World on Edge Of "Disaster" Nehru Asserts

NEW DELHI (Reuters) — Prime Minister Nehru said today the world stands on the "verge of total disaster" just when it has arrived at an interplanetary age that should promise happiness and prosperity to all.

Speaking of the success of the Russian satellite, he told the Asian regional conference of the International Labor Organization:

"Even as we record this great triumph of the human mind, a human tschnopogy, we do it in fear and trembling — in fear of a conflict with each other.

"Our pride is damped by this fear of conflict and progress itself becomes a threat."
