statement that would either demolish or confirm the rumors?"

In Brussels, Belgium, Group Capt. Townsend said today that as far as he knows Princess Margaret has made no decision to marry him.

He issued his statement through the press section of the British embassy here, where he is air attache.

In the statement Townsend referred to a previous report quoting him as saying he and a "certain lady" would accept exile if necessary.

"This implies that Princess Margaret has decided to marry me," his statement continued. "The princess has made no such decision known to me, nor have I any reason to believe she has made such a decision."

Townsend Sunday repudiated the "exile" comment as "pure invention." It was first published in the Sydney, Australia, Sun-Herald, which announced it had fired the correspondent who reported the interview with the man who has been widely rumored as the vivacious princess' choice for her husband.

Fares Dropped In Vancouver

VANCOUVER (AP) — Vancouver street transit patrons purchased tickets with a smile Sunday as fares reverted to 13 cents from 15 cents under a court of appeal ruling.

The fare reduction was ordered by the court Friday following an appeal by the city of Vancouver and surrounding municipalities against a public utilities commission decision last September which boosted fares to five rides for 75 cents from four rides for 50 cents.

Thieves Blow Safe From Wall

VANCOUVER (AP) — A concrete-embedded safe was blown out of its foundations and carted away by cracksmen during the weekend, netting them $600.

The safe was stolen from George Weston, Ltd. The loot was all in cash.

Police said the thieves blasted the safe loose, and wheeled it more than 10 yards to a truck.

McCarthy "Would Start War" To Free American Prisoners

EVERETT, Mass. (AP) — Senator Joseph McCarthy (Rep. Wis.) says that if necessary, he would "start a war" to win freedom of 526 United States servicemen he claims are being held prisoner in China.

In a talk Sunday to the Friendly Sons of St. Patrick, McCarthy said:

"If it were necessary to start a war to get those men back I would say yes, by all means. But we needn't start a war."

He suggested the United States tell "our so-called allies" that they "won't get one red cent of American money" until the Americans are freed.

McCarthy urged the 1,000 persons in his audience to write their congressmen asking "how in heaven's name can you vote to draft American young men and send them to foreign shores if we've abandoned the men we've already drafted and sent them to sudden death and torture in blood-stained Communist dungeons?"

McCarthy sent a letter to President Eisenhower Saturday saying he "would like to hear from you as to what, if anything, you are doing or propose to do to secure the freedom of these young men."

McCarthy said that instead of "double crossing and double dealing . . . we should join hands and regain our national honor."

He said there is no possible "co-existence with the dirtiest fighters in the world."

Biological Test Dashes Hopes of Herring Find

Hopes of finding hitherto undiscovered herring populations on the B.C. coast have been dashed in a statement released by the Federal Department of Fisheries.

Recently B.C. herring fishermen had been stimulated by reports from trawlermen and crab fishermen who found heavy deposits of spawn on the bottom gear. The possibility of new stocks of deep spawning herring was discussed by herring fishermen in a meeting with A. J. Whitmore, chief supervisor of fisheries, when herring men met Dr. A. W. H. Needler, director of the Pacific Biological Station, to hear results of herring investigations.

Taking quick action fishery officers secured a sample of spawn adhering to crab traps at the 40-fathom level in the vicinity of Florencia Island, off Wreck Bay in the Clayoquot district. At the biological station the substance was microscopically examined and some of the eggs allowed to hatch out. Results dashed the hopes of herring men. Eggs that matured into fish revealed that the substance was sculpin spawn. Sculpin have no commercial value.

Swedes Hold 11 Suspects For Spying

STOCKHOLM (AP) — Swedish security police held 11 persons today in the country's third Red spy roundup in four years.

The government announcement said the 11 were suspected of spying for two Iron Curtain countries. Informed sources said they belonged to two separate spy rings working for Czechoslovakia and Romania.

Police picked up 10 suspects during the weekend and the 11th today. They include five Swedes, three Czechs, a Romanian, a German and one unidentified foreigner.

Public prosecutor Werner Rhyninger is expected to ask for the arraignment of some of the suspects next week.

A well informed source said Foreign Minister Oesten Unden probably would summon diplomatic representatives of both Romania and Czechoslovakia this week "for some stern conversation."

The informant said that although the two spy groups apparently operated independently, police struck at both simultaneously for fear one ring would tip off the other.

One of the Swedes picked up was reported to be a worker at the big Karlskoga armament factories, which are turning out an improved model of the famous Second World War 40 millimetre Bofors anti-aircraft gun

Soviet Gunman Arrested After Shooting

MOSCOW (AP) — A husky gunman shot his way into the British embassy Sunday night and seriously wounded a Russian police guard who tried to stop him.

The fur-hatted Russian intruder was overpowered and disarmed by two unarmed British embassy attaches after he had forced his way upstairs to the living quarters of ambassador Sir William and Lady Hayter.

Sir William and Lady Hayter were in the country skiing at the time of the incident and returned just as the gunman was being handed over to Russian police.

No motive for the gunman's action could be learned.

This dispatch was telephoned from Moscow to London. The call was broken at this point by an operator who said in Russian: "There will be no more of this call for the present."

Sharpshooters Of Rotary Club Beat Challengers

Gyro sharpshooters who challenged city Rotarians to a trap shoot over the weekend, are going around with a hang-dog expression today. The Rotarians not only accepted the challenge but beat out the Gyros 76-74.

On the victorious team were Jim Rogerson, Dr. Donald Oakley, Earl Becker, Jack Martin and T. McIntosh.

Shooting for the Gyros were Jack Lindsay, Joe Scott, Ron Allen, Dom Dominato, Tommy Boulter.

VANCOUVER (AP) — Burglars broke into 13 Vancouver homes and business premises during the weekend. Heaviest loss reported was suffered by Sqdn.-Ldr. George J. Swanner, Ottawa, who had $100 stolen from his hotel room.

WEATHER

Sunny with occasional cloudy periods today and Tuesday. Little change in temperature. Light winds. Low tonight and high Tuesday at Port Hardy and Sandspit 32 and 42, Prince Rupert 33 and 40.

AUDREY TOPPING, 26, blonde Canadian housewife from Ottawa and Camrose, Alta., who became interested in sculpture at 24, has two of her terracotta figures on display at the 22nd annual show of the National Society of Painters, Sculptors and Engravers, a top British Exhibition. She is the daughter of Chester Ronning, Canadian minister to Norway and Iceland, whose fondness for sculpture got Audrey interested in the art. Her husband, Seymour Topping, is an Associated Press staff writer in London. (CP Photo)

First 15 Games Played As City Bonspiel Starts

It's bonspiel time again in Prince Rupert and although the tempo hasn't increased to fever-pitch, 15 games were played off yesterday for the Fashion Footwear Primary A event.

The 15 winners will bide their time until Thursday when the Fourth Annual Prince Rupert bonspiel officially gets underway, and the lodges are drawn with visitors for continuation of play.

Tonight's play in the Superior Auto trophy Primary B competition gets underway and the winners, likewise, will wait until the visitors arrive.

A bang-up opening with pipers is scheduled Thursday.

In yesterday's play, both newcomers and veterans had their share of excitement.

One close game saw Jack Mitchell's rink edge Rusty Ford's crew in an extra end.

Other scores were as follows: Warren 12, Aston 6; Laurie 10, Peterson 1; Greene 13, Buchanan 6; Stewart 9, Kreswell 6; Taylor 10, Ley 7; Berg 8, Thom 7; Ostertag 12, McKenzie 7; Georgeson 15, McNeice 5; Parker 13, Rudderham 5; Miller 14, Yule 5; Shier 11, Bateman 7; Robertson 9, Eyolfson 6; Scott 12, Lofgren 7; Paul 11, McLean 5.
