'56 Monarch 4-door hard top. Immaculate condition. Low mileage. Phone 3802. (36)

1952 Ford Panel in good condition. Low mileage. Phone 3045. (36)

## Banks Announce Reduction Of Loan Rates

MONTREAL (CP) — The Royal Bank of Canada and the Bank of Montreal have announced a reduction in basic interest rates on loans to 5¼ per cent from 5½ per cent, effective Monday.

The move was indicated last weekend when the average rate of yield on weekly treasury bill sales dropped a relatively sharp one-half-per-cent in a two-week period.

A corresponding drop in the loan discount rate of the Bank of Canada followed. The rate adjusts weekly to a figure one-quarter of one per cent above the average yield on treasury bills.

The Royal Bank and Bank of Montreal made the reduction announcements separately Monday.

## Fuel Prices Cut

LONDON (Reuters) — Fifteen months after Britain and France invaded Egypt, major British oil companies Monday cut their gasoline and diesel oil prices back to pre-Suez levels. The new price will be four shillings and two pence a gallon for regular gasoline 58 cents on the international sterling rate which does not reflect actual living costs here.

## Safety Pioneer Helped Kids to Help Themselves

By Jeanne Smith, Dodge Safety Consultant

YOUNGSTERS THROUGHOUT THE WORLD walk to and from school in safety today—because of the enthusiasm and persistence of an ingenious Chicago businessman.

Charles M. Hayes, now president of the Chicago Motor Club, began his work in the safety field in 1922. As the use of the automobile increased, the resultant greater traffic brought many new hazards to school children.

Miss Smith

"A child was being killed every other day," he recalls, "and something had to be done about it." He believed that by posting selected older children at busy traffic intersections, they could effectively safeguard their schoolmates against this growing danger.

And so the School Safety Patrol system—now a world-wide organization—was founded. Hayes laid his plan before top Chicago police and public school officials who promptly agreed to "give it a try."

In the pilot city of Chicago the plan was an almost immediate success. Hayes didn't stop there, though. He talked patrols to everyone and devoted much personal time and energy in traveling throughout the country to help organize new patrol groups.

Within six years after its inception, there were 70,000 patrol members in 500 American cities. Today, besides the more than 600,000 patrol boys and girls in the United States, there are 57,000 patrol members in foreign countries.

The great strides that have been made toward reducing, and eventually eliminating, the child accident toll are a direct tribute to Hayes. During the 1955-56 school year, for instance, NO CHILD was killed on the streets of Chicago—the nation's second largest city—or, for that matter, in the whole state of Illinois at school patrol guarded crossings.

Moreover, the influence of school patrols extends far beyond the intersections where they are on duty. Educators throughout the country regard the patrol movement as an excellent safety educational tool, as well as a means of developing character and positive usefulness for community living.

## Reds Lose Members

LONDON (Reuters) — The membership of the British Communist party—some 34,000 before the Soviet intervention in Hungary in 1956—now is about 25,000. Its political committee said that 24,670 members, or 95 per cent of the November membership, had re-registered for 1958.

**SCHOOL TV**

Schools in Britain now get two half-hour television programs daily, one from the BBC and the other from the independent television system.

## Princeton Distillery Plans Move

VANCOUVER (CP) — A large distillery may move a brewery into the Okanagan to facilitate the making of hard cider in the fruit-rich region.

Possible sites are Kelowna, Vernon, Summerland or Penticton.

R. T. Mullens, special representative of United Distilleries said in an interview the company is studying the possibility of moving its Princeton Brewery from Princeton to one of the Okanagan centres. United is the parent company. The Princeton brewery at present manufactures beer.

Mr. Mullens has just returned from a tour of the valley. He said nothing definite had been decided but that his company is interested in setting up a cidery.

He said it would not be practical to have the brewery and cidery apart and should the latter be approved the brewery would be moved and continue to manufacture beer at the new site.

Mr. Mullens said his company has provincial government approval to make cider with an alcoholic content and company representatives would meet with federal government officials to secure their go-ahead.
