Propwash

By GLADYS BALDWIN

The saying "You can't take it with you" doesn't apply to boats anymore, at least not to the trailer boat fan.

With more than 150 trailer manufacturers in the United States and Canada cashing in on the unprecedented boom in boating one of the big handicaps at the moment is launching ramps. According to a recent report, that is going to be helped along to a certain extent.

The provincial government is to install boat launching ramps on B.C. lakes next summer. Tested last summer by the department of recreation and conservation the ramps are constructed of concrete and steel. First experimental ramps were installed at Cultus Lake, near Chilliwack. Recreation Minister E. C. Westwood says ramps have proven durable and economical.

✦ ✦ ✦

I understand **Greg Mcleod** has a "Buzzarr" on the way. That makes two. Should be an interesting competition, both in building and racing. **Mike Wayman** is the other craftsman.

✦ ✦ ✦

The **W. J. Ballinger's** are taking their red and white plastic cruiser out for the winter. She is to have her bottom scrubbed and then she'll be stored away aboard her trailer.

✦ ✦ ✦

Cold or storm doesn't seem to bother Henry Seppa. He's been out in his boat nearly every weekend, around the harbor, up Tuck's Inlet and surf-riding outside Digby. When I asked him, with raised eyebrows, "Surfriding?" he waggled his hand around and said, "You know, the swell from the Pacific. You ride up on top of a wave and — whoosh — down in the trough." Sounds like fun! That is, if you have the right kind of a boat.

✦ ✦ ✦

Mr. and Mrs. Robert Gilmour are in town for a few days. Bob, formerly manager of Edward Lipsett, Prince Rupert, is at head office in Vancouver. Bob also reports **Gerry** and **Robin** received their class trophies and are highly pleased with them.

✦ ✦ ✦

It wasn't so! Last "Propwash" I reported **Chris Harvey** and his group working at the Navy Drill Hall had completed one hydro and it was used out at Taylor Lake in the summer. That was Chris' own boat. It was exhibited partly finished at the Boat Show. Chris completed it and raced it.

✦ ✦ ✦

Did you know:

● A damp anchor rope, left inside a boat through the winter, will spread its dampness to the wood surrounding it.

● Batteries left in a flashlight can leak and spoil both the flashlight and paint finish where it rests.

● A good temporary end splice can easily be made with plastic electrical scotch tape.
