TO MARK CREDIT UNION DAY

B.C. Field Representative To Speak To Four Credit Union Groups Thursday

Frank Humphries, field representative for the B.C. Credit Union League will speak to a joint meeting of local Credit Union and Co-Op directors, committee members and wives at a dinner meeting to be held on Thursday evening.

Thursday, October 18, has been designated as Credit Union Day by the Credit Union National Association and is being recognized as such by more than 10,000,000 members throughout North America.

In Prince Rupert there are four Credit Unions representing more than three thousand members, assets totalling nearly $3,000,000.

In addition to the guest speaker, reports will be given by representatives from each organization. A special report on progress to date on the building of a proposed $300,000 Co-Op Centre will also be heard. This centre when built, will provide office space for credit unions, and facilities for a co-operative store, all to be owned and operated by members of the local credit unions and co-ops.

Credit unions observing Credit Union Day are: Prince Rupert Fishermen's Credit Union which serves fishermen, their immediate families, and employees of organizations owned by fishermen; Celco Credit Union which serves employees of the Columbia Cellulose Company; Legion 27 Credit Union which serves members of the Canadian Legion Branch 27; Kaien Consumers Credit Union, a community credit union which serves anyone who lives in the City of Prince Rupert and district.

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on 'nerves'—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better. 136

Keep it under your hat!

The bright idea of a New York Fire Commissioner gives *us* an idea, too. He liked his dress cap; disliked the regulation fire helmet — but he recognized the ever-present danger of falling debris. So he simply had an inner shield of aluminum made and fitted into the cap.

And that's where *our* idea comes in: A lightweight aluminum shield that would fit under a wayward husband's fedora, and save him many a skull abrasion when he sneaked in late at night to a rolling-pin reception by the little woman. Ah! aluminum, the *useful* metal!
