1950 Chev. for sale. Call 2483. (107)

'53 VANGUARD, 1 owner, good condition. Phone 6229. (104)

Francois Lake news

By AGNES H. NEAVE
Daily News Correspondent

We wanted to try out our new aluminum boat, so on Thursday morning my husband, Ernie Howard and I set out with our fishing tackle and grub box to try out a bay 15 miles east of the Landing where we heard the trout were biting well. It took us a little more than an hour to make the trip, and when we had caught our limit we had our meal by the campfire. The water in the lake is very high this year. Old timers say that they cannot remember its being so high early in the year.

Mr and Mrs. Dave Price and their children Stanley Helen and Kathy of Smithers stopped in for a short visit on Tuesday as they were waiting for the ferry. They live in Smithers. With them were Elsie Schiller and Clara Monery of Prince George.

Jay-walking ticket spoils 96-year record

LOS ANGELES (AP)—After 96 years and 363 days of being a model citizen, Frank H. Peyton finally has a record with the police. A jay-walking ticket Monday broke his perfect performance, and Peyton observed his 97th birthday Wednesday by

Norm Hansen to visit central B.C.

A radio announcer well-known to Prince Rupert Canadian Broadcasting corporation listeners, Norm Hansen of the CBC fish and farm broadcast, will be among eight members of the B.C. Farm Writers association to tour central B.C. beginning in Terrace May 28.

Headed by association national president R. V. Beamish, Saskatoon, the party will fly from Terrace via Canadian Pacific Airlines to Kitimat and and continue through to Smithers, Burns Lake, Vanderhoof and Prince George to investigate at first hand the agricultural possibilities of the north.

Union urges African boycott

MORECAMBE, England (Reuters)—A boycott on all South African goods was urged here today at the annual conference of the Electrical Trades Union. The conference, representing 230,000 British workers, passed a resolution condemning "the inhuman policies of the South African and Federation of Rhodesia and Nyasaland governments based on racial oppression."

Suspend councillor

LONDON (Reuters)— The Labor party executive decided Wednesday to suspend from party membership Councillor John Lawrence, leader of the socialist-controlled Central London St Pancras Borough council. Lawrence hoisted the red flag over the St. Pancras town hall during May Day celebrations. He later was fined following disturbances.

No bail seen for Hannah

VANCOUVER (CP) — Christian George Hanna will likely spend a week in jail awaiting trial on a charge of committing an incident act although bail was set at $50 when he appeared in court Thursday.

No one has come forward to post bail and "he would have nowhere to go and no money even if he did get out," said his counsel, Donald S. White.

Blast probed

MIDDLETOWN, N. J. (AP)—Investigators combed a Nike base near here today in an attempt to learn what caused eight fully armed missiles to blow up in a furious mushroom of fire and death. The explosion Thursday killed from seven to 10 persons and scattered explosive — but non-nuclear—warheads across a wide area of the countryside.

FIGHT BIG BLAZE

LONG BEACH, Calif. (AP)—Firemen battled today to prevent a devastating oil refinery blaze from setting off an 860-000-gallon tank of poisonous tetraethyl lead. Flames shot high over Signal Hill all night as they raged through the $25,000,000 ancock Oil Company refinery.

PERSONALS

Leading Seaman W. D. Leggett, RCN, and Mrs. Leggett, Langford, B.C., are presently in the city visiting Mrs. Leggett's parents, Mr. and Mrs. Murdo Macarthur, 1053 First Avenue West. Making the trip by car, the visitors will spend a ten-day holiday here.

Miss Lillian Neibrant, RN, leaves tomorrow by CPA plane for her parent's home in Rhein, Saskatchewan, following a two and a half year tenure here, on the nursing staff of the Prince Rupert General hospital.

SCIENCE IN YOUR LIFE

Versatile Antibiotics

Antibiotics have turned out to be one of science's most versatile discoveries.

First they turned mortality tables upside down in the treatment of human diseases. They put more food on our table by stopping costly plant and animal diseases, too.

Then scientists found that tiny amounts of antibiotics added to farm feeds boosted weight and growth rate of animals and poultry.

Now scientists report that antibiotics can be used to keep meat fresh for several days without refrigeration. Researchers of Chas. Pfizer & Co., Inc. told of this latest use at the Third Annual Antibiotics Symposium in Washington, D. C.

The investigators pointed out that only limited amounts of meat can be handled by drying, salting, smoking, canning and pickling. Most fresh meat is distributed either by rapid handling in countries without refrigeration, or by chilling.

Low temperatures, however, slow down enzymes which act to tenderize meat. Injection of Terramycin prior to slaughter, the scientists found, inhibits growth of bacteria and permits higher storage temperatures so that meat can be aged in much shorter time. Tests indicate that as little as one-half part per million of the potent antibiotic inhibits bacterial spoilage of fresh beef, pork and mutton.

Experiments conducted at a commercial packing house in Cuba proved that treated beef carcasses remained fresh even when held at 95 degrees Farenheit with high humidity.

In countries such as the U. S. and Canada, antibiotics can undoubtedly be used along with refrigeration. In areas without adequate refrigeration, antibiotics may help to deliver a more wholesome product to consumers.
